Northwest Institutions Begin Training Before End of September.

CHAMPIONSHIP FIGHT SHOULD BE CLOSE ONE

Idaho, Washington and Whitman Will Have Teams Out Early-O. A. C. Has Strong Hopes of Wrest ing Honors From Old Rival.

By Robert A. Cronin. With the opening of the northwest colleges less than a month distant, fancy is turning from the diamond to the gridiron, and prospects of championship material in the different teams is the all-absorbing topic. Practically all of the varsity schedules have been completed, and the various coaches will take up early training not later than Septem-

up early training not later than September 25. Many of the squads will be out earlier than that time, although earnest practice will probably not begin until the last week in September.

This season the championship of the northwest is much in doubt. Practically every team in the northwest has lost men by graduation who can not be readily replaced by the incoming players. This fact will probably place all of the teams on an equal footing, although some of the colleges, notably the University of Oregon, have a slender nucleus around which to build up winning teams.

It will be impossible to forecast the probable strongest team until some definite showing has been made in per-

Past Squad at Washington.

Past Squad at Washington.

Washington expects to be out with one of the fastest squads since the days of Speidell, Lantz, McElmon and Pullen. It is repovted from Seattle that the freshman class contains some of the strongest scholastic players in Washington, and with proper coaching a team equaling, perhaps surpassing, the memorable one of 1903, will be developed.

Captain Elmer Armstrong of the University of Idaho, predicts a large squad out the first week of college, which will be whipped into shape by John R. Middleton, the Gem state varsity's famous quarterback, Middleton, who succeeds J. G. Griffith, the coach of the Idaho university for three years past, has the confidence of every member of the squad, and it is believed that he will be just as great a success as coach as a captain and player. captain and player.

Want Belations Resumed. Followers of the great college game in the northwest would like to see relations resumed between Washington State college and the University of Washington, which were broken off several years ago. Students of the eastern Washington institution have been making overtures for the past years for a renewal of athletic games, but up to this time no agreement has been reached.

reached.

The Pullman athletes do not take kindly to being dubbed "cow college" by the State university students, and this has in a measure accentuated the has been accentuated the light state of the light state. this has in a measure accentuated the strainined feelings between the two big schools. Jerry Nissen, Pullman's captain, believes he has a host of championship material coming this year, and Washington State will make a strong bid for the championship. Last year W S. C. had one of the best teams in the northwest, and although no meeting was had with the crack Oregon eleven, a game would have been welcome.

Whitman Due to Win.

whitman pus to win.

Whitman college is banking on a light, fast eleven, and the old "grads" of ligure that the team is about due to figure that the team is about due to win something. In a college of Whitman's size it takes from three to four years to develop a team, and the last year generally sees an eleven able to cope with any of the other college aggregations. Entrants from the Spokane high school have aided materially in strengthening Whitman's teams, and this year the contingent from that city will contain a number of good players.

Here in Oregon the two old rivals will fight it out on the same lines as in former years. The state university, weakened by the loss of such stars as "Weary" Chandler, Moulien, Jack Latourette, Hug and Mockinney, may not present such a formidable front as in the past three years, and the hopes of the Oregon "Aggies" are high.

There is also a bare possibility, it is gaid, that Olin Arnspiger, the crack Oregon tackle, will not be seen on Deugene campus this fall. Arnspiger is making a great success in civil enginering work on the coast and may contlude to continue with it.

Moullen, the "Eckersail" of the west will undoubtedly be the greatest loss to the lemon yellow team. Moullen's iron foot snatched an Oregon victory from Multnomah last year, and it also rolled up 12 points against the university of Idaho at Moscow. Eastern football men said last year that Moullen's place kicking was entitled to just as great a place in the pigskin hall of fame as that accorded the wonderful drop kicks of the great Chicagoan.

Aggies Spurt at Stark.

Oregon Agricultural college expects to develop a team that will win from

Oregon Agricultural college expects to develop a team that will win from anything in the northwest. The husky "farmers" will not be content this year to be rated second to any other college. General Manager Greenhaw expects the team to be worked into the fastest bunch that ever upheld the honor of the Corvallis institution. For several years past the Assies have come to the the Corvallis institution. For several years past the Aggles have come to the front with a sourt at the end of the season and surprised followers of football. But this has been too late to stand in hand for the important college games, and it will be one of the prime objects of the O. A. C. coach to year to correct this puzzling axhibition. With the same aggregation that O. A. C. has had for the past two years and the form displayed in the last two games of the schedule, it is doubtful if any college team in the northwest could prevent them from scoring.

Regardless of the loss of her veterans, the University of Oregon expects to put out a football team that will uphold the reputation made by the last three teams. Captain Gordon Moores, the best and on the northwest field today, still has some excellent material around from which a winning team can be built up. Moores will assemble the players at Eugene on Sepetimber 20 and turn them over to Coach Gordon Frost, who is expected to arrive in Eugene, on September 28. George W. Hug, last Nov.

The best shooting on the river, however, will not come till November. Grand Coulee, north of Coulee City, on the old bed of the Columbia river, is one of the most picturesque duck lake regions in the country, but shooting is difficult, owing to the lack of cover. The ducks are thickest at Steamboat rock and Steamboat lake.

Spokane sportsmen are interested in two of the finest duck preserves in the Pacific northwest. One is at Moses lake and is controlled by the Blue Wing Duck club. The lake is west of Spokane, and means a 10-mile drive across the country. There is 50 miles of shore line, more than half of which affords an ideal marsh for duck shooting. The Spokane Six club has a preserve near Odessa, Washington, where are 3,000 acres of marsh. The members headed by Fred H. Mason, are liberal with invitations to visiting sportsmen. Hunters in eastern Washington report good grouse shooting in the Okanogan country, northeast of Spokane, where the season has just opened. Game Warden J. A. Uhlig says the birds have been well protected and that there has been little of no shooting out of season. One hundred and fifty licenses were issued by the auditor of Spokane county and it is expected there will be several hundred more before the season is well under way. It will close Nowember 15. For elk, moose, antelope, mountain sheep, the season will be from September 15 to November 15; for capibou, September 15 to December 15; mongolian pheasants until September 15; water fowls, ducks, geese, swan, brant, sandhill crane and snipe can be shot from September 1 to March 1.

## BUYS BUSH CLUB TO INCUBATE PLAYERS

From the Detroit News.

Joe Cantillon, knight of the red vest, has some great ideas scintillating under his bonnet.

Fans and players the world over have

been wondering why and wherefore Joe was assembling such an army of young players—how he could handle them all, and when they should get any sort of a trial. Latest information solves the sistent aspirants for championship honors.

Goss has beaten Wickersham many times and "Wick" never gave him as close a run as he did yesterday. The close score was due to an improvement on the part of the defeated one, however, and by no means to any slump on the part of the victor. Indeed, after the match Goss said he never played a better game in his life.

The contest occurred in the second round of the tourney for the championship of the Irvington club, which with other tennis events, is now in progress at Irvington. By defeating Wickersham Goss now has practically a cinch on the title. He will have to play one or more of several strong men, such as Wilder, Andrews and Benham, but it is unlikely that any of them will give him the run that his old rival did yesterday.

Portland to See Good Games.

Portland will have several opportunities of witnessing good college games this season. In addition to the Oregon-Multnomah game on Thanksgiving day, the state university will meet the university of Idaho here on October 26. In 1906 Idaho claimed the college championship of the northwest, but lost heavily the following year by graduation and could not prevent Oregon from getting within kicking distance of the Goal. However, the Idahoans prevented the Oregonians from crossing their goal. However, the Idahoans prevented the Oregonians from crossing their goal line.

Be that as it may, nothing could be more painfully evident in the match arranged for next Admission Day at San Francisco than that someone is going Francisco than that someone is going to clean up a big pot of money. To my mind there can be but one outcome to the affair, and that is a clean knockout early in the encounter for Gans. I mean of course, if the fight is pulled off strictly on the square, if I may be pardoned for using the slang vernacular of the fighting fans.

Gans. I mean, of course, if the fight is pulled off strictly on the square, if I may be pardoned for using the slang vernacular of the fighting fans.

Gans in Perfect Condition.

It is a well-known fact that Gans has never, during his long fighting career, been in anything but perfect condition. While much has always been made over his training for his more important events, frequently he has signified his willingness to don the gloves and enter the ring with opponents right then and there when the agreement to fight has been signed.

Time and again for little or nothing he has fought one, two and three men on the stage of a variety theater in Baltimore while under the direction of all Herford, nightly. Never was the negro hurt in any of his encounters and for some reason, best known to Herford, Gans was always made to fake every important fight he ever had.

Look back if you will to 1905 when Gans denounced Herford and laid bare to the sporting world his many fake lights, enumerating those he had with Britt. For months Gans was driven from pillar to post with hardly a place to sleep or sufficient money with which to purchase his meals with him. Then Levy took him up and got on a match for him with Mike (Twin). Sullivan. to purchase his meass with him. Then Levy took him up and got on a match for him with Mike (Twin). Suilivan.
