OSCAR ON THRONE THIRTY-FIVE YEARS

(United Press Leased Wire.) Stockholm, Sept. 18 .- The thirty-fifth anniversary of the accession of Oscar II, was joyously celebrated throughout Sweden today. All stores and banking institutions were closed and the streets of Stockholm were one mass of buntof Stockholm were one mass of bunt-ing and flags. During the day mes-sages of congratulations from all the rulers of Europe were presented at the palace by the members of the diplomatic corps.

286.43 King Oscar succeeded his brother, 10.00 King Charles XV, September 18, 1872, and was crowned the following May. He was born in Stockholm. 21, 1829, and was destined for the navy. He took the course in the university at tupsala, where he was graduated a doc-tor of philosophy. The people of Sweden claim that not only is he the most learned king today, but is the hest-traveled man among the royal scions of Europe. Total\$257,144.86

CAPTAIN JUDSON SAYS DEFENSE IS FOOLISH

(United Press Leased Wire.) Washington, Sept. 18.—Captain Wil-liam Judson of the engineer corps of Pacific coast, which do not agree with the United States army has issued an the president's sentiments in this re-Washington, Sept. 18 .- Captain Wil-5.699.03 extraordinary government document, gard.

FACTS ABOUT PE-RU-NA.

is There Any Scientific Basis For The Claim That Peruna **Prevents Infective Diseases?**

It is during the months of September and October that some of the most infective diseases are at their height. Malaria and the infectious fevers of autumn find these months especially favorable to the growth and propagation of their deadly germs. Why is it September and October are the months when such diseases flourish?

Contaminated Drinking Water.

There are two reasons. First, the air and drinking water and food are especially contaminated during these months by the germs that give rise to such diseases. Whether the disease germs are the cause or simply a concomitant occurrence is a matter that need not be discussed here. But the fact

2.420.00 that a superabundance of these germs is always accompanied by an epidemic 4,000.00 of the diseases shows that there is some relation between them, that when one is present the other always appears.

There is no way known to man yet by which the germs of these diseases can be entirely avoided. Sanitary science is gradually doing away with them partly, but still they remain in great numbers. EVERY PERSON IS EX-POSED TO THEM CONSTANTLY.

The germs of infectious disease are about us everywhere, but only certain people succumb to their baneful influence.

This brings us to consider the second reason why September and October are the especial seasons for epidemics. The fact that everybody is exposed to the germs of disease and yet comparatively few contract the disease shows beyoud doubt that there must be some special reason why one person gets the disease and the other does not.

The skin, when unbroken, protects the outside of the body from disease germs, but it is well known that a raw surface or an open wound disables the skin from protecting the interior of the body, and disease germs may enter on such occasions.

Diseased Mucous Membranes.

THE MUCOUS MEMBRANES, when they are healthy, PROTECT THE INSIDE of the body from disease germs. But the slightest abrasion of the mucous membranes, or derangement of the mucous membranes by

chronic catarrh, renders these membranes powerless to protect the body from disease germs. Hence they enter through the mucous membranes of the stomach, of the lungs, the intestines, accumulate in the blood in great numbers, and set up infective diseases that may prove fatal.

Since we cannot protect ourselves entirely from the presence of disease germs, the only thing that remains for us to do is to KEEP THE SKIN AND MUCOUS MEMBRANES INTACT so that the disease germs cannot reach the blood, even though they assail us from within and without. This explains how it is that Peruna may be regarded as a preventive to

these diseases, and suggests that it should be taken during the months when they are prevalent. Peruna has thoroughly established itself as a catarrh remedy. Many thousands of people have taken Peruna for chronic catarrh, and found themselves completely restored.

Sometimes the catarrh is in the stomach. Other times in the throat and lungs. Sometimes in the intestinal tract. Peruna seems to act as a restorative in all these different forms of catarrh, and thus produces healthy mucous mem-Even if disease germs do enter the stomach and lungs, the healthy mucous

membranes tend to protect the blood from their encroachments. This is the claim made for Peruna, and the claim is based on science and experience. Pathologists have been aware for many years that A HEALTHY SKIN AND MUCOUS MEMBRANE CONSTITUTE PROTECTION AGAINST IN-FECTIVE DISEASES. This is a well established scientific fact.

The experience of thousands of people in all parts of the civilized world has established the fact beyond dispute that the USE OF PERUNA DOES RESTORE THE MUCOUS MEMBRANES to perfect health, and thus protects the body from disease germs.
