# ODAY'S MARKETS

Such a Scarcity of Dressed Meats Has Not Been Seen Here for Many a Day— Prices Are Holding Very High.

## ARIZONA BUYS OREGON SPUDS

First Sales to Southwest Reported by Local Dealer -Price Is Low.

Latest market features: Arisona buying potatoes.
Cod fish sharply higher.
Sharp advance in chocolate.
Very steady in hay market.
Concord grapes come faster.

Arisona Buying Our Potatoes.

Arisona is buying Oregon potatoes. The first cariots are now being prepared for shipment in this city. McRinfey Mitchell has opened the season with the purchase of about three cars for nouthwestern markets. This demand is only occasioned by the lower prices now ruling. Shippers are paying from Se cents to \$1 per hundred pounds for the best matured stock; the latter price being received only for something out of the ordinary in fancy grade.

"While there is some business being offered from Arizona points," says Mr. Mitchell. " the demand is not very heavy as yet and is quite easily supplied. We cannot do business beyond the present range of values quoted by The Journal because if we paid more California would so far undersell us that at the range in price we would be shut out of the southwestern markets. Arisona will pay a fractional increase over the California potatoes in order to get the best Oregons but we must not boost the price too high or the business will cease." Arisona Buying Our Potatoes

God Fish Sharply Higher. So completely in control of the Pa-lific coast is the cod fish trade of the United States that when the catch is united States that when the catch is custalled hare the price shows an instant advance. While quite good catches of cod were reported on the sound and at California ports a month ago, late boat arrivals have shown small supplies and this today resulted in an advance of \$\frac{1}{2}\$ to 1 cent a pound here.

In the fresh fish markets the sup-plies are only fair today. A fair amount of salmon is being received from the coast bays; sizes being gen-erally small. Oyster supplies are quite good and up to the demand at the re-cent advance in values everywhere on the coast.

Still another advance in the price of coast manufactured chocolate and cocoa is reported this morning by wholesale grocers. Today's advance will range from ¼ to 2 cents a pound; the sharpest advance recorded in these lines for many month. The rising values are due entirely to the recent sharp advances in the price of cocoa beans; a shortage in the supply of the latter being the primary cause. This is expected to shortly cause a sharp advance in the price of chocolate creams.

Concord Grapes Come Faster.

In the Front street produce markets the supplies of Concord grapes are considerably increased today and the price is down to 27½ cents per 5-pound basket. Ordinary grapes are in large supply. Good Muscats range from \$1.25, Tokays at \$1.75 and Blacks at \$1.50 per crate of four baskets.

Tomatoes are selling for all sorts of prices along Front street. Some off grade stock sold as low as 15c a box during the past 24 hours white fancy stock found a demand around 40 cents with an occasional sale 10 cents higher than that.

A small shipment of citron was received from a valley point this morning. Sales at 3 cents a pound.

Brief Notes of the Trade.

Brief Moses of the Trade.

Hop pickers are returning in great numbers on account of the poor condition of the yards. It is stated that this is the reason why some growers have advanced their price to pickers.

According to Julius Wolf of Silverion all the Early Fuggle hops of that section have been purchased at 6½ cents a pound. While in the city yesterday Mr. Wolf stated that considerable trouble was being experienced in getting a sufficient number of pickers. Dressed meats of all kinds are very scarce along Front street and in some instances a premium over the printed values is obtained.

Canned salmon market is very firm. The opening values of, Alaska red made several months ago and mentioned in this report at the time, have been more than maintained. Practically all the fish is out of first hands and values are materially higher than at the opening.

### SUPPLIES OF VEAL MUCH UNDER DEMAND

"There is a very heavy demand for dressed veal along Front street at this time. There is a general lack of arrivals according to the trade, and this is holding prices up to the top limits. Of course dressed mest arrivals are generally small at this time of year, owing to the press of other work on the farms, but this year the supplies have been scarce all along."—J. P. Bu-chahau of the Buchanan-Behrens

# BUYS FOUR AND HALF PRICE DULLED

Pendleton, Or., Sept. 5 .- Charles H. Greene, the wool buyer, left yesterday for Boston to spend some time in the eastern wool market. During the past season Mr. Greene, who is a representative of Koshland Brothers, bought a total of 4,500,000 pounds of wool in Oregon, which is one fourth of the wool clip of Oregon, the total clip being 18,-000,000 pounds. Of this amount 12,000,000 pounds was produced in eastern Oregon. Of the 4,500,-000 pounds bought by Mr. Greene 1,250,000 has been secured by the Pendleton scouring mills, while the remainder was baled hers for shipment east.

#### CLEAR WEATHER IN THE PALOUSE COUNTRY

Garfield, Wash, Sept. 5.—Yesterday the weather cleared off, and today the sun is shining brightly. Mr. Crabtree, a veteran threshing machine man, this morning said: "Most of the threshing machines will start up this afternoon. The wheat is somewhat wet, but I believe we can thresh all right this afternoon. Some of the machines started up this morning, and the farmers' drooping spirits are reviving again. There is some damage to wheat, but it will not amount to much if the weather from this on keeps good."

In many cases the threshing crews this on keeps good."

In many cases the threshing crews are scattered, and it will probably be several days before they get full handed again. In this district there is but little bleached wheat, and no reports have as yet come in of grain sprouting in the shock, although it was feared on account of the long spell of wet weather it would sprout more or less. Most all the wheat is cut in this district. There are some fields of oats yet standing.

A book on government inspection of meats is presented to every visitor at the Union Meat company's booth at the Pure Food show.

China Fats Too Liberal -May Affect Value.

Hogs. Cattle. Sheep. ...163 52 ...194 114 270 ...100 171 234 ......257 Previous year So many stock hoge are now arriving that if the movement is continued something is very likely to happen to the price. While there continues quite

the price. While there continues quite a steady call for best hogs, stockers and feeders as well as China fats are hard to move.

Of late these latter have formed the bulk of arrivals in the local yards. Today's run in the yards was 163 head, compared with 194 a week ago, 100 a year ago and 257 two years ago.

The hopes of packers and other killers to buy hogs in the east at a heavy reduction and thus pull down coast values are dampened considerably by the action of the eastern trade. Of late the market there has held very well, the loss of a fraction one day being made up by a rise for an equal sum the next day.

Cattle Do Not Advance.

Cattle Do Not Advance. Although the run of cattle in the yards is very small for the past 24 hours, values are stationary, killers not being willing to pay a fractional gain. Most of them are buying heavily at interior points for future delivery and are not paying much attention to spot stock.

No sheep arrived in today and the market is steadler, though unchanged A year ago today all values were un changed; cattle and sheep steady, how

## Big Fruit Crop.

Grecial Dispatch to The Journal.)

Garfield, Wash., Sept. 5.—John Goss, one of the big fruit growers of this district, was in Garfield today selling his Bartlet pear crop which he says is a big one. Mr. Goss said: "My apple, pear and Italian prune crops will be one of the biggest I have ever seen. I did not have the time to take care of it in the proper manner so I leased it out and give three fourths of the crop, the lessee to spray the orchard and keep it well cultivated. I noticed a three-year-old tree of the McIntosh variety yesterday as I was passing through the orchard that contained 113 big red apples. The tree is about three feet tall, and 10 inches from the ground it measures but 4% inches in circumference. There was a large number of apples picked off this tree early in the season. The McIntosh is one of the very choicest varieties, and similar to the Jonathan in flavor."

Albany, Or., Sept. 5 .- Wagon loads o people are passing through Albany daily on their way to the hop yards in and about Independence and Buena Vista. The life centering about one of the large hop fields during picking time is decidedly interesting and annually furnishes an outing combined with profit to thousands of families from the cities and surrounding country. Krebs Brothers' yard near Independence is one of the largest yards in the state and many of the pickers passing through the city have this as their destination. Although the price is very low and the city have this as their destination. All though the price is very low and the prospects other than encouraging for satisfactory monetary returns from this season's crop, the work progresses without hindrance and a great portion of the crop will be saved in Linn county and surrounding counties.

(Leased Wire Overbeck & Cooke Co.)
Chicago, Sept. 5.—The wheat market shows remarkable character. With Europe buying all the wheat it can land at present values and the slosing there was shows a heavy loss.

Fractically all of yesterday's gains were wiped out at the opening today and from that thing forth the market held steady to a fraction higher than at the start.

While Liverpool was higher and were send than the start.

TELEPHONE MONEY BOX Salem, was found last evening at her

## TELEPHONE MONEY BOX

One of the boldest robberies by a sneak thief in Portland took place at the Imperial hotel about 6 o'clock last night, when some one robbed the telephone money box in one of the booths in the lobby. It is estimated the thief obtained about \$12 from the telephone. There is no clue to the robber, who pried off the lock of the money box with a chisel.

#### EXPRESSMAN INJURED IN BAD RUNAWAY

Le Roy Reiman, an 18-year-old express wagon driver, sustained a fracture of the left leg yesterday afternoon as the result of a runaway accident in Atbina. The horse driven by Reiman became frightened at a steam roller and became unmanageable. Reiman was thrown out of the vehicle and injured. He was removed to the Good Samaritan hospital for treatment.

(Leased Wire Overbeck & Cooke Co.)
New York, Sept. 5.—A report that
Morgan had secured control of the
Union Pacific sent up prices all through
the stock market torad. Union Pacific
was 4 points up at the close of the
day and Northern Pacific held a gain
of 44 points.

of 4½ points.

There was a report likewise that the Interboro had passed its dividend but beyond holding the market in check for awhile it had no apparent effect upon price-making.

The London market was weak and reported to the control of the co generally lower for Americans. The Bank of England rate is unchanged. Official range of stocks:

By Hyman H. Cohen.

With showers again predicted by the
weather bureau for tonight and Friday
in Oregon, Idaho and Washington the

wheat crop of the Pacific northwest is in very much danger. Practically over half the grop is still in a position where a considerable por-tion of it would be ruined if the rains do not cease for a sufficient time to allow threshers to resume work for a

allow threshers to resume work for a week or so.

While a large per cent of the grain is already cut and in stock, continued showers would cause it to sprout and if the grain was not entirely spoiled its quality will not be so good.

The continued rains are causing much worry to the local trade and especially to exporters who have figured on doing a record-breaking business this cereal season on scount of the unusually fine quality of the grain. While no change in quotations was made in the local market today, buying is still of heavy volume and would be heavier were producers willing to let go at the present market.

# SALOONMAN DID NOT DROWNS BEFORE VIOLATE SUNDAY LAW FYES OF FRIENDS

Case Against Enterprise Hotel Proprietor Dismissed in the Police Court.

Upon motion of Deputy District Attorney Haney the case against H. J. Rifenberick, manager of the Enterprise hotel, 522 Savier street, who was arrested last Sunday morning by Patrolmen Wellbrook and McCulloch on a charge of violating the Sunday closing law, has been dismissed by Acting Judge Strode.

According to Deputy Hancy the arrest was unwarranted and should not have been made. The har of the hotel and the office are both in one roon and at the time the district attorney issued his orders relative to Sunday closing Frank B. Parks, proprietor of the house called on the chief of police for instructions. He was informed if he would screen off the bar and sell no liquor on the Sabbath there would be no trouble.

The hotel safe occupies a place at one end of the bar and it was while Rifenberiok was placing some money in the strong box that the officers visited the place.

Archie Dott Loses Life While Swimming With Companions in River.

Archie Dott, 21 years old, was drowned in the Willamette river yes terday about noon at Center, a suburb of Portland. Dott was enjoying a swim with several others when he was sud-denly seen to throw up his arms and

denly seen to throw up his arms and sink.

Ralph Brant was swimming nearest the unfortunate lad when the accident occurred, but was unable to reach him before he sank. The river was dragged but it was five or six hours before the body was recovered. Two young men from Oswego crossed the river and located the body by diving.

Dott was a lather and lived with his mother and step-father at Center. The family has resided there only a few months, having come to Oregon City from San Francisco at the time of the earthquake and fire, where they lost everything. The mother of the victum is prostrated with grief.

It is thought from a bruise on the head of the body that Dott may have come up once and struck his head on some logs.
