

WHOLE STATE PRAISES ANNIVERSARY EDITION

Business Men in All Lines Express Appreciation of The Journal's Special Number—Real Estate Firms Say State and City Property Are Greatly Benefited.

"The best thing of the kind that I have ever seen" is what Joseph M. Healey of the J. M. Healey Investment Company says of The Journal's special anniversary edition which was issued last Sunday. "No better advertisement of Oregon's matchless development and unlimited resources could be distributed in the eastern states," continued Mr. Healey, and I hope every Portland resident who is interested in the city's growth will send copies of that edition to their distant friends."

It is the live, up-to-date real estate broker who quickly recognizes a valuable advertising medium. Here is what Mr. Day has to say of the special edition:

Best We Ever Saw.

"I consider last Sunday's edition of The Journal, including the special anniversary number, the best all-around newspaper that I ever saw. I expect to see valuable results come to Portland and Oregon because of the wide circulation that will be given to this edition, and the advertising from an artistic standpoint the result was all that could be asked for."

"It is more than gratified at The Journal's success in bringing out the anniversary number. It was a great undertaking, well planned and well carried out," said David S. Stearns.

O. W. Taylor of Hartman Thompson & Taylor, which appears in the special edition of The Journal, is of invaluable value. I intend to give the number a wide circulation by sending it to all my eastern friends to let them know what is being done in Oregon. It tells the whole story, and tells it well."

W. H. Streeter—A splendid success. I consider him a生力军 in his line. His work could be done in Portland. It opened by eyes as to what can be accomplished in a newspaper way in this city.

Great Real Estate Advertising.

Numerous other expressions of approval and commendation were received from members of the real estate fraternity, all of which proves that this class of business men have the highest regard for The Journal as an advertising medium.

Cyrus H. Walker of Albany, Oregon, writes: "Your special edition of the 5th Inst., marks an epoch in advanced journalism—a record breaker upon the north Pacific coast. I wish you continued health and abundant success."

I have written: "Please accept my hearty congratulations upon your anniversary edition. It is without doubt the most beautiful thing of the kind ever gotten out on the coast, and will do wonders for the reputation of Oregon really has in the way of enterprises and what it offers in the way of opportunities to the homesick and investor."

People Fight for It.

E. E. Lambright of Roseburg is enthusiastic in his praise. He says: "The magnificent illustrated 160-page edition of the Oregon Daily Journal, Sunday, September 8, was re-

NO QUARANTINE OFFICER HERE

MUSIC IS TAUGHT THROUGH MAIIS

Portland Only Sea Port in United States Lacking Health Officials.

Method Found to Be Eminently Satisfactory to the Pupils.

Portland is the only seaport of any consequence in the United States that has no government quarantine officer stationed to look after the fumigation of shipping in its harbor. Should an outbreak of cholera or plague occur in Portland it would be necessary to send for some quarantine officer to conduct a government fumigation of ships in the harbor.

"There should be some government official here vested with that authority," said Dr. F. C. Yenney of the state board of health this morning. "The world down Australia to find that there is not in a place the size of Portland there should be someone stationed to look after the disinfection of ships and places affected."

Dr. Yenney has received the report of the efforts directed against the spread of the plague in Sydney, New South Wales, Australia. The law has been passed compelling all persons over twenty to lay concrete basements with floors and walls at least four inches thick and thoroughly rat-tight. The campaign has been fought chiefly against the rats which are regarded as the most dangerous element in a plague.

With Portland's waterfront in its present condition the plague once started here would be almost impossible to eradicate," said Dr. Yenney. "A mass of old and decayed docks and wood-piles afford a splendid hiding place for rats, while the great masses of food and garbage left lying around everywhere keep them alive and well-nourished."

EXTENSION WILL BE BUILT TO CALDWELL

(Special Dispatch to The Journal.) Boise, Idaho, Sept. 12.—The Boise & Interurban Railway company has decided to build a street railway line in Caldwell to extend its present line from that city to the fair grounds, which are located about a mile distant. Work on the fair ground extension is to be commenced within a few days and be ready by the time it opens the first week in October. The people of Caldwell are rejoicing over this latest announcement by the company.

PROTESTS AGAINST PINKERTON'S BILLS

(United Press Leased Wire.) Boise, Idaho, Sept. 12.—Avery Moore, a prominent resident of this city, and clerk of the lower house of the legislature, has filed a formal protest against allowing the outstanding bills of the Pinkerton Agency, amounting to \$2,860. Moore says the bills contain 200 items listed as "incidents," receiving information, none of which are specific or accompanied by receipts. He says these are necessary to constitute legal charges. The board will base on the bills today.

GROWING ACHES AND PAINS.

Mrs. Josie Summer, Bremond, Texas, writes, April 15, 1907: "I have used Ballard's Snow Liniment in my family for three years. I would not be without it in the house. I have used it on my little girl for two years now. It cures her right away. I have also used it for frost bitten feet, with good success. It is the best liniment I ever used." 25c, 50c and \$1.00. Sold by all druggists.

The time has passed for argument as to the absolute and natural fitness of

BAYOCEAN PARK

As the greatest resort of the Pacific Coast

The testimonials from men of unquestioned integrity published in last Sunday's Journal preclude argument.

We then offered \$1,000.00 for proof that any of our published statements regarding BAYOCEAN PARK were not correct. Nobody has come for that \$1,000.00!

The question is: Will you wait until BAYOCEAN PARK is the most popular resort on the Pacific Coast—crowded with visitors every summer—before you buy property there?

Or will you join with us in exploiting it NOW and like us make a good profit from your investment when it is a complete and perfected resort?

Think it over and come and see us.
