

HORRIBLE ATROCITIES

Rowdies at Kishineff Start Fire in Lumber Yard and Drive Hundreds of Jews Into Flames—Gang Sent From Odessa.

(United Press Leased Wire.)
 Bucharest, Sept. 12.—Horrible atrocities were committed against the helpless Jews during the recent Kishineff massacres, many being burned alive, according to dispatches just received here. It is said that rowdies from Odessa were responsible.
 A large band of roughs sent to Kishineff by the black hundred organization arrived Sunday night and, joined by the mob of local Jew baiters, attacked the Jewish quarter. A large lumber yard in the vicinity was fired, and the Jews were driven into the flames. Hundreds of refugees from Kishineff have reached villages along the Pruth river.

WILCOX RESIGNS AS HEAD OF LEAGUE

Pressure of Business Prevents Proper Attention to Development Work.

Owing to pressure of private business T. B. Wilcox has resigned from the presidency of the Oregon Development League. His successor has not been named and it is probable that he will be asked to hold over until the first general meeting of the league, which will be held in January or February.
 Mr. Wilcox is the second president of the league since its organization. The initial chief executive being E. L. Smith of Hood River, who served two terms.
 Mr. Wilcox's letter of resignation is addressed to the five vice-presidents of the organization and is as follows:
 "When we organized the executive committee of the Portland Commercial club and I accepted the chairmanship it was with the understanding that the funds raised would be expended in advertising the resources of the state rather than in giving publicity to Portland as a city. The other members of the executive committee and all the contributors were heartily in accord with this sentiment and believe you join me in feeling that a great deal has been accomplished.
 "The chief result of our work has been the organization of the Oregon Development League, in which you gentlemen and others have been so active, and I believe the state body, with its various organizations, should have a president who can devote more personal attention to the league than I can possibly give it.
 "I give much regret that demands upon my time as a result of business interests make my resignation as president a necessity at this time. Urgent matters elsewhere have prevented my being present at two important meetings since my election, and as this is almost certain to be repeated on future occasions, I trust you will choose some one else at your very earliest possible convenience.
 "The Oregon Development League has been an instrument for good in many ways. Since its organization it has brought together men of affairs from all sections of the state. It has resulted in the organization of many active and effective commercial bodies, and as a result has been the instrument through which many communities have been materially benefited.
 "The state is indebted to you gentlemen, to the active officers of the 75 organizations composing the league, and especially to the newspapers of the state, for a vast amount of organized effort which has resulted in Oregon receiving more publicity than at any time in her history.
 "My interest in desiring that the league should go forward with its work is another reason why I offer my resignation, for it is utterly impossible for me to give this great work the time and attention it should receive from its chief executive."

SUES OWNERS OF STRANDED CRAFT

Master of Lumber Steamer Puts in Big Bill for Salvage.

(Pacific Coast Press Leased Wire.)
 San Francisco, Sept. 12.—John Benedictson, master of the lumber steamer Rival, has sued the owners of the schooners Wasp and San Gabriel for \$17,500. He states in his petition to United States District Judge De Haven that at 7 o'clock last Monday morning he risked his own ship and cargo to save the other two from going to pieces on the rocks about 100 miles north of this city.
 The Wasp had gone ashore while trying to pull the San Gabriel off the rocks. When Benedictson realized their plight he went to help them and succeeded in pulling both into deep water.
