With the score a tie and the sun shining brightly an hour high the game was called off, for no apparent reason other than that Meesrs. McCredie and Dillon had taken all the exercise they cared for before supper.

Of course the fans howled loudly and long—they had good grounds for doing so—but they did not get their money back, and unless they are exceedingly "easy" they will not soon get over the conviction that they were the victims of a game of "bunk."

A ball game is not a ball game unless it is finished. People do not pay their good money to see such an exhibition. They go to see one team win and the other lose and there is no excuse for calling off a tie contest as long as the weather remains good and the light of day continues.

Becond Swindle of Its Eind.

Once before this season the Portland and Los Angeles managements perpetrated the same game on the local fans. The teams quit at a tie when the sun was high in the sky. In that case, however, there was more nearly a shadow of an excuse, for both teams had tried hard for 15 innings to win. Yesterday the game was called after nine innings and but one hour and 35 minutes of play. Afterwards Walter McCredie tried to give out the impression that Umpire Derrick was to blame but he was not. The game was called by mutual agreement of McCredie and Dillon.

but he was not. The game was carried by mutual agreement of McCredle and Dillon.

The incident indicates the degree of contempt that the baseball management must hold for the people who are keeping it on velvet with their hard-earned quarters and halves.

Had the game been finished it would have been a very satisfactory exhibition. The ground was somewhat heavy and interfered with fast footwork, but it was not as bad as it has been at other times this season.

It was a battle of pitchers. Red-top Randolph being highly effective for the ivisitors and Bobby Groom being unusually steady for Portland. The An-

usually steady for Portland. The Angels scored more hits and fewer errors than the locals and the feature of the set-to was the regularity with which the Beavers got in a bad hole and then pulled themselves out of it.

In the first inning the men from tourist land scored two hits and a sacrifice in a bunch, but failed to get a man to third. In the fourth the first two men up hit safe, but Groom, Fay and Donahue pulled off a beautiful triple play which changed the situation in a flash. In the ninth the Angels had the bases full with but one out, but Delmas bunted the third strike and Eager flew out to Bassey and the inning was over. out to Bassey and the inning was over. The battle had been so short and so uneventful as far as runs were con-cerned that the fans cried loudly and long for a finish, but they had to go home without it. The score:

San Francisco, Cal., Sept. 18.—Hen-ley beat Cates in a pitcher's battle here yesterday. Each team made three hits, but the Seals bunched theirs in the fourth. Score:

dolph, 1. Bases on balls—Off Groom, 4; off Randolph, 3. Two-base hit—Mott. Triple-piay—Groom to Fay to Donahue. Sacrifice hits—Carlisle, Groom. Stolen base—Ellis. First base on errors—Los Angeles, 3. Left on bases—Los Angeles, 8; Portland. 6. Time of game, 1 hour, 35 minutes. Umpire—Derrick.

NOTES OF THE ABBREVIATION.

Charley Atherton—rest his bones—has gone home. Pokorny has jumped and Burdette (Bender) has gone back to his job of coaching the Washington state college football squad. The only one who will be missed with regret is provided to the provider of McCredie's Bender. Bender was one of McCredic's four best ball players. At the bat and on the bases he was a man to grow enthusiastic over.

The locals hit Randolph safe but four times and the only two clean drives were poked out by Mott. Funny, but out of the 27 men who faced Randolph, 16 went out on fly balls, most of them shot pops.

Brashear's liner in the fourth was calculated to be the third hit in succession, but Bobby Groom nabbed it, swung about and sent it fo Fay at second. Dillon had jumped off second and Cravath off first, and both were caught before they could get back. That was Portland's triple. before they could get back. That was

Schimpff played in Bender's place at center field yesterday, while Donahue was at first, where he played most of last week. Donahue is a good first baseman.

Jimmy Byrnes is doing good work behind the bat and McCredie will do well to get him if he can. The little fellow's strong suits are headwork and throwing to bases. His quick anticipation of the baserunners' intentions robably save Portland from a defeat.

Carl Druhot, a Portland boy and for-merly a star twirler on the staff of the Portland club, is home. Carl be-longs to St. Louis, but during the past year he has been playing with the Al-toona club of the Tri-State league, He pitched only nine games, playing most of the time in the outfield, where he led his team in batting. Druhot may be secured to finish the season with the Beavers.

#### ABE ATTELL THINKS HE CAN BEAT GANS

San Francisco, Sept 18 .- Abe Attell, the clever featherweight champion pugilist, writes to a local newspaper setpuglist, writes to a local newspaper setting forth his reasons why he is entitled to a match with Joe Gans. Attell, however, states that he is willing to tackie Battling Nelson first in order to show the public that he is not fourflushing. He says that if he does not outclass the Dane he does not care to take on the colored champion.

If Gans and Attell should be matched it would bring together the two cleverest boxers in the profession, but in addition to having six or seven pounds the best of it from a weight standpoint, Gans has a much harder punch than Attell, although the latter has been winning via the knockout route lately. Attell wants the weight to be 133 pounds ringside.

Metropolitan Expert Discusses Showing of Dan Kelly at Jamestown.

By Manhattan. (United Press Leased Wire.) New York, Sept. 18 .- The great Oregon record-breaker, Dan Kelly, may be all his friends on the coast claim for him, but he certainly did not show it at the Jamestown meet. As a matter of fact he was a distinct disappointment to the esatern amateurs who had heard so much of his marvellous speed. It is held that one of two things must be true: Either Kelly was out of condition or his record of 93-5 for the hundred is phony. When a man who claims a record of 93-5 is unplaced in a race where the time of the winner is 10 1-5 something surely is out of kilter. That Kelly was in pretty good shape is evident by the fact that he won the broad jump with comparative ease. No man living can cover 23 feet 11 inches in this event who is out of condition. in this event who is out of condition.

Kelly's poor running in the 100-yard will about convince the doubters that he is not a real 9 3-5-second man, and will lead foreigners to the belief that we are records; but the A. A. U. is not to be criticised in the matter, for the western officials brought a trainload of affidavits affirming the authenticity of Kelly's performance, and to have refused to allow the time would have been equivalent to calling some or the biggest men on the coast liars.

A Great Athletic Club.

A Great Athletic Club. One thing was demonstrated at Jamestown beyond a doubt. The Irish-American Athletic club can put into the field the greatest team of athletes that field the greatest team of athletes that ever contested in an all-round athletic contest. The wearers of the Winged Fist scored 62 points in the various events, nearly three times as many as their nearest competitor, the New York Athletic club, which scored only 21 points. The Chicago Athletic association finished third with 17 points, while the Olympic club of San Francisco scored 14, the Boston Athletic association 9, and the Multnomah A. A. of Portland, Oregon, and the University of Oregon 5 each. While the score shows the division of the prizes, it does not tell of the manner of winning them, for the members of the Irish-American club scored in 12 of the 16 events, and won nine championships.

\*\*Record-Breaking Performance.\*\*

Record-Breaking Performance.

Two new American and world's records were created during the competition, and any number of near records were shown. In the 16-pound shotput, Raiph Rose, the California giant, who, two years ago at the Lewis and Clark Centennial exhibition, was deposed as champion and lost his record to Wesley W. Coe of the Boston A. A., revenged himself in great style, beating his former conqueror by more than four feet, incidentally setting a new world's record for this event, making a mark of 49 feet 6½ inches, surpassing the old record by half an inch.

John Flanagan, the genial weightheaver of the Irish-American A. C., was the other offender, his best effort in the 56-pound weight throw netting 38 feet, 8 inches, surpassing the old record of 38 feet 7% inches by % of an inch. Even though the two new records beat the old ones by only a short distance in each case, they showed conditions at all times.

Fine Work in Pole Vault. Record-Breaking Performance.

Fine Work in Pole Vault.

Fine Work in Pole Vault.

The spectacle of two men accomplishing 12 feet 3 inches in the pole vault for height will not soon be forgotten. Cooke and Allen of the Irish-American club achieved this feat, tying for first place, while Glover, the third man, accomplished 12 feet. Cooke ultimately won the event on the jump-off.

The westerners did remarkably well, taking into consideration they had to make a long trip. It was clearly shown, however, that the east has the cream of the athletes of the country. In addition, the New York athletes made by far the best showing in the recordbreaking line. When three men from the same club finish one, two, three in the five-mile race, as did the Irish-Americans, it is a pretty sure sign that that club is about the best there is in the country.

## THE SECRET OUT.

To refute the many false and mailcious attacks, bogus formulæ and other untruthful statements published concerning Doctor Pierce's World-famed Family Medicines, the Doctor has decided to condition the ingredients entering into this "Favorite Prescription" for women and his equally popular tonic alterative known as Dr. Pierce's Golden Medicines of the ingredient state of ical Discovery. Hereafter every buttle of these medicines leaving the great Laboratory at Buffalo, N. Y., will bear upon it a full list of all the ingredients entering into the compound. "I suffered for more than seven years with a very complicated form of female trouble accompanied with servous prestration, and after dectoring with six physicians (all bearing excellent reputations), was informed that unless an operation was performed I would be an invalid all my life. Hearing of the wonderful cures effected by Dr. R. V. Pierce's remedies, and believing that there must be a cure for almost every allment, I determined to make one more effort. I wrote to Dr. Pierce, and I will never forget his kindly advice telling me to follow his instructions fathfully and not to submit to an operation. I commenced to improve after six weeks' treatment, and in five months my improvement was so noticeable to friends that they began to inquire about my method of treatment. I was pleased to tell them of the wonderful means of cure that I had most forjunately found, and, as so many ladies applied to me for information regarding Dr. Pierce's world-famed medicines and his plans of treatment. I felt in duty bound to give them the benefit of my experience, so, told them the facts.
