Organization Is Formed by 250 Portlanders to Secure Cheaper Wood.

INCORPORATION PAPERS ARE BEING PREPARED

Capitalization Will Be Placed at \$50,000-Promoters Claim Fuel Can Be Delivered to Most Parts of City at \$5 a Cord.

Fired by the possibility of obtaining good for less than \$5 a cord, more than 150 men in this city have formed the Cooperative Fuel company with the avowed purpose of "bucking the fuel trust." At a meeting last night of the proed stockholders in the Abington uilding, plans were carried out for incorporation of the company and mmation of the scheme. Dr. H. M. Patton, H. H. Clark and

C. D. Lownsdale were appointed to pre-pare incorporation papers and file them at once. It was decided to place the capitalization at \$50,000, making each dollar represent a share in the corpora-tion. The powers are defined as buy-ing wood and other fuel and making brick, which latter function may be ex-ercised on land suitable for that pur-pose which has been stripped of its wood supply.

One Meal

system will absorb—than ten pounds of meat.

nificent condition.'

body.

are in view, some of which already has been secured.

Every person who buys wood will be a stockholder. Every cord of wood will represent five shares in the company. Then at each annual meeting the books will be balanced and all surplus over the expense required to handle the wood will be refunded to the stockholders according to the shares each holds, or the amount of wood the stockholders according to the shares each holds, or the amount of wood the stockholders apurchased.

The promoters say wood is now being purchased at \$1.25 a cord, while the expense of delivery will not be more than \$2.50 a cord. Maintainance of the office for freight and other expenses, the promoters say, will easily be covered by the remaining \$1.25, and then leave a comfortable margin.

The meeting last night was well attended. The next meeting will take place Friday evening, September 6, at 7:30 o'clock. It is the plan to get to work as soon as possible. The company is now taking orders for wood which it promises to deliver within 60 days.

ISABEL IRVING MAKES A CLYDE FITCH HIT

(Special Dispatch to The Journal.) Scranton, Penn., Sept. 3 .- Isabel Irving made her first appearance in the Clyde Fitch play, "The Girl Who Has Everything," at the Lyceum theatre here last night and scored an immediate here last hight and scored an immediate success of extraordinary dimensions. The part is that of a young woman of society who has been left to care for her dead sister's children. The dialogue is brilliant, the situations of extraordinary tenseness, and the characters those one might expect to meet in any drawingroom. H. A. Roberts, Harry Hilliard, Helen Weathersby and two wonderful stage children all scored immediate hits. The company is booked for a long tour of the entire western territory.

Absence of Darrow at Celebration Did Not Dampen Ardor of Crowds.

GATHERING LISTENED TO ABLE ADDRESSES

Mayor Lane Went on Record as ple's Rights-Live Turkey Did Not Soar.

In spite of the disappointment caused by the inability of Clarence S. Darrow of Chicago to deliver the Labor day address at the celebration at the Lewis and Clark fair grounds yesterday afternoon, the afternoon and evening programs were as successful as was the

parade of the morning. Addresses in the Oriental building onened the afternoon's events. Mayor Harry Lane, Rev. J. Whitecomb Brougher and Seneca Fouts each speaking to the crowd that filled the huge exhibi-

Congratulated by Mayor. Mayor Lane's talk was brief, but it went straight to the sympathies of the went straight to the sympathies of the audience. After congratulating the committee on the success of the parade of the morning and the competent way in which the program for the day had been arranged and carried out, he said: "I want to tell you people that there is a fight coming in Portland between the people at large and a few representing the predatory corporations of Port-

land, and I am going to endeavor to stand between the two and safeguard the rights of the many. The corporations have already announced that they lay claim to perpetual franchises to the streets of Portland. There are four corporations with whom we must waze this battle. Take, for instance the claim of one which gives it, it alleges, all the surface under our streets, with the single provision that the city may lay sewer pipes. Now, way not have the city own its own public heating plant and conserve the right to lay pipes through its own streets? I can assure you that I will do my best to work for your interests, and I shall expect your hearty support in the fight."

That the union men resent are willing to accord the mayor all of the support he wishes was evidenced by the prolonged and enthusiastic applause which followed his remarks.

Seneca Fouts, a lawyer who was formerly a laboring man, told the people in the hall that his heart was still with the union men, and gave them some advice on the best way for them to further union interests and preserve the rights granted them by the constitution.

Tribute From Minister.

Tribute From Minister Dr. Brougher, who has long been a favorite with union men, spoke briefly on Labor day and its significance to the workingmen of America. He congratulated the unions on the splendid showing they had made, and said that he was proud to consider himself still a laboring man, and declared that nothing would suit him better than to always have to work for a living, as he said he always expected to do, being a clergyman.

said he always expected to do, being a clergyman.

"Every day labor is becoming a greater factor in the city and the country's welfare," he said. "But let me impress upon you that while organization is necessary and greatly to be desired, the interests of the laboring classes are not to be served alone by organization—there must also be a unity of effort and spirit and purpose. Labor asks a square deal from everybody, and the time is scon soming when she will get what she is entitled to."

Turkey Did Mot Soar.

Following the address the much-heraided balloon ascension came off, with
the exception that when the turkey
which was to have been dropped from
an elevation of 1,000 feet was brought
out Humane Officer Crate interfered
and the aeronaut went on up without
the bird. The turkey was confiscated
for the time being by the humane officer, but was later turned over to the
Labor day committee.

The committees in charge of the day
reported this morning that it had been
very successful in a financial way, and
that about \$1,000 had been cleared,
which will be distributed among the two
affiliated organizations participating in
the celebration of the day, to be set
aside for a monster free celebration on
next taker day.

Performed in High Air. Turkey Did Not Soar.

Performed in High Air. One of the features of the afternoon was the performing on the dome of the Agricultural building of P. L. Dolan, the "Swiss Wonder," who climbed upon the top of the little ball surmounting the dome, stood on his head and sat on a chair and did other hair-raising feats.

The freak races attracted large crowds and resulted in a good deal of excitement. The winners were:

Single packing—Ed Murphy won, Charles Rosswell second, Emil Mongrain third.

grain third. 100-yard dash—C. Jefferson won, W. H. Loucks second.
50-yard dash—C. E. Clay won, P. J.
Wood second.

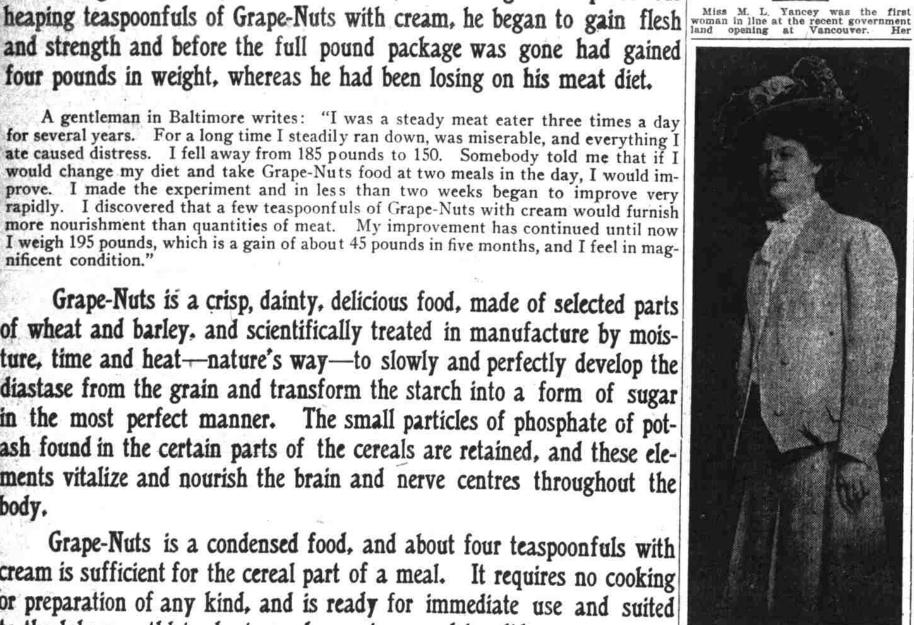

Running broad jump—U. J. Wood On. H. L. Coffrey second.
Fat men's race—Raiph Frequhar won.
S. Spendlove second.
Fat women's race—Elizabeth Chambers won.
50-yard dash for apprentices—A. W.
Harris won, P. Manley second.
50-yard dash for girls under 14—Dora
Frayer won, Cora Lehman second.
Pole-climbing—J. U. Lohr won, C. A.

brother was first in line and drew the prize claim, cruising 15,000,000. Miss Yancy was third in line and another brother fourth and they drew adjoining claims, cruising about 7,000,000. The Yanceys came out from New York to take claims.

DR. STEINER IN LEAD FOR SUPERINTENDENT

(Special Dispatch to The Journal.)
Salem. Or., Sept. 3.—The meeting of the state board that was to have been held today was postponed, as two of the three members found it impossible to be present. Governor Chamberlain, as president of the National Irrigation congress, now in session at Sacramento, could not leave in time to be in Salem today and Secretary of State Benson has been absent from Salem for some time. In yiew of these facts no arrangements were made for holding the meeting at the appointed time. When it will be held has not yet been decided. It is generally agreed that Dr. R. E. L. Steiner has all competitors distanced in the race for the position of superintendent of the state insane asylum.

Professor Francis Brown of Union theological seminary, New York, has become a member of the general com-mittee of the Palestine exploration fund, which now has 10 American members.

A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well a savage thing to beat a weary or starve. man because he lagged in his work. Se in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebles body whose organs are weary with ever work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach. increases the secretions of the blood-making glands, cleanses the system from polsonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morn-If you have bitter or bad taste in the morning, poor or rariable appetite, coated tongue, foul breath, coastipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distressin "small of back," gnawing or distressed feeling in stomach, perhaps nauses, butter a son "risings" in throat after eating, and kinded symptoms of weak stomach and torpid lives no medicina will relieve you more promptly of CO's cine will relieve you more promptly or cuye you more permanently than Doctor Pierce e Golden Medical Discovery. Perhaps only a part of the above symptoms will be present

at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery " regularly and stick to its use until you are vigorous and strong.

The "Discovery" is non-secret, non-alco holic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle-wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.

Don't accept a substitute of unknown composition for this non-secret MEDICINY W ENOUG COMPOSITION.

Held Four Important Conferences, One Being With Chamber of Commerce.

ON INCREASED RATES

Railroad Magnate Left Last Night for Sacramento to Attend the Irrigation Congress-Orders 16,000 New Cars.

After a busy day in Portland E. H. Harriman departed last night in a special train for Sacramento, where he will attend the irrigation congress and then leave for the east. During his brief stay in this city he held conferences with the transportation committee of the chamber of commerce, a committee from the lumber manufacturer's association, and with officials of the operating department of the South-ern Pacific and O. R. & N. companies. The date of putting into effect the increased freight rate on eastbound lumber shipments has been postponed from October 1 to Nevember 1, and lumber manufacturers have begun to hope that they will succeed in retaining the present rate. Their conference compresent rate. Their conference committee yesterday, headed by President Philip Buehner, had a satisfactory meeting with Mr. Harriman and his officials. The chamber of commerce committee also expressed satisfaction with the result of its conference, but gave out no details.

In an interview yesterday with the Journal Mr. Harriman expressed the belief that there are enough cars in the country to handle the tonnage if the cars are properly handled, and not used as warehouses, and if there is properly motive power to move the property and the property motive power to the property and used as warehouses, and if there is enough motive power to move them promptly. He cited the case af a village where there were three carloads of coal, in process of unloading and delivery about through the country with sleighs. He thought the coal should have been unloaded by a sufficient force of men into a coal house, and distributed from there, so that the cars could have been promptly released. He said there is a shortage of warehouses as well as cars.

said there is a shortage of warehouses as well as cars.

Referring to the new orders that have been placed for cars he said:

"We have ordered 16,000 new freight cars, and they are being turned out and delivered as fast as we can get the materials. We have had great difficulty getting Oregon pine lumber, which we always specify for use in making these cars. Our neighbors in Washington have caused much delay by failure to deliver the lumber to the eastern car factories. We have also under construction a large number eastern car factories. We have also under construction a large number of locomotives. There is today hardly a locomotive on the Oregon lines that was here a few years ago."

At luncheon yesterday at the Arlington club he was accompanied by Manager O'Brien, W.W. Cotton and R.B. Miller central freight agent. Lest evening general freight agent. Last evening at 7 o'clock he dined in his car, Arden, and had for guests these officials and Fred S. Stanley, who was one of his party on the recent central Oregon trip.
