

EXCURSIONISTS VISIT KLAMATH

Are Tendered Mammoth Reception by Citizens of Klamath Country.

(Special Dispatch to The Journal.)
Klamath Falls, Or., Sept. 12.—The excursion from Sacramento immediately following the irrigation congress, arrived in Klamath Falls last Monday. They were a day late on account of a small wreck on the road, but the delay gave them an opportunity to take in the trip to the Klamath hot springs, where they spent the night. The excursion is no large but makes up in quality what it lacks in quantity.
Part of the Klamath delegation to the irrigation congress accompanied the party and they are all talking in whispers as they voice their own strenuous "boosting" of Klamath during the congress. The people of the county have greeted the excursionists with their own delegation very enthusiastically, and they appreciate the good work done at Sacramento and wish the impression to last in the years of those who have come up to see and prove.
Tuesday the excursionists were driven through the valley to the town of Merrill, and were met at the Hotel Klamath by J. D. Carroll. Wednesday they were the guests of D. W. Murphy, project engineer of the Klamath project, and were shown over the government works. Today they have been tendered a trip on the upper Klamath lake.
The people of the county feel very proud of the trophies brought home by the delegates, and only wish they had made a larger display.

EVANS BACK FROM SCENE

(Continued from Page One.)
here encouraging me to put him where he belongs, which I purpose doing.
I have, as many of you know, been successful in business here. Could I afford to owe this man a dollar? I would show further the depth of his depravity, he caused to be typewritten many copies of my commitment and sent them to our friends in this city and elsewhere, not neglecting my own folks in the old country. Can you think of anything more malicious?
In conclusion I would state I am not the only one who has threatened to expose for some real or fancied event in the lives of the president of the United States, for the district attorney has in his possession others. I am through now with interviews. Let results determine. I send, as you never know the amount of nerve, courage—call it what you may—that made me prosecute this man who for years has been a malignant cancer eating out our lives. Now that I have laid bare the one stain on my name, and with the friends I hope I have, I shall continue to again live down this blot. With the help and constant companionship of one who is the peer of any woman, I know I will.
J. WHYTE EVANS.

OWENS SHOWS LETTERS.

Physician Outlines Defense in Extortion Case and Grows Sarcastic.
(United Press Leased Wire.)
Los Angeles, Cal., Sept. 12.—J. Whyte Evans, against whom a suit has been filed in the superior court on behalf of the Los Angeles newspapers to recover \$1,168 due for advertising furnished two years ago, has left his customary hotels in Los Angeles and Ocean Park and until the case had been disposed of, either find him or learn what has become of the financier. Upon preferential criminal charges against Dr. J. Owens, the former president of the United Railways of Portland announced that he would remain in Los Angeles until the case had been disposed of. The process-server believes Evans is now speeding toward Portland.
The criminal charges against Owens by Evans, which is based upon alleged extortionate letters, is answered by Owens with a bale of epistles.
A telegram from Evans to Owens reads:
"Thank God, letter received. May you live a thousand years. Even as recovering. The doctor had been ill, but was recovering. The letters which the doctor will offer in evidence to put Evans in prison, that he (the doctor) had held over him threats to expose the promoter's San Quentin record should money not be forthcoming extend over a period of several years. Some were written from St. Louis in 1902 and 1903, where and at which time Evans was president of the Bonita Water company. The doctor was then in Chicago. Later ones were directed from Ocean Park, and the last of the considerable number which Owens will use in his defense was sent him from Portland, Oregon. A St. Louis letter saluting Dr. Owens as 'My Dear Doc' and dealing with the affairs of the water company closes as follows:
"I purchased the suitcase," says the doctor, "so far as I am out for his present to me, as he has never handed me the price of the article."
At the time Dr. Owens was in Chicago, Mrs. Evans (before that Mrs. Owens) was there, hence Evans wrote them from St. Louis:
"I must quit writing, for the reason that a charming girl is waiting on me to take her to dinner. Always your friend, Jim."
In the early part of 1905 Evans was in Tulsa, California. Absence evidently had made the hearts of both himself and wife, Mrs. Minna Hance Owens Evans, grow fonder, for he wrote doctor:
"Minna joins me in love to you. With lots of love, Jim."
About the date Evans received the first letter now in evidence as material for one of the extortion letters preferred against the doctor, he wrote from Portland an affectionate epistle, with the salutation, "My dear doc," and closing with, "With best wishes, yours sincerely, Jim."
"These show," said the doctor, "how he loved me. Who could resist such an affectionate nature?"

SHINGLE MILL OPENS AT CASTLE ROCK

(Special Dispatch to The Journal.)
Castle Rock, Wash., Sept. 12.—The Black Diamond Shingle Mill company's plant, which was destroyed by the flood last November, is now rebuilt and completed. The mill has been ready for work for a week or more, but on account of considerable difficulty in obtaining files and not-staves did not commence operations until yesterday.
About 1,100 cords of bolts are now in the boom at this place and a drive of 6,000 cords from the Toutle river is expected about October 20. The capacity of the mill is from 60,000 to 65,000 per day. It employs 12 men, and the monthly payroll is a little over \$10,000. Every equipment and appliance in and about the plant is new and up-to-date and the buildings are illuminated by electricity, furnished by the company's own electric plant which is run in connection with the mill.
The opposing forces, under the leadership of Dr. R. W. Coe of Portland, have constructed a temporary dam above the St. Helens, Oregon, Mill & Power company's flume and have shut out for the time being the water supply. The latter company has, however, secured the government rights to the water power of the Spirit Lake waters. The company's sawmill is rapidly nearing completion.

POWER COMPANY'S PLANT COMPLETED

(Special Dispatch to The Journal.)
Castle Rock, Wash., Sept. 12.—The works of the St. Helens, Oregon, Mill & Power company at Spirit Lake is being rapidly pushed forward. A good part of the ditching is done and the penstock is completed. The crews have made a good showing for their three months' hard work.
The opposing forces, under the leadership of Dr. R. W. Coe of Portland, have constructed a temporary dam above the St. Helens, Oregon, Mill & Power company's flume and have shut out for the time being the water supply. The latter company has, however, secured the government rights to the water power of the Spirit Lake waters. The company's sawmill is rapidly nearing completion.

TO ADVERTISE UNION COUNTY

(Special Dispatch to The Journal.)
La Grande, Or., Sept. 12.—The Grand Round Boosters' club has arranged for a four-page illustrated newspaper descriptive of Union county. One of these editions will be handed to every person visiting the exhibition all from trains. The illustrations cover practically every line of industry in the county. In addition to the original 10,000, over 4,000 additional copies have been subscribed by several individual real estate firms, making in all 15,000 copies.

THE "DIFFERENCE"

Try well-made POSTUM 10 days, in place of coffee, and you'll know. "There's a Reason"

A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. E. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and had published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merit, and made them remedies of known composition.
By this bold step Dr. Pierce has shown that his formulas are of such excellence that he has no need to subject them to the usual scrutiny.
Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver or biliousness and all catarrhal diseases wherever located, have printed upon it in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of various practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. E. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents, and that they are made from native medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, overworked, run-down, nervous and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their squaws. In fact one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-weed." Our knowledge of the use of not a few of our most valuable native medicinal plants was gained from the Indians. As made up by improved and exact processes, the Favorite Prescription is a most efficient remedy for regulating all the womanly functions, correcting displacements, a prolapsus, anasarca and retromerion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

DEFAULTING JEWELER CAPTURED ON BORDER

E. W. Moore Brought Back to Los Angeles to Answer Charge of Theft.
(Pacific Coast Press Leased Wire.)
Los Angeles, Cal., Sept. 12.—E. W. Moore, a jeweler salesman for a Los Angeles firm, captured on the Mexican border after a long chase, was brought to Los Angeles last night. Moore is charged with stealing \$10,000 worth of diamonds and jewelry from the company. Part of the jewelry, amounting to \$2,000, was recovered.

WARDEN KINCAID RESIGNS POSITION

(Special Dispatch to The Journal.)
Walla Walla, Wash., Sept. 12.—Considerable surprise was occasioned in political circles late yesterday afternoon when it was announced that Warden Kincaid of the state penitentiary had resigned to become assistant superintendent of Jim Hill's north bank road. Warden Kincaid is an old railroad man, having started as a wiper, then being promoted to fireman and later to engineer. Kincaid was appointed warden of the penitentiary a year ago and has proven one of the most efficient officials ever at the head of the institution. Numerous reforms and improvements have been effected during his administration. Considerable speculation is being indulged in as to who will be Kincaid's successor.
