PORTLAND OPENS VISITORS' EYES

Brooklyn Party Surprised at Wonderful Progress on Pacific Coast.

WEST IS LITTLE KNOWN IN EAST

Rose City Would Attract Thousands If Delights of Climate and Growth Were Given More Publicity in Eastern Centers.

Leading members of the Brooklyn party which visited Portland yesterday paid high compliments to the Pacific northwest and the Rose City. All of them were delighted with the country and climate and declared their intention of coming to the coast again when they could spend more time in visiting the country than they have been able to do on their flying trip in a special train.

David F. Butcher, an influential business man of New York, was with the party yesterday and said that while he had been to Europe several times he had never been to the Pacific coast before. "The people of the east do not know what you have out here," said Mr. Butcher. "The climate and country surpasses anything I have ever seen and there are few places in the world I have not visited."

Impressed with Portland. "Portlanders are the right kind of people. They have the push and energy that is necessary to build up a new empire and I like the way they are going about it. Those magnificent buildings are the best evidence in the world that the people here are building for the future in keeping with the development of the country."

"If my son wanted to come to Portland tomorrow to start in business I would do all I could to encourage him. I have lived in New York pretty much all my life and although there are great advantages in the metropolis, I feel very much like the old manufacturer in the little city in northern England with whom I visited several years ago. This man had five sons, all of whom grew up and sought homes in different parts of the world. The old man explained to me that the little city was exactly the same as it was 60 years ago—not a new building or change of any kind. No wonder the sons left for Australia, Africa and America. I feel the same about my own son and all the places I have visited, none has impressed me so favorably as Portland."

Portland Should Be Advertised. J. W. Greenwood, another member of the party, also spoke enthusiastically of Portland. Mr. Greenwood spoke of the surprise in store for easterners upon their first visit to the coast. "I am ashamed to say that I had a very hazy idea of the cities on the Pacific coast," said Mr. Greenwood yesterday. "Like other easterners I did not know much about the country west of the Mississippi river. This trip though has been one of education for me, as it has been for every member of the party. Portland should be better advertised in the east. If people back there knew what we have learned today, hundreds and thousands of them would come to the coast at once to reside."

The expressions of Mr. Butcher and Mr. Greenwood were voiced by every member of the party. As they congregated about the hotel yesterday after trolley rides about the city, expressions of pleasure complimentary to the city and its people were heard from all. They all took the keenest enjoyment of their trip and were not backward in saying so. The fact that they were in such a manner among themselves is taken as much better evidence of pleasure they derive out of visit in the Rose City than their compliments to Portlanders, all of which are complimentary.

INDIAN GIRLS SOLD AT POTLATCH

(Special Dispatch to The Journal.) Over, B. C., Aug. 29.—Two Indian girls, 14 years old, were sold at a potlatch held at Alert bay last week. The girls were sold to a party of adventurers who had come to the coast to buy slaves. The girls were sold for \$1,000. The party brought \$700, and was service of another tribe. The authorities may take action against the Indians.

COAST ATTRACTS SOUTH'S MONEY

Texas Banker Says Portland Is Unsurpassed as Field of Investment.

DIXIELAND WILL SEND NEW RESIDENTS HERE

Vice-President of Houston Trust Company Compares Home Banking Institutions Which Advertise Extensively With Those in This City.

Prosperous times in Texas and strong growth in the banking business of Houston was the burden of a talk by J. M. Rockwell, vice-president of the Union Bank and Trust company, who was until yesterday a guest of L. B. Menefee, of Portland. Mr. Rockwell has been visiting in and about this city a week, and departed last night for the south. He says the banks of the northwest are showing great growth, and could pay 5 per cent on deposits and still make money.

In view of high prices and high rates of interest in the northwest, he said, the country is a good place for business and investments. The city of Houston, with 60,000 population, has five strong national banks as compared to Portland's three national banks and 200,000 people.

In addition to its national banks Houston has four growing savings and trust companies. The Union Bank and Trust company, of which Mr. Menefee is a director, has a capital of \$500,000, deposits of \$3,352,000, and loans amounting to nearly \$3,000,000. In two years it has accumulated a surplus and profits of \$237,450 by following modern and progressive methods of banking. It pays 4 per cent on deposits, 3 per cent on daily balances of outside banks, and 2 per cent on checking accounts.

All Houston banks are steady advertisers, and they let the public know through the newspapers all about the advantages of carrying bank accounts, and savings deposits. A copy of one of the Houston daily papers was shown in which nearly three columns of display advertisements of national and savings banks appeared regularly. Through the national banks advertise to pay 4 per cent on time deposits, and their savings departments are kept open to the public until 9 o'clock Saturday evenings and 6 o'clock daily. One of the savings banks advertised to pay 5 per cent on deposits and the same bank guarantees 7 per cent on participating certificates of depositors. Mr. Rockwell was favorably impressed.

CHILDREN IN PAIN never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for colic, when they really are suffering from hunger. This is caused from their food not being assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Sold by all druggists.

THE local agent of an outside Bonding company has the excuse that he is merely the representative and therefore not responsible in case of misfortune. Persons seeking Contract, Judicial or Indemnity Bonds of the Union Guarantee Association of Portland, Oregon, deal directly with the officials; men whose interests are local and involved in the welfare of their company. This Association is therefore the safer for Oregon people, and every cent paid to it in premiums accrues to the benefit of Oregon. Plate Glass, Steam Boiler, Liability and Accident Insurance.

UNION GUARANTEE ASSOCIATION Marquam Bldg., Portland, Oregon

WARMER WEATHER IS WANTED FOR CROPS

(Special Dispatch to The Journal.) Roseburg, Or., Aug. 29.—The continued cool weather and occasional rain here at this time of year is the cause of much comment and especially among the farmers who are harvesting now. There has been no material damage so far to the grain and the majority of the threshing in Douglas county is done.

The prune crop is coming on and will be ready about September 1 to begin drying. It is feared that it will be damaged to some extent unless clear weather prevails. Greater preparations are being made to care for this year's crop than ever before. Tilson & Co. of Salem have purchased the Douglas county prune packing plant here and have been doing some extensive work on the plant. The improvements when completed will make one of the best packing plants in southern Oregon.

The Willamette Valley Prune association is also making preparations to handle a large portion of the crop and they also are doing extensive work in their plant to bring it up to the standard with other plants in the state. Each institution will handle over 100 carloads of prunes this season.

Exclusive Scotch and English novelties. Hoolbrook & Leaven, tailors, Couch bldg.

DEAD AND GONE TOWN SUED FOR OLD DEBT

Curious Case in Linn County, City of Waterloo Being Defendant—Suit an Old Warrant.

(Special Dispatch to The Journal.) Albany, Or., Aug. 29.—The city of Waterloo has been sued by R. G. Keene for the recovery of \$68.87, alleged to be due him on warrants issued on the treasury of that town and unpaid. The city government having been abandoned and no officers elected, the charter of the city has practically been abrogated. The last known recorder of the city was George Stiers of Lacombe and service will be made on him of a copy of the complaint and summons.

Waterloo has had no city government for the past six years or more and the city has been allowed to lapse into a village. A few years ago one Mrs. Devine filed a homestead on a great portion of the town and has perfected her entry and obtained title. How the plaintiff expects to realize from a defunct city is a curious question and the case is being watched with interest.

DEBATE WHETHER TO PICK HOPS OR NOT (Special Dispatch to The Journal.) Eugene, Or., Aug. 29.—As the time for general hop-picking to commence in Lane county arrives there is a question in the minds of many of the growers whether or not the price offered now will justify them in picking. A number of growers have declared that they will let their yards go, as they cannot see any profit in paying 7 and 8 cents

per pound for raising and harvesting the crop and receiving only 6 or 8 cents for it. John Thornbury, one of the largest growers in the county, whose five yard is situated on Patterson island, a mile and a half northeast of Eugene, is said to be in favor of abandoning his crop although he has not yet made up his mind.

The hops in Lane county are generally in perfect condition, no vermin having appeared in a majority of the yards, although in some there are a few. Despite the dismal outlook for a good price, many of the growers will go ahead with picking and trust to a betterment in the condition of the market to put them even. Some have already begun picking and others will begin this week.

The usual price of \$1 per hundred weight for picking is being paid this year. In this locality some pickers can make as high as \$2.50 and \$4 per day at this price, but the average picker's wages range from \$1.50 to \$2.50 per day.

to put them even. Some have already begun picking and others will begin this week. The usual price of \$1 per hundred weight for picking is being paid this year.
