FORTY RUNS IN THREE DAYS' PLAY

That's the Record Coast Leaguers Have Made Here This Week.

OAKLAND CAPTURES FRIDAY'S SWATFEST

Bombardment of Fences Continues, but This Time Commuters Carry Off First Honors in a 10 to 5 Score.

YESTERDAY'S RESULTS.

Oakland 10, Portland 5.
San Francisco 3, Los Angeles 2.

Los Angeles	81	64	.558
San Francisco	86	72	.544
Oakland	81	72	.529
Portland	51	91	.359

Forty runs in three games! That's about the record for the Pacific Coast league, but that's what has been done at Athletic park in the past three days by McCredie's bunch of ball players and the hired men of George Van Haltren.

And the games were not nearly so bad as the scores would seem to indicate. Criticised from the viewpoint of "baseball as she should be played," they were much better than many in which the runs have been fewer and the errors more numerous.

Wednesday Portland won from Oakland by a score of 9 to 5, Thursday it was 7 to 4 and yesterday Oakland turned the tables in the three-days' swat-fest and bore away 10 runs to Portland's 5. Like the two previous exhibitions, it was a slugging contest, pure and simple, but this time the Commuters won out.

Pernoll Seeks Cover.

Henry H. Pernoll, the piano-leg kid, who made such an auspicious debut in professional baseball last July, was compelled to seek cover before the end of the third inning. The Oaks batted out four runs off him in the first. He went through the second all right, but he let the bases fill up and run over in the third; so Ennon Califf, he of the brilliant 1906 record, was delegated to man the guns.

At the end of the third the score was 7 to 4. Califf was effective for a couple of innings and the home guard began to see in the heavy swats of the locals another victory. But in the sixth the visitors landed heavily on the Oregon City man and cinched the game for themselves.

The Beavers showed their love for the fence again by hitting it three times Burdette hit the right field boards for a two-bagger and Bassey andCasey each sent a three-bagger all the way to the limits of the left field enclosure.

"Heinie" Heitmuller, who is fighting with Truck Eagan for premier batting honors in the Oakland team this week, sent two long two-swats to the left field fence. The official score:

JACK SULLIVAN SAYS BURNS IS AN ACCIDENTAL CHAMPION

"Tommy Burns is more or less of an accidental champion," said Jack Twin Sullivan recently in Boston. "I fought Burns in Los Angeles and we had a good scrap. I won. Burns is a confident sort of a fellow. He never thinks of being beaten. Evidently he thought me a cinch, for he came around a day or two before the fight and asked me if I was stuck on splitting the purse even, as we had agreed to in the articles.

"I said I didn't care, and Tommy suggested 60 and 40, so we let it go at that. His loser's end, 40 per cent, didn't amount to much. He was an easy mark at that time. All he had was a poor left hand and a right swing that might knock your head off if it landed. I just stuck my left into his face all the time and his right fell short. He could only slap me on the back with it, while I made a muss of his features. After the fight I learned that Burns had bet $600 on himself, which, with his training expenses, left him flat broke.

"McCarey liked Burns and to help him out of the hole and get him a little change matched him with Marvin Hart. When Burns turned in and trimmed Hart it was a surprise to everybody. But he landed in soft and made the best of it. That was where the joke was on me. I might have had Hart myself. Tommy has had the pick of the matches ever since, but he hasn't displayed any anxiety to take me on again.

"I lost to Kaufman the same way. Billy Delaney asked me to teach Al something about boxing. I went to work with him. I like Al. He's a game one. He isn't afraid of being hurt. In training he never asked me to go easy, like Berger. Kaufman never kicked.

"I was working with Al a little when O'Brien showed up. O'Brien got Kaufman when he didn't know much about the game and trimmed him. O'Brien was clever enough to cut Kaufman to pieces without taking a chance. Until he had Al worn down he ran for his life, but he won and got a great reputation.

"I couldn't take Al on because I was helping him train. No more of that for me. It interferes with business. I've whipped Schreck, Hugo Kelly, Burns and a lot of others. Now I want to fight Burns again."

NOTES OF THE GAME

The McCredies have accepted the challenge of the Kelso team of the Tri-City league for a match and Monday the Beavers will journey to the Washington town and cross bats with the minor leaguers. It remains to be seen whether the Kelso fans will bet that $5,000 they have been making such a noise about since they issued the defi.

• •

McCredie has announced that he has secured Outfielder Ryan of the Pueblo club and Shortstop Lynch of the Eu Claire club. Ryan belongs to the Boston Americans and Lynch played for a time with the Chicago White Sox. The players are expected here within a week.

• •

McCredie is still looking or Raftery and Johnson of the South Atlantic league, whom he bought some time ago. The pair may be here in time to appear in uniform tomorrow.

• •

Mott has been playing better ball during the past few weeks than at any previous time during the season. And he has been hitting much better. But he certainly falls down when it comes to head work. Yesterday Mott had the easiest chance in the world to complete a double play and retire the side, but he did not know what to do until it was too late. Cates was on second and Wright on first in the sixth inning. Haley hit a fast grounder to Mott, which the third baseman fielded cleanly and quickly. He may have been too far off his bag to run to it and then throw, but he could have shot the ball to second and Casey would have done the rest. Mott did throw the ball to second, but only after he had taken a leisurely look about the field and raised his arm once and dropped it again. This piece of work cost Portland two runs. Mott has done many things of this same character in the past and it is inexcusable. When a fielder is crouching in preparation for a play he should have the entire situation on the bases well in mind. He should even have his mind made up as to what he shall do on the instant with a ground ball and what he shall do with a fly ball if perchance it comes his way. Mott's system seems to be to wait until the play starts and then take time to think.

Oakland and Portland will play a double header tomorrow.

Fall Racing at Lexington.

(United Press Leased Wire.)

Lexington, Ky., Sept. 14.—A seven days' meeting of the Kentucky Racing association opened here today and the prospects are for one of the very best meetings ever held in Lexington. The horses have come back thoroughly seasoned after the summer's campaign and the quality of the thoroughbreds will make the contention for the stakes and purses the keenest on record. There will be six races daily, each race to average $400. Altogether $16,800 is offered in purses.

HAYWARD DID NOT EXPECT MUCH OF DAN

(Special Dispatch to The Journal.)

University of Oregon, Eugene, Sept. 14.—From a letter received here from Trainer Hayward, who accompanied Kelly to Jamestown, written before the races it appears that Kelly was really ill, for the trainer said that he had little hope of winning the sprints on account of his sudden drop in condition. Hayward said that Dan ran the hundred in 9 4-5 seconds several times after their arrival, but two days before the contest the climate began to have its effect. Kelly lost his ginger and Hayward did not think he would do much at the time of writing.

From this statement it appears that Kelly and Hayward should not have started as soon as they did, it seeming that there was more danger from the climate than the travel, which they feared particularly.

FAST TIME MADE IN PRACTICE AT SALEM

(Special Dispatch to The Journal.)

Salem, Or., Sept. 14.—A decided sensation was sprung at the fairground track yesterday when Freddy C., entered for the Lewis and Clark stake by Charles Clancy of Seattle, in a practice trial made the track in 2:14 and the first half in 1:04½. This at once gave him a place among the favorites for first money.

Ruby H., entered by Charles Jeffers for the Greater Salem stake, and who, up to the present, has been a favorite, was taken very sick with pneumonia and her life is almost despaired of. Even if she does recover she is effectually put out of the reckoning for next Thursday.

C. A. A. U. Championships.

(United Press Leased Wire.)

Toronto, Ont., Sept. 14.—Before a great crowd of spectators, the flower of the Dominion amateur athletes met here today for the twenty-fourth annual track and field championships of the Canadian A. A. U. The entry list is an exceptionally fine one, several hundred crack athletes, representing almost every part of the Dominion, being entered to try conclusions in the various events.

The events that make up the program are as follows: One hundred-yard run, 220-yard run, 440-yard run, 880-yard yard run, one mile run, one mile relay race, 120-yard hurdles, five mile run, running broad jump, running high jump, pole vault for height, throwing 56-pound weight, throwing 16-pound hammer, putting 16-pound shot, throwing discus and mile walk.

NOTES ON BASEBALL.

Schulte of the Cubs is the only man on either Chicago team this season who has hit for .300 or better.

• •

In a recent game between the Washington team and the Athletics Oldring of the Athletics hit for two bases twice in the same inning.

• •

The Omaha Western league team is going at a fare-you-well clip, and looks a sure winner.

• •

The season's race in the American association was a beauty.

• •

"Wild Bill" Donovan of Detroit and "Miner" Brown of Chicago are having it nip and tuck for premier pitching honors.

• •

Big sensation in Indiana. A baseball fan unwilling to dig for a pasteboard sneaked into a game and was caught and fined $11.

• •

Another year in the Southern league and "Hoot Mon" McKenzie of Atlanta will be a big league wonder. He won 10 of his first 12 games.

• •

There are 54 players on Washington's drafting list for the season. Sir Joseph believes in taking a chance on quality by going after a quantity.

• •

Cincinnati fans predict that George Schlei will be another Johnny Kling, both as catcher and hitter.

• •

Nearly all the wise ones are picking the Athletics to win the American league pennant, but outside of Philadelphia the majority of fans would prefer to see Cleveland or Detroit capture the flag.

• •

It is said that if John McCloskey wants to get any work out of "Bugs" Raymond he will have to hire Wilson Matthews to manage the human microbe.

• •

During their last trip the Chicago Cubs won 14 of the 18 games played. How can you beat a team for the pennant that does this kind of work?

• •

Sh—sh! Not so loud! A secret. The American league race is fixed. No one knows for which team it is fixed, but it is fixed nevertheless. A Pittsburg scribe says so, and a Philadelphia "keyboard" says so, so it must be so.

• •

In the list of youngsters drafted by the Boston Nationals the name of "Pop" Schriver appears. "Pop" had 18 or 20 years' experience in major league circles 35 or 40 years ago.

• •

The Aberdeen, Washington, team of the Northwest league has a great pitcher in Higginbotham. "Roughneck," they call him on the Northwest circuit, but "Roughneck" is a smooth article at that.

• •

A sporting editor of Muskegon, Michigan, has entered a theological seminary, and will study for the ministry. Sporting editors are made of good stuff.

• •

Charlie Wagner of the Boston Americans seldom says a word while on the diamond. So when he roared and jumped at Umpire "Silk" O'Loughlin the other day his fellow players thought he had gone crazy. It must have been a bad decision to get "Wag's" goat.

WATER COMES HIGH.

New York Is Paying Vast Sums for System Laborers.

From the Kingston Freeman.

New York City is now employing about 120 laborers in this county, who are paid from $2 to $3.50 a day. The payroll for laborers averages $1,500 a week. The payroll of the engineering department averages $50,000 a month, and of this at least half goes to the men who are employed in Ulster county, live here and spend their money here.

The salaries of these men range from $6,000 a year down to $1,000 or less. Every now and then the $16,000-a-year chief engineer or one of the $12,000-a-year water commissioners visits the county and leaves part of his salary behind. It is a safe estimate that the engineering force spends $5,000 a week with the merchants, hotels and boarding-houses of the county.

In addition to this, incomplete reports show that within three months nearly $5,000 has been paid to Ulster county men for goods purchased direct by the water board.

Then there are the lawyers and expert witnesses for the city. One "doughbag" contained $12,341.17. Another contained $15,237.11. Another that is on the way contains $13,508.40. Add to this the $5,000 each that the members of the condemnation commissions expect to receive, the salary paid to the clerk of the commissions, and the $229.71 he has already received aside from his salary, and we find more than $100,000 distributed or in sight for distribution in Ulster county for legal services alone. Viewed from the plum orchard, Mr. Delany's prediction seems to be fulfilled. With this amount of money flowing in there surely "ain't no hell" for those who get the money.

Asking the Impossible.

From the Sioux City Tribune.

The New York World says that all anybody asks of the Standard Oil company is that it shall cease to be a monopoly and that it shall heed the laws. But if it heeds the laws it won't be a monopoly, and if it isn't a monopoly it can't keep up dividends, and if it can't keep up dividends it can't hold up the market value of its stock.

FACULTIES CHOSEN FOR NORMAL SCHOOLS

Drain and Monmouth Institutions Officially Endorsed by State Board of Regents.

(Special Dispatch to The Journal.)

Salem, Or., Sept. 14.—At a meeting of the board of Normal school regents held yesterday afternoon the schools at Monmouth and Drain were permitted to run and faculties were elected for both. The $3,000 which was required to be deposited with the board of regents was deposited by Monmouth some weeks ago and the controversy as far as it was concerned settled. Drain has had more difficulty, but yesterday President A. L. Briggs deposited $1,800 cash and showed the board that the remaining $1,200 was in sight, so faculties were elected for both schools at once and permission granted to open at the beginning of the term.

The faculty elected for Monmouth is as follows: E. D. Ressler, president; H. B. Buckman, psychology and pedagogy; A. F. Campbell, history and mathematics; Sarah Tuthill, English and elocution; L. A. Robinson, natural science and algebra; P. O. Powell, Latin, bookkeeping and arithmetic; Ellen M. Pennell, English, rhetoric and methods; May Bowden-Babbitt, music and drawing; H. C. Thorpe, physical training; J. B. Butler, registrar, secretary and librarian.

The following were elected to the faculty of Drain Normal school: A. L. Briggs, president; O. C. Brown, principal of training school; D. D. Smith, science; Gertrude Johnson, English, German and Latin; M. Miller, English and history.

It will be seen that these are largely the same as the members of the faculties last year.

WELLS-FARGO SUBMITS REPORT

(Special Dispatch to The Journal.)

Salem, Or., Sept. 13.—The report of the Wells-Fargo Express company was handled by the railway commission today. The assets are as follows: Cash, $1,802,628.21; agency capital, $160,450.00; agents' drafts, $91,223.45; suspense draft, $413,634.03. Liabilities are: Telegraphic transfers, $22,801.47; C. O. D., $38,520.27; money orders, $726,619.38; suspense credit, $157,777.61; transportation payable, $823,852.64. Balance is $698,854.64, dividends on 10 per cent common stock, total, $800,000.

REMOVAL OF SENATOR CREATES A VACANCY

(Special Dispatch to The Journal.)

Salem, Or., Sept. 14.—Attorney-General Crawford this morning in answer to inquiry of Governor Chamberlain, gave an opinion that when a senator has removed from his senatorial district a vacancy is thereby created. He says the law creates a vacancy, and that the law does not conflict with the constitution.

New Corporations.

(Special Dispatch to The Journal.)

Salem, Or., Sept. 14.—The Interstate Adjustment company was yesterday incorporated by Alfred J. Christopherson, M. E. Christopherson and H. T. Johnson with a capital stock of $9,000. The place of business will be at Portland. The new company will do a general law and collecting business.

MARVELOUS INVENTION CURES WEAK MEN

Patent Granted by the United States Government

A new and scientific appliance invented by L. B. Hawley, M. D., will produce full manly power at first application. The effects are immediate and startling to a high degree. Develops, strengthens and cures lost vigor. Positively no failures. Physicians indorse and use it in their practice. If you are the least skeptical as to the value of this remarkable treatment, send for illustrated circulars, take them to your family physician and get his opinion. This is the first time any one has requested you to take his circulars to your family physician. Why? Simply because he knows your physician will not recommend his treatment. Not so with this appliance. Your doctor will immediately grasp the idea, and when he does, he will recommend it. Nothing like it has ever been sold before. It works the same on every individual. Send today for free descriptive circular of this wonderful instrument. The moment you see it you will realize its possibilities. No C. O. D. or free trial schemes to catch the unwary. This is a plain business proposition that will appeal to you as the greatest opportunity ever offered to those who are weak. Address L. B. Hawley, M. D., 1020B Wisner building, Rochester

I'll Cure You With Nature's Medicine

If you are drugging, I want you to stop it now. Drugs can't cure you. Instead of building up, drugs tear down, because they contain poison instead of nourishment. When you are ailing you need something that gives strength, new vitality to the body. Drugs lower the vitality and cause an ailment to become chronic.

The only way to cure anything is to help nature. Drugs don't do that. Nature will cure when she has the power—electricity.

Electricity is nature's medicine. It cures by giving strength, nourishment to the body. It removes the cause of disease by supplying to the body the force it lacks, enabling every organ to perform its work properly, and when every organ is in a healthy condition there can be no pain or sickness.

Feed electricity to your nerves. They will absorb and carry it to every organ and tissue, giving health and strength to every ailing part.

Electro-Vigor is an electric body battery, applied while you sleep. It infuses a stream of electric life into the body all night long. It does not shock or blister. The only sensation is a mild, soothing glow.

Electro-Vigor is not an electric belt. It never needs charging, for it makes its own power continuously.

Electro-Vigor is cheaper than a course of drugging.
