Bolse, William Reidt, Judge Hogue and Messrs. Buckman Ferguson and Young. The burden of the protest was that the location of the piant in Sullivan's gulch would depreciate property values.

The board members assured the protestants that they had no power of fixing a site and that it was not their intention to recommend a residential district for the plant.

It has been iterated and reiterated by members of the board that the garbage incinerator will give no offense to smell and that the city will enter into a bond which will compel the carrying out of this agreement by the company building it, or else it shall be torn down and every brick carted away. However, these statments seem to give hat little reassurance to the residenters.

WILD WEST STUNT THAT WAS NO JOKE

Mendocino Pete, a Siwash, Saved From Great Bodily Harm by Skillful Rope Throw.

(Special Dispatch to The Journal.) Oregon City, Sept. 3 .- A tragedy was averted at the wild west show across the Willamette river bridge yesterday afternoon by the skillful and dexterous throwing of a lasso by one of the cowboy performers. Among the features of the show was a grizzly bull, with an offer of \$25 to anybody who could ride him around the ring. The animal had evidently been trained, when anybody outside of the show people would attempt to ride him around the ring, to execute a half somersault and throw the would-be rider over his head like a bucking broncho. One of the performers, a Siwash Indian known as Mendocine Pete, started to ride him around the ring, but the bull did not seem to care to carry even an Indian around, as he landed the rider over his horns and on the ground and started to toss him up, but he was almost instantly lasseed and prevented from doing any further mischief. VISITING PORTLAND

Morteza Khan Is Studying Trade Conditions Here for Benefit of His Country.

In an effort to become better acquainted with commercial affairs in America with a view of enlightening his government at home, Gene Morteza Khan, Persian minister at Washington, is in Portland visiting about the city and studying trade conditions. Minister Khan is especially interested in effecting strong commercial rela-tions between Persia and the United States. The industries in his country

are growing larger yearly and he be-lieves that America presents the best market in the world for the rugs and oriental goods which are manufactured on a large scale in Persia. On the other hand, says the minister, agricultural implements of modern manufacture are needed in Persia to develop the large areas of fertile soil that extend throughout the length and breadth of his country.

throughout the length and breadth of this country.

"My visit to America has been one of education," said the Persian this morning. "Your vast commercial enterprises; your large factories and mills are a constant revelation to me. Nowhere in the world do the people do things as in America. Thrift, industry and labor are found on all sides. It is for the purpose of better learning the methods and ways of bringing about these conditions that I am touring the country. What I am able to learn by my present trip I will relate to my government at home. It is the desire there to increase our facilities so we can take rank with the leading nations of the world in commercial affairs."

Minister Khan will leave tonight for the south ending his present journey in Mexico where he will notify President Diaz of the death of the Shah of Persia and the succession of his son, Mohammed All Shah, to the throne of the monarchy.

JUDGE WALDO DEAD AT HOME IN HILLS

After an Illness of a Month, Following Injury Received on a

Mountain Tour.

(Special Dispatch to The Journal.) Salem, Or., Sept. 3.—Judge J. B. Waldo died last night at his home at Macleay after an illness of a month, due in part at least to injuries he re-ceived while traveling in the moun-

ceived while traveling in the mountains.

The funeral of Judge Walds will be held from his late residence in the Waldo hills tomorrow at 10 o'clock, Interment will be made in the Odd Fellows' cemetery at Macleay.

Judge Waldo leaves besides his widow a daughter, Miss Edith Waldo; a brother, William Waldo of Salem, and a sister, Mrs. David Logan of Seattle. Mrs. Waldo is a woman of note. She is at present state grange lecturer and is an intellectual force in that society. It was Judge Waldo's habit each year to apend several weeks in the mounto spend several weeks in the moun-tains, passing by the known resorts and seeking his camping-places in the un-explored forest. On these outings the explored forest. On these outings the judge was always accompanied by three or four attendants, whose duty it was to keep the camp. Usually employing men who could entertain him with song or story, he would seek the mountains where they were least frequented to induige his love of nature uninterrupted by unbidden guests.

The judge was a keen lover of nature, and on his mountain trips left himself free to follow his fancy in passing his time. He delighted in finding his way through places where paths

ing his way through places where paths had never been trod. On one of these expeditions he discovered Waldo lake, near the summit of the Cascade moun-

tains.

In 1877 he discovered Breitenbush hot springs, near Mt. Jefferson.

Physical exercise was a favorite pastime of Judge Waldo, and while in the mountains he indulged at will, climbing mountains and taking long walks through the woods.

In the evenings such entertainment. In the evenings such entertainment as the judge wished was provided by his men. If his mood demanded songs,

nearly all of them of children from 11 to 15 years old.

Remarkable results have been accomplished by the court in handling these cases. The report shows that of the children who are allowed to return to their homes under the supervision of a probation officer, about 85 per cent turn out well without any further action on the part of the court.

Less than 5 per cent of the total number of children were sent to the re-

ber of children were sent to the re-form school. As to the work of refor-mation of wayward girls at the Home of the Good Shepherd, the report says: "Of the 39 delinquent girls sent to the Home of the Good Shepherd, judg-ing from past experience, a complete ing from past experience, a complete reformation will be secured in nearly all the cases. We have found in these cases that under the care of the sisters of the Good Shepherd, it is principally a question of time. Where we have a question of time. Where yielded to importunities and and released a wayward girl too soon, she has been lost. Where we have kept her under restraint and the influence and training of these sisters for a long enough time, her reformation as a rule, been complete.

BIG STRIKE IN BLUE RIVER MINING DISTRICT

News of a recent big strike in the Blue river mining district of Lane county is brought by W. J. Forrester of the Union Mining company, who says that his company has recently uncovered a vein of ore that will assay more than \$800 to the ton.

"Last Saturday a week ago," said Mr. Forrester, "we struck ore that assayed \$845 to the ton at a depth of 200 feet. We have gone in 20 feet further since then and the vein bas widened out to two and a half feet. It apparently continues to widen the further in we go. We have been working there for seven years and have about 1.700 feet of tunnel work, but this is the best thing we have heard from in the district so far." county is brought by W. J. Forrester
