

# The Portland Commercial Club Leads America in Its Class

This eight-story steel building is the property of the Portland Commercial Club, and the Club will occupy the four upper floors and roof garden as soon as completed. The four lower floors and basement will rent for sufficient to pay the interest on the bonds of \$350,000 required for the construction. This Club is affiliated with the Oregon Development League, an organization composed of seventy-three Oregon industrial and commercial bodies. A larger percentage of the 1025 members are in regular attendance upon the daily luncheon than is true of any other similar organization in the United States.

**The Social Organization of the Club Is in the Hands of the Following Gentlemen Who Compose the BOARD OF GOVERNORS:**

- |   |  |
