

EXPECTS TO LEAVE LEAGUE FREE GLASS CASE FOUND

Delmas Says Supreme Court Will Come to Rescue by Pronouncing Grand Jury Illegal - Attorney Sees Jap War in Future.

(Hearst News by Longest Leased Wire.)
Los Angeles, Cal., Sept. 7.—Delphin M. Delmas, attorney for the defendants in the telephone and railroad bribery cases in San Francisco, declares he will yet win freedom for Louis Glass, the convicted official of the Pacific States Telephone company who has been sentenced to a term of five years in San Quentin for bribing San Francisco supervisors.

Mr. Delmas bases his assertions on his hopes for a new trial for Louis Glass on the showing that will be made at the hearing of arguments before the supreme court next Thursday, and a decision of the supreme court on the legality of the grand jury that indicted the telephone and railroad officials implicated in the graft cases.

The noted criminal lawyer says he expects a decision from the supreme court on the legality of the grand jury inside of 10 days and possibly within 48 hours.

"This decision when rendered will declare the acts of the jury subsequent to January 31 illegal, we earnestly believe," declared Mr. Delmas today. "In that event, which we have every reason to believe will occur, all the indictments against the railroad and the telephone officials will be thrown overboard and new indictments will have to be returned against the accused men if the prosecution seeks to substantiate the charges that have been made."

Will Win in Supreme Court.
While Mr. Delmas appears confident that the supreme court decision will be in favor of his clients in that the indictments against them will be declared illegal, he is not relying on this decision to the jury that tried Glass and the other defendants. He expects a penitentiary sentence imposed on him by Judge Lawler.

As the Glass case will prove a distinct "precedent" in the cases that are to follow, Mr. Delmas and his associates declare they have not lost heart by their failure to secure a verdict of innocence from the jury that tried Glass and they hope to turn Francis J. Heney's great victory into crushing defeat before they desert Glass and allow him to go to San Quentin to begin his sentence of five years in the penitentiary.

"The stay of proceedings for 30 days will give us time to prepare further steps in the case of Mr. Glass," said Mr. Delmas.

And then we have 60 days in which to take up the appeal," declared Mr. McKelvie, who was listening to the interview granted the Examiner reporter by Mr. Delmas.

Jap War Is Certain.
Further discussion of the graft cases was avoided by the noted attorney at this juncture. His attention was called to an interview published this afternoon, in which the lawyers were quoted as saying that war between Japan and the United States is inevitable on account of the importation of Japanese labor into America.

"Those reports are correct," said Mr. Delmas. "In my estimation war between the two countries is certain to come sooner or later. We have allowed the Japanese to come into America to such an extent that to attempt to exclude them would precipitate a war at almost a moment's notice. To keep up our present policy only means to tempt sooner or later it will come. When it does come it will not be a conflict between one nation and another, but between the civilization of the east and the west."

Mr. Delmas said the United States made a great mistake in ever recognizing the Philippines, and even at this late day it would be a good plan to get rid of the far-away isles of the orient.

WATER FAMINE PUTS TEXAS IN BAD HOLE

(Hearst Press Leased Wire.)
Waco, Tex., Sept. 7.—A serious situation confronts at least a dozen Texas cities in the way of water famines. The drought of this summer has caused a severe strain on the water supply, and where breaks have occurred in plants, the situation has become serious. Property worth \$100,000 already has been lost in fires occurring where there was no water. All breaks in plants are being repaired with big forces of men. Among the cities included are Dallas, Galveston, Fort Worth, Waco and Temple.

HAD THREE WIVES

(Continued from Page One.)
McNell's head. McNell says he so considered the letter himself.

Meanwhile, however, the doctor smiles and says he has a wealth of interesting correspondence from both Mr. and Mrs. Evans which bear out his claims against the former, and their free concurrence in all his demands. They addressed him on all occasions, he says, with expressions of friendship, and even affection, both averring their sorrow over Evans' inability to up up.

Four More Suspects Placed in Quarantine at Bay City and New Hospital Established—Old Frame Buildings to Be Burned.

(United Press Leased Wire.)
San Francisco, Sept. 7.—One additional case of bubonic plague was charted today by the board of health and four more suspected cases have been isolated and are under observation. The board has authorized the establishing of a temporary hospital camp at Ingleside. Thence the 760 inmates of the city and county hospital will be moved, and the latter buildings, old frame structures, long ago condemned, will be burned down.

The board at a meeting, attended by President Ragenberger of the state board of health, and Colonel Austin of the marine hospital service, adopted a report of the plague situation prepared by Health Officer Watkins. It is in part as follows:

"Because alarmist reports, which are unwarranted by the facts, regarding the public health of San Francisco have appeared in public print in various forms, it is deemed expedient to give out officially to the United Press the following statement of facts which have been taken from the first visible on the bulletin board of the central health office.

"This first case of bubonic plague appeared on May 27 at the United States marine hospital, in a Finnish sailor taken from the tug Wizard. Thereafter no cases appeared in the city until August 2, when the case was reported from the North Beach district. Immediately the officials of all hospitals and dispensaries were warned to be on the lookout for similar cases, with the result that to date 18 authentic cases in all have been reported. Of these 18 cases, 17 are still living and in a fair way to recover.

"There exists today no doubt of the causes of the so-called bubonic plague, nor of the means by which it is transmitted. Wherever international commerce exists, and in proportion to the volume of that commerce, the rat and the disease of the rat, one of which is plague, are bound to appear.

"There are said to be some five varieties of rat flea, of which two will bite men. The plague bacillus is transmitted by the flea of those two varieties to men. Other modes of infection exist, but are very much less frequent. The common rat is said to propagate every five weeks, and thrives in proportion as its surroundings are unsanitary. As a consequence of the unusual conditions which have obtained in San Francisco since the fire, rats have propagated to an unusual degree.

"The problem which confronts the health authorities, then, is plain, and presents no insurmountable difficulties. Sanitary nuisances must be abated and rats caught or poisoned."

RECORD MADE

(Continued from Page One.)
Olympic, second, Frank C. Sheehan, Boston, third, Time, 1:56.1-5.

Mile run—Won by J. P. Sullivan, I. A. A. C. F. A. Rogers, New York Athletic club, second, Charles Bacon, I. A. A. C. third, Time, 4:29.

Five-mile run—Won by J. J. Daley, I. A. A. C. George Bohag, I. A. A. C. second, Thomas Collins, I. A. A. C. third, Time, 26:01.1-3.

Pole vault—The between E. T. Cook, I. A. A. C. I. A. Allen, I. A. A. C. C. E. Glover, Chicago Athletic club, third, Height, 12 feet 3 inches. Cook and Allen tied for first place. Allen withdrew in favor of Cook.

220-yard hurdle—Won by John Eller, I. A. A. C. A. B. Shaw, Chicago Athletic club, second, W. S. Lee, New York Athletic club, third, Time 23 1/5 seconds.

CREMATORY

(Continued from Page One.)
a committee of five to meet the council committees tomorrow and protest when the matter of a site for the garbage crematory is brought up.

The Woodmen are nearly all property owners on the east side, and they say they object vigorously to having all the refuse of the city hauled through their business district.

J. M. Woodworth, H. H. Newhall, W. M. Minor, J. L. Wells, and C. L. Parrish are the members of the committee appointed by the Woodmen to attend the meeting of the street and health and police committees of the council tomorrow.

The Twenty-eighth Street Improvement association discussed the proposed new bridge over the gulch at Twenty-eighth street. It is the belief of the organization that bids should be advertised at once for the construction of the structure and the work hurried through as quickly as possible.

The chair appointed William Adams, Joseph Hutchinson, George Gilmer, E. M. Tassan, and M. Fugh, committee to wait upon the executive board and determine the status of the case.

KILLS WIFE

(Continued from Page One.)
wife's head while she slept. He then split her skull in two and otherwise mangled the head. Opening a knife he had sharpened for the purpose, he cut his own throat. After this act he seized the gun, and running to a room where Miss Bassett was dressing his infant daughter he leveled the gun at the child. The nurse exclaimed "My God!" and he dropped the gun. He then tore at the wound in the largest until officers ran into the house and overpowered him.

Fish and his wife were both children of Baptist ministers. The broker's mansion is near the lake. Within three homes similarly situated like cases have occurred. Charles Elms, a coal dealer, murdered his wife and committed suicide. Fred Terrell, a striking telegrapher, made a murderous attack on an aged physician who visited the house to prevent Terrell from braining his wife. Attending physicians believe the desolation of the gulf horizon along the lake shore and the moaning of storm winds added to it if they did not cause the mania of the three men.

LAST ONE SALE

Blue Pencil Prices Mean Savings of 1/4 to 1/2

We have made these tremendous reductions in order to move out pieces off our floors so that we can display a horde of new designs which are arriving. Wherever we have found the last one of a pattern we have marked the ticket with a blue pencil at a reduction of one-fourth to one-half. We want to make a quick job of this clearing, so have cut down deep through regular prices and below cost prices in many instances. Blue pencil prices will be found throughout most every line of furniture we carry. Therefore it would be foolish for you to think of buying any kind of furniture without coming here to see these amazing bargains.
