## FEAR COUNTRY WILL BE OVERRUN WITH JAPS

### ENGLAND IN SAME BOAT WITH U. S.

British Severely Criticized  
This Country for Insignif-  
icant San Francisco Out-  
breaks and Now Faces  
More Serious Situation.

Baron Ishii Reached Van-  
couver, B. C., on Way to  
Investigate Disturbances  
in California and is Near-  
ly Mobbed.

Vancouver, B. C., Sept. 10.—  
No violent outbreaks have been  
reported here today, but the feel-  
ing against the Japanese and Chi-  
nese is very bitter. The determi-  
nation among the people appears  
to be that a stop must be put to  
the Japanese invasion else work-  
men will be without employment  
in British Columbia at a not very  
distant date.

The militarism of the Japanese  
was shown in their hasty and  
rather well-directed efforts to arm  
against the whites. They have  
proved themselves not only re-  
sentful but very pugnacious and  
even aggressive.

Thousands of the little brown  
men have been pouring into this  
country until the invasion resem-  
bles the old days of Chinese im-  
migration to California which  
bred the sand-lot riots. Vancou-  
ver and this part of the country  
fear serious trouble if Japanese  
are permitted to overrun the  
country.

Washington Amused.  
Washington, Sept. 10.—Although de-  
ploring the British Columbia riots, it  
is difficult for official Washington to  
conceal a grin. It has been such a  
short time since British public opinion  
openly and severely criticized the in-  
ability of the United States govern-  
ment to restrain state mobs against  
"unoffending orientals." The size of the  
grin is not diminished by the reflection  
that the principal animosity dis-  
played by the Vancouver mobs is di-  
rected against the Japanese. Great Brit-  
ain's good friends. Almost an audible  
chuckle arose when it became known  
that Baron Ishii, director of the com-  
merce and trade in the Japanese foreign  
office, especially commissioned to visit  
the Pacific coast to investigate the  
cause of the anti-Japanese feeling, hap-  
pened to be in the British colony at  
the time and himself came near being  
mobbed. The attitude of the Japanese  
yellow press toward Canada and Great  
Britain will be watched with interest  
here.

"Jap Invaders," Says Editor.  
Bangor, Me., Sept. 10.—Thousands of  
Japanese veterans are in Mexico,  
equipped with arms and are secretly  
organized in readiness to invade this  
country on short notice, according to  
Edward Guernsey of the Mexican immi-  
gration here. Mexico's liberal immigration  
policy enables the Japanese to flock to  
that country in large numbers. In So-  
norá alone, he says, there are more than  
7,000 divided into groups, each with a  
superior officer in command. This  
story has been denied by the Mexican  
authorities, however.

Every Japanese employed in the lum-  
ber mills of the city and every Chinese  
domestic is on strike and remains huddled  
in his quarters. All stocks of fire-  
arms in the city have been sold out, and  
both sides are armed. The Japanese held  
a mass meeting yesterday after-  
noon, which was attended by a promi-  
nent member of the hotheads among the brown  
men advocated a demonstration in the  
form of a parade, but the leaders among  
them opposed the idea, knowing that  
the city officials would not permit it.  
Hundreds of Asiatics have purchased  
rifles, revolvers and knives. Another  
meeting of the Asiatic Exclusion league  
is called for Thursday night, but the  
city authorities will endeavor to pre-  
vent it.

A jiu-jitsu bout for the world's cham-  
pionship between a Jap and a Britisher  
may also be called off, as the promi-  
nent member of the hotheads among the  
Japs fear further trouble from the Jap-  
anese and whites.

Last night the police patrolled the  
ground floor and Chinese quarters, and  
every effort was made to keep the  
whites out of the districts. An un-  
known white man who was assaulted  
by Japanese on Saturday lies uncon-  
scious at one of the hospitals.

WOMAN MEETS WITH  
PECULIAR ACCIDENT  
Bucette Mont, Sept. 10.—Mrs. F. E.  
Allen, residing at 121 West Silver street,  
had a narrow escape from death or se-  
rious injury Saturday. While she was  
hanging clothes on the line in the back  
yard of her house the ground gave way  
underneath her and she was falling  
into the clothes line which was providen-  
tially was strong enough to bear her  
weight. It was found that where the  
ground fell there was a gaping hole  
fully three feet wide. The cave resem-  
bled a stone, as there were several sets  
of timbers about the hole.

### SECURES CONTROL OF HER VAST FORTUNE.

MISS GLADYS VANDERBILT, WHO HAS COME INTO POSSESSION  
OF A VAST FORTUNE BY THE SETTLING UP OF VALUABLE  
ESTATES.

New York, Sept. 10.—Miss Gladys Vanderbilt has practically become pos-  
sessor of her vast inheritance of over \$12,000,000 by the final transfer of  
property in Fifth avenue and Lower Broadway. Miss Vanderbilt now has ab-  
solute control over this immense sum of money and her income will be over  
\$400,000 a year.

## FIRES AND ROBBERIES STARTLE BAKER CITY

Belief Is That Incendiaries Caused Flames But There  
Is Possibility That Crossed Wires Started Trouble  
—Burglars at Work.

Baker City, Sept. 10.—There was much  
excitement in Baker City last night  
when three fires and two attempted  
burglaries occurred within a few hours.  
The first fire broke out in the store of  
James Osborn on Front street and for  
a time it looked as if the adjoining  
buildings would be destroyed. Prompt  
work on the part of the fire department  
confined the flames entirely to the or-  
iginal structure and no damage was done  
to other buildings. The store was a  
complete loss, the damage amounting to  
\$4,000 with \$2,500 insurance.

While the people were attracted by  
the Osborn fire an attempt was made  
by burglars to enter the Adler jewelry  
store by breaking a window pane in the  
rear of the store. The thief then  
crossed the street to reconnoiter and  
was driven away by Dr. Ison, whose  
mother had heard the crash and ob-  
served the man across the street.

Another fire was then discovered in  
the rear of Wright Bros. chop house on  
Front street, but was put out before any  
damage resulted. In a short time an-  
other fire alarm was turned in from the  
Citizens' National bank building and it  
was discovered that there was a fire in  
one of the rooms of the Turkish par-  
lors. There was so much smoke that  
it was hard to locate the fire and con-  
siderable damage was done by water.  
The Citizens' bank was damaged as  
was also the stock of the Sauer Mer-  
cantile company. The origin of the two  
big fires is not known, but is thought to  
have been caused by incendiaries or per-  
haps from defective electric light wires.  
While the excitement was at its height  
the police were notified of an attempt  
that was being made to enter the store  
of W. W. Kelly on Washington street.  
The robbers fled, however, and no trace  
of them has been found.  
The people were thoroughly aroused  
by this time and many of them carried  
arms and guarded their property until  
quiet was restored.

## WESTERN UNION DEFERS ACTION ON ITS DIVIDEND

(United Press Leased Wire.)  
New York, Sept. 10.—Western Union  
directors, at their regular meeting to-  
day, deferred action until tomorrow  
on the quarterly dividend. It is rumored  
that the dividend will be passed. The  
Western Union has been paying quar-  
terly dividends of 1 1/2 per cent, or 8

cent per annum. The enormous losses  
entailed by the strike render it doubt-  
ful whether the company is in a posi-  
tion to pay a dividend at this time, even  
if one has been earned.  
The news of the directors' meeting  
came too late to affect today's quotat-  
ions on the stock. It showed no change  
during the session, 78 being bid and 80  
asked.

### FRENCH LINER NEARLY RAMMED BY STEAMER

(United Press Leased Wire.)  
New York, Sept. 10.—The French liner  
La Gascoigne, with 1,700 passengers,  
docked yesterday. Captain Toulenger  
reported that a narrow escape from a col-  
lision, occurred in a dense fog off New  
Foundland banks. Quick action, and the  
reversal of the engines caused the ves-  
sels to abate by each other by a hair.  
The passengers were thrown from  
berths and a panic followed.

### ELEVEN JEWS KILLED BY ANGRY LODZ MOB

(United Press Leased Wire.)  
Warsaw, Sept. 10.—Another massacre  
of Jews is in progress at Lodz. It is  
stated that 11 have been killed and 14  
injured. The killing is still going on.

### BRITISH WAR BALLOON DOES UNUSUAL FEATS

(United Press Leased Wire.)  
London, Sept. 10.—A successful test  
of the new British war balloon was  
made at Farnborough today in the face  
of a 16-mile an hour wind. The balloon  
performed unusual feats of maneuver-  
ing.

### GERMANY FITS POINT AT THE HAGUE

(United Press Leased Wire.)  
The Hague, Sept. 10.—Germany won  
its contention in the peace conference  
today by the suppression of all articles  
concerning the treatment of neutral  
powers in the territory of the belliger-  
ents.

### SEES WORLD CONQUERED BY ORIENT

Hindu Sage Says China Will  
Awake, Unite With Japs  
and Successfully Combat  
All the Powers—Modern  
Guns Will be Surprise.

Baba Bharati Going to His  
Native Country to Quiet  
People—Says Vancouver  
Disturbances Will Have  
an Evil Effect.

(Pacific Coast Press Leased Wire.)  
Seattle, Wash., Sept. 10.—"I see as  
through a veil the shaping of conditions  
for the fulfillment of my prophecy of  
two years ago. In the year 1915 the  
combined forces of Japan and awakened  
China will unite and open war on the  
entire world. Together they will mow  
down the forces of opposing nations and  
with guns of destruction more powerful  
than the world has ever known leave  
nothing but ruin in their wake."  
Thus spoke Baba Bharati, the Hindu  
sage and philosopher, who is in Seattle  
en route to India to attempt to quell the  
feeling of unrest that has been awak-  
ened in his native country.

The sage has been meek. It has  
been filled with the religion of love  
and has lived according to the inner  
laws of nature. For this its people  
have been oppressed and regarded as  
superstitious. They will not stand it  
much longer and will rise in revolt.  
China is awakening and wants to be-  
come an equal with Japan. Japan wants  
more dominion and hopes to become all-  
powerful. While she is indulging in a  
period of learning she will change her  
tactics in 1915 and with awakened China  
will war the world.

The feeling of occidentals against the  
Japanese will be responsible for the  
awakening of her warlike spirit. The  
feeling toward my countrymen such as  
has been shown in Vancouver, British  
Columbia, and this state will also be  
instrumental in arousing a feeling of  
hatred in the bosoms of the people of  
the entire east.

"We of the east have been a peaceful  
race. The people of the west have  
been a lawless and destructive race.  
We will arise, the student will strike down  
the master."

Baba Bharati came to America five  
years ago to teach the religion of his  
people. He has more than 5,000 disci-  
ples in this country, and will found a  
home in India for the instruction of  
Americans in the mysteries of the east.  
Six students of Baba Bharati will re-  
turn with him to India on the Minne-  
sota, and he says he will make prepara-  
tions immediately for the coming of 50  
more.

The Hindu sage is the author of "The  
White Peril," which Count Leo Tolstoy  
has translated into the Russian. Baba  
Bharati has also written many other  
books and articles in Vancouver, British  
Columbia, and this state will also be  
instrumental in arousing a feeling of  
hatred in the bosoms of the people of  
the entire east.

### NO CAUSE ASSIGNED FOR SHELTON BLAZE

Coroner's Jury Fails to Fix  
Blame for Death of Nine  
Persons.

(Pacific Coast Press Leased Wire.)  
Shelton, Wash., Sept. 10.—After an  
investigation of the fire in the Webb  
hotel at this place last week, in which  
nine persons are known to have lost  
their lives, the coroner's jury today  
reached a verdict in which no one is  
blamed, nor any cause assigned for the  
disastrous blaze.

### PIONEER SERIOUSLY INJURED BY TRAIN

(Special Dispatch to The Journal.)  
Freewater, Or., Sept. 10.—J. W. Van  
Slyke of this place, was taken to St.  
Mary's hospital at Walla Walla last  
night in a serious condition. He was  
knocked from a railroad crossing by a  
train between here and Weston. His  
head was badly cut and he was other-  
wise seriously injured. He is not ex-  
pected to recover. Mr. Van Slyke was  
a well-known pioneer of this section.

### BURGLAR KILLS WIFE OF NAVAL OFFICER

(United Press Leased Wire.)  
Norfolk, Va., Sept. 10.—Mrs. Mary L.  
Rorschach, aged 36, wife of Lieutenant  
L. C. Rorschach of the cruiser Tennes-  
see, was shot and killed by a burglar.  
The burglar was seen by a neighbor  
and was shot by the police.

### JUDGES SAY LOW FARE IS UNCONSTITUTIONAL

(United Press Leased Wire.)  
Philadelphia, Pa., Sept. 10.—Common  
Pleas Judges Wilson and Audenried to-  
day handed down a decision in favor of  
the Pennsylvania railroad, declaring the  
2-cent fare unconstitutional.

## HENEY WILL NOT LOCATE FRAUDS FOR THE STATE OF WASHINGTON

FRANCIS J. HENEY, WHO WILL RETURN TO PORTLAND TODAY,  
AFTER A RESTFUL TRIP TO SEATTLE. HE WILL REMAIN  
IN THIS CITY ONLY LONG ENOUGH TO CONSIDER THE COM-  
ING TRIALS OF LAND FRAUD CASES.

## IDAHO PEOPLE PAY FOR THIRST OF PINKERTONS

So-Called Incidentals Make Up More Than Half of  
Charge of Twenty-Nine Thousand Dollars Placed  
Against State By Detectives.

(United Press Leased Wire.)  
Boise, Ida., Sept. 10.—A sensation  
which may have a material effect on  
the Pettibone and Moyer cases has been  
caused here by the publication of a de-  
tailed account of the expenditures of  
the state from the time of the assassina-  
tion of Governor Steunenberg to the  
present.

The bill of the Pinkerton agency,  
amounting to \$29,000, shows that the  
state paid the cigar bills and hundreds  
of other "incidentals" expenses of the  
Pinkerton operatives. Bills for amounts  
varying from less than \$1 to \$20 ap-  
pear for "incidentals seeking informa-

tion," "incidentals to avoid suspicion,"  
and "treating expenses." At intervals  
of five days the state was charged with  
\$5 for a box of cigars for Detective Mo-  
Farland.  
Frequently the item "subscription to  
the Western Federation defense fund"  
appears in the bills of the Pinkertons,  
showing that the detectives employed  
by the state regularly paid dues in the  
federation and were refunded by the  
state.  
The officers who brought Moyer, Hay-  
wood and Pettibone from Denver on a  
special train charged the state for three  
dozen bottles of beer and a bottle of  
whiskey.  
The bills show that more than half of  
the Pinkertons' bill consists of so-called  
"incidentals."

## ARRANGE PLANS FOR NEW COURTHOUSE IN 1908

A new courthouse is among the pos-  
sibilities for 1908. The erection of a  
new building is under discussion by the  
county board of commissioners, though  
they say no definite plan of action has  
been decided upon. But Judge Webster  
said this morning that developments in  
that regard are likely to come rapidly  
once they get started, and he admitted  
that the cost of the new county build-  
ing may be on the budget of county ex-  
penditures for 1908 when the tax levy is  
made up in January.  
The demand for more room for coun-  
ty officials is growing daily, and vari-  
ous expedients aside from a new build-  
ing have been suggested to meet this  
demand. Already the county treasurer,  
assessor and school superintendent have  
had to leave the courthouse and rent  
office room in the city hall because  
there is not room for them at the  
courthouse.  
County Needs New Building.  
Another addition to the present build-  
ing on the Fifth street side, making the  
building flush with the Fifth street  
sidewalk; an addition on the Fourth  
street side in front of the present build-  
ing; alterations in the tax depart-  
ment; tearing out the massive stone  
walls in the jail, replacing them with  
pillars as support and with steel par-  
titions as cell walls; all these  
alternatives have been discussed as methods for providing  
the much needed room in the county  
building.  
But in all these discussions in the  
commissioners' chamber an entirely ne-  
glecting subject, and each time it recurs  
for discussion the commissioners realize  
more fully that the county needs the new  
building and that it is the only means  
by which the question of more room  
can permanently be solved.  
Judge Webster would favor a steel

frame building with the jail at the top.  
To reach the jail there would be an  
additional elevator and stairway to be  
used for the prisoners only. The judge  
believes that a room for the west side  
of the courthouse should be provided in the  
new courthouse.  
County Has Cash on Hand.  
More room is demanded by the sheriff,  
by the tax department, by the juvenile  
court and by the circuit courts, all of  
which are crowded. Though there are  
four departments of the circuit court, in  
all of which frequently there are jury  
trials at the same time, there is but one  
room for the jury when they retire to  
deliberate on a verdict. Last Saturday  
three juries were out at the same time.  
One occupied the jury room, another oc-  
cupied Judge Gantebell's chambers, and  
while the third had to seek secrecy in  
the attic.  
Kingdomah county now has a surplus  
of between \$250,000 and \$400,000 and is  
out of debt. The remarkable prosper-  
ity of the county is evidenced by the  
fact that though four years ago the  
debt was \$500,000, the surplus now is  
supposed to reach nearly that amount.  
It is believed that funds sufficient to  
construct a new courthouse could be  
raised by a scarcely noticeable increase  
in the tax levy, and the building which  
all admit is badly needed could be built  
at once.

## RETURNS TO PORTLAND

Declares He Went to Seattle  
Merely for the Purpose of  
Visiting Old Friends—  
Speaks of Oregon Cases  
and Their Disposal.

(Pacific Coast Press Leased Wire.)  
Seattle, Wash., Sept. 10.—Francis J.  
Heney, assistant district attorney at  
San Francisco, but better known as the  
man who uncovered the land frauds in  
Oregon and who headed the forces that  
convicted Abe Ruef, ex-Mayor Schmitz  
and Louis Glass in the California city,  
is in Seattle. He arrived yesterday after-  
noon from Portland, registered at the  
Rainier Grand hotel and then relaxed  
from the strain of official duty.

Mr. Heney declares he is not in Seat-  
tle on business. He says he came up  
from Portland to visit his old friend,  
M. J. Heney, the Northern operator.  
Last night he was the guest of M. J.  
Heney at a dinner at the Rainier club.  
"I left San Francisco and went to  
Portland with United States District  
Attorney Bristol to look over the field  
before we begin prosecuting the land-  
fraud cases in the fall term of the dis-  
trict court," said Mr. Heney last night.  
"I found everything as quiet as a  
Portland and when we begin the pros-  
ecution there this fall there will be no  
lack of excitement. The frauds will be  
followed to the end."  
"When are you coming to Seattle to  
dig up land-fraud cases here, Mr.  
Heney?" he was asked.  
"Not at all that I know of," he re-  
sponded. "I don't know of any reason  
why I should now."  
"I am not satisfied with the progress  
he is making in helping clean up  
San Francisco."  
"The Schmitz, Ruef and Glass trials  
are out of the way," he said, "the Ford  
trial comes up next Thursday, and I'm  
going back to get into that. Oh, I tell  
you, getting a few things done  
down there."  
"They L. Ford is the general counsel  
of the United Railroads of San Fran-  
cisco and is under indictment with oth-  
ers for attempted bribery. Heney says  
he expects to get a conviction there."  
"I don't know," he said, "I don't  
know probably today, and will then go to  
San Francisco."

Senator Charles W. Fulton is at the  
Imperial today and said that he did not  
know whether William C. Bristol would  
be retained in December. In fact the  
senator said he did not know what ac-  
tion he would personally take even if  
Bristol's name were sent to the senate  
for ratification. "I have not decided  
what I will do."

Senator Fulton disliked to talk about  
Bristol's expected retirement and  
stated he would not discuss the matter  
with anyone. "I don't know," he said,  
"I don't know what the brief furnish  
subject matter for tons of volumes."  
"Do you think Bristol's name will be  
presented to the senate for confirma-  
tion?" was the next question.  
"I don't know, and not knowing I  
cannot say," came back the senator with  
a shrug.

"Well, if his name comes up for con-  
firmation will you pursue the same  
policy you have in the past in regard  
to Bristol?"  
"I don't know. I have not decided  
what I will do in regard to that mat-  
ter," he said.

The fact that Senator Fulton was so  
uncertain as to what he intends to do  
if the old fight is renewed against the  
Oregon trial, is another indication that  
Bristol is to be ousted, Fulton forgiven  
by the administration and Bourne al-  
lowed to stay in another benchman over  
the head of the senior senator.  
Senator Fulton did not discuss this  
phase of the question. But he did not  
profess ignorance of the status of the  
Bristol case, only refusing to discuss it.  
Senator Fulton will remain in Port-  
land until tomorrow, when he leaves  
for Hillsboro to hold up some of the  
ended fences alleged to have been  
climbed over and trampled down by the  
heavy weight of Ex-Senator Frederick  
W. Mulkey, who is after the toga of the  
Astorian.  
Francis J. Heney and W. C. Bristol  
will arrive in Portland this evening or  
in the morning from Seattle where they  
have been in conference with William  
E. Gilbert, judge of the United States  
circuit court, from San Francisco and  
information outlined by the federal  
authorities it is now planned to set  
existing grand juries in their places upon  
the docket upon Mr. Heney's return to  
leave at once for San Francisco.  
Mr. Heney and Mr. Bristol have had  
some trouble in making their schedu-  
led meet since word came to the office of  
the United States attorney that the  
special prosecutor was on his way to  
Portland from San Francisco.  
According to the plan outlined by Mr.  
Heney he intended to reach Portland  
Sunday afternoon from San Francisco  
and leave that same evening for Seat-  
tle in company with District Attorney  
Bristol. That would have allowed time  
on the trip to Seattle for a conference  
between the two prosecuting officers  
and would have put them in touch with  
each other so that they would have  
been lost once they met with Judge  
Gilbert.  
Arriving in Seattle Monday morning  
the two men would have been alerted  
for the conference between Judge Gil-  
bert, Mr. Heney and Mr. Bristol. The  
two attorneys came to San Francisco  
Monday night, reaching Portland Tues-  
day morning, where Mr. Heney would  
have attended to the work of the grand  
jury and Mr. Bristol would have re-  
turned to San Francisco tonight.  
In outlining this schedule, however,  
Mr. Heney did not refer to a stated  
corporation.
