

ROAD AROUND CRATER'S RIM

Part of Comprehensive Plan
to Make the Most of
Crater Lake.

SERIES OF HOTELS IN NATIONAL PARK

Three Thousand Visitors This Year
Despite Primitive Accommodations—Lake to Be Made a Veritable World's Mecca for Tourists.

(Special Dispatch to The Journal.)
Medford, Or., Sept. 18.—A wagon road around the rim of Crater lake, a series of hotels in the National park, and a new wagon road to the lake from the Rogue river side, are part of the program of improvements planned for the lake next season and the seasons following.

Will G. Steele, president of the company holding the commissions for Crater Lake park, passed through Medford yesterday en route to Klamath Falls. He reports a very busy season at the lake, despite the fact that he did his best to discourage travel because he was not prepared to properly provide accommodations.

"Probably 2,000 persons visited Crater lake this summer," said Mr. Steele. "Of these, fully five-sixths were from California and other states. Everyone who came marveled at the lake as one of the greatest scenic wonders of the world."

Harriman in Captivity.
"The most enthusiastic visitors were Mr. H. Harriman and Secretary J. H. Garfield. Mr. Harriman related over and over again the statement that Crater lake was without a rival in the world, and that nowhere could its scenery be equalled. He cruised for hours back and forth about the lake, seemingly unable to feast his eyes enough."

"The government is now viewing Crater lake as a national park, and it is expected that it will be completed half way around by the close of next season."

Doing Away With Grade.
"Between 30 and 50 men are at work under Superintendent Arran on the Rogue river side of the divide, making a new grade to obviate the steep grade out this side of the superintendent's house. This road will be finished this year, so that the worst hill on the Medford side will be done away with."

Cooperation Needed.
"As soon as the road is completed a distance around the rim of the crater we will erect another kitchen there. These kitchens each represent the nucleus of a hotel, and will be added to as business justifies."

GAMBLING MADE BOY.
(Continued from Page One.)
gave up my share to help along and nobody seemed to care where it came from, either."

Youth Is Wayward.
This latter statement, on the part of the youthful criminal hardly seems probable in view of the fact that a wealthy relative was the first on the scene this morning to try and see what could be done in the young man's interests. The latter stated to a reporter for The Journal that for a number of years he did everything in his power to educate and take care of the boy.

"He could have anything he needed and a good home either with me or his parents," said the latter. "Harry always had an unbecoming temper, and he has long since broken his poor mother's heart."

Crawled Through Transom.
The capture of young Bennett was due to the vigilance of Policeman J. J. Fitzsimmons. About 2:30 o'clock this morning as the officer was patrolling his beat on Washington street, he noticed the window show lights ablaze.

WILL CLEAVE TO HIS JAP WIFE

George Lindsay Will Try All
Courts to Secure Her
Landing.

IF BEATEN WILL GO TO JAPAN TO STAY

Woman Lost Out in Japan When
She Married an American and Im-
migration Officials Deny Her
American Citizenship.

(Special Dispatch to The Journal.)
Tacoma, Wash., Sept. 18.—Unless his Japanese bride is allowed to land and make her home with him in this country, George Lindsay, a Seattle liquor dealer, says he will sell out his business and leave the United States to make his home in Japan. Lindsay went to Japan months ago and while touring that country fell in love with a fair brown maiden, Himeura Tan. The two arrived here Saturday on the oriental liner Shikoku and when they tried to come ashore Mrs. Lindsay was refused a landing. The immigration officials objected on the grounds that she was not an eligible person.

Under the laws of the United States a Japanese is not eligible to citizenship, yet under the immigration laws an alien married to a citizen of the United States becomes a citizen with her husband. The immigration officials say she was not an eligible person when she married Lindsay, and therefore could not become so after she married him.

Woman of No Nationality.
During an inquiry that was held on board the Shikoku at which Lindsay had present some of the best legal talent in the state, it developed that he had appeared before the United States consul at Yokohama on July 9 and requested that a certificate of marriage be issued to himself and the woman. This the consul refused, alleging that she came from a place of questionable character, and he was of the opinion that Lindsay wanted to bring her to America for no good purpose.

But Lindsay has a Japanese certificate of marriage, and declares he will carry the case to the courts in order to secure a landing for his wife at the same time declaring that if he is eventually defeated he will go back to Japan and make his home there.

Mrs. Lindsay is placed in a peculiar position by the action of the officials, and is practically a person without a country. When she married an American she by that act renounced allegiance to Japan.

Lindsay claims that if she returns to Japan the people there will shun her. She is one of the most handsome Japanese that ever came to this port.

Peter Olson Bound Over.
Peter Olson, who was arrested last Monday on a charge of assault with a dangerous weapon preferred by Patrolman Amundson, one of the policemen upon whom Olson fired while barricaded in a room in a north end house, waived a preliminary examination in the case court this morning and was bound over to the grand jury in the sum of \$500.

City Engineer of St. Johns.
Oscar Edwards of Roseburg has been appointed city engineer by Mayor Couch of St. Johns. Mr. Edwards is at present surveyor of Douglas county but is expected to locate permanently in St. Johns. The appointment was ratified at a meeting of the council of St. Johns last night.

"Had dyspepsia or indigestion for years," he wrote, "and when I did eat I was distressed. Burdock Blood Bitters cured me."—J. H. Walker, Sunbury, Ohio.

In the store of Jules Bennegard at 1801 Commercial street, where he had turned them off hours before, and his suspicions were aroused.

"Feeling into the windows he noticed the young Bennett was quickly found crouched in a corner. He dropped a 32-caliber revolver which he pulled from his pocket, and begged not to be shot."

When searched he had another weapon, which was found in his stocking. His pockets were filled with rings and jewelry. A silver case was found filled with other jewelry which he intended removing.

His capture was due to the fact that in climbing through the transom he touched a switch which threw on the window lights from the outside. He was powerless to turn the lights off from the inside.

"I intended taking the stolen stuff and going to Seattle or Tacoma with it," said Bennett at the county jail. "My plan was to pawn one piece at a time."

**FINE SPORT FISHING
SALMON AT YAQUINA**
(Special Dispatch to The Journal.)
Albany, Or., Sept. 18.—The salmon season is now at its height at Yaquina, and reports received from there are to the effect that the greatest sport of the year is being enjoyed by the fishermen. Large catches are reported, and those fishing with troll lines are having some of the greatest sport of the north Pacific coast. Large catches are reported among those fishing with the gill nets, and each morning the boats return to the anchorage laden with a heavy load of silverside salmon. The annual run at Yaquina is becoming a watched event and large parties put off their vacation season to a late period so as to be enabled to engage in this, one of the most fascinating and exciting of sports.

Constipation causes headache, nausea, dizziness, languor, heart palpitation, irascible phlegm, gripes, sicken, weaken the bowels and catch cold. Doan's Regulators act gently and cure constipation. 25 cents. Ask your druggist.

WOMEN IN HOSPITALS

Experiences of Mrs. Rockwood and Miss Tierney

MISS MARGARET TIERNEY

MRS. CHAS. A. ROCKWOOD

A large proportion of the operations performed in our hospitals are upon women and girls for some organic trouble.

Why should this be the case?

Because they have neglected themselves, as every one of these patients in the hospital beds had plenty of warning in those dragging sensations, pains at left or right of abdomen, backaches, nervous exhaustion, inflammation, ulceration, displacement, and other organic weaknesses.

All of these symptoms are indications of an unhealthy condition of the female system and if not heeded the penalty has to be paid by a dangerous operation. When these symptoms manifest themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has saved hundreds of women from surgical operations.

Lydia E. Pinkham's Vegetable Compound has cured more cases of feminine ills than any other one remedy. Such letters as the following

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that may help your case. Her advice is free and always helpful.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

PRIVATE SCHOOLS SHOW INCREASE TRADE SCHOOLS WILL START HERE

Academies and Other Institutions Open With a Heavy Enrollment.

With the opening of the public schools Monday most of the private schools began work the same day. Portland academy, the largest of the private schools, opened with a larger attendance than at any previous time in its history, with all departments well filled up.

St. John's Hall also opened Monday morning with a very full attendance. About 200 registered and there are only one or two vacancies in the boarding department. The academic department is unusually full.

This year Miss Bernays of England will assist in the music department. A special instructor has been engaged for the gymnasium which is to be opened this year and made a substantial and important adjunct of the course.

Miss Kingsley of New York, who will teach the Swedish method of gymnastics, has been appointed to the chair. An extra instructor, too, will be added to the scientific department in the future.

Mrs. Allen's Preparatory school on the east side opened Monday and the outlook for prosperous year is bright. The Hill Military academy opened this morning and the enrollment was exceptionally satisfactory, with a good increase in attendance.

The following week will see line-ups in the gymnasium and work will be the rule both indoors and out. Dr. J. W. Hill, principal; John Gavin, vice-principal, and Major von Eickeloffstein, commandant, will be assisted by an able corps of teachers.

St. Mary's academy opened Monday morning with a number of new changes about the buildings in the matter of study and recitation rooms. There is an exceptionally large enrollment.

Jews Observe Annual Day of Atonement

Churches Well Filled When Services Began Last Night.

Temple Beth Israel and the four orthodox synagogues were well filled last night for the Kol Nidre services which began the Day of Atonement or Yom Kippur. At the temple the services began at 8 o'clock and at the other churches at 7 o'clock. This morning the services which continue all day began at 7 o'clock at the orthodox churches and at 9:30 at Temple Beth Israel.

Yom Kippur is the culmination of a period of repentance beginning with the Jewish New Year which came last Tuesday. On this solemn day no work is done and no food is tasted from sundown to sundown. There are fasting and prayer for forgiveness of sins and reconciliation between enemies. This period is closely followed by the harvest festival, next Monday which is a day of rejoicing and feasting and thanks for the fullness of the harvest, but this is not made so stringent a holiday as the New Year and Yom Kippur days and work does not have to be suspended. Many out-of-town Hebrews joined in the worship at the various synagogues today.

are constantly being received by Mrs. Pinkham to prove our claims.

Mrs. C. A. Rockwood, teacher of Parliamentary Law, of 58 Free St., Fredonia, N. Y., writes:

"For years I suffered with female trouble. It was decided that an operation was necessary, and although I submitted to a serious operation my sufferings continued, until Lydia E. Pinkham's Vegetable Compound was recommended and it proved a marvelous remedy, so quickly did it restore my health. I cannot thank you sufficiently for the good it has done me."

Miss Margaret Tierney, of No. 338 W. 35th Street, New York, writes:

"When only eighteen years of age our physician decided that an operation was necessary to permit of my womanly organs performing their natural functions. My mother objected and being urged by a relative to try Lydia E. Pinkham's Vegetable Compound did so. I soon improved in health, the proper conditions were established and I am well and strong, thanks to Lydia E. Pinkham's Vegetable Compound."

No other remedy has such unqualified endorsement as Lydia E. Pinkham's Vegetable Compound. No other remedy in the world has such a record of cures of female ills.

For the purpose of presenting intelligently the trade school proposition agitated by leading taxpayers early last spring to the taxpayers' meeting, which will be held in December, City School Superintendent Rigler will leave for the east October 1 on a data collection expedition. In addition to the trade school matter he will also seek information on the progress and success of domestic science. As a side issue Mr. Rigler will examine into the playground institution, being a member of the Portland public playgrounds commission created by the last legislature.

Trade schools have been instituted in Philadelphia and Milwaukee as an adjunct to the public school system. They have been conducted at small cost and have been productive of splendid results. When the subject was first broached in Portland there was an instant rally to its support and a large number of leading taxpayers petitioned the board for a similar department in the Portland educational system. At the present time the only two public trade schools in the United States are attached to the Philadelphia and Milwaukee schools.

On the way to the Atlantic seaboard Mr. Rigler will also examine the plan of the private institutions for the promotion of trade learning in Chicago and Indianapolis.

Under the present outlined plan the school will take all pupils over 15 years of age who have graduated from the grammar grades. English and drawing will be given in connection with the trade learning, which will include electrical working, carpentering, bricklaying, iron construction, plumbing and kindred pursuits. At the end of three years the pupil is turned out a journeyman.

The question of cost is the main one and Mr. Rigler will inquire thoroughly into this feature. Instruction, material and running expenses, it is believed, will be lower here than in Philadelphia or Milwaukee, owing to Portland's location contiguous to material of every description.

It is now believed that the cooking school will be introduced by February, and Mr. Rigler will secure all available data in connection with domestic science instruction in the eastern schools.

Information is wanted by the playgrounds commission, of which Mr. Rigler is a member, and he will visit a large number of eastern cities for the purpose.

Session of Pomona Grange.
An important session of the Multnomah county Pomona grange was held at the Rockwood grange hall today. The coming fair to be held at Gresham was one of the important items discussed together with a report on the Torrens law presented by R. C. Wright.

The meat eater and the vegetarian alike are charmed with the Grape-Nuts food. It has a crisp taste, with the delicate flavor of grape-sugar, and is instantly ready for the table without any cooking whatever.

Grape-Nuts furnish one of the daintiest scientific dishes ever placed on a breakfast table. "There's a reason." Read "The Road to Wellville," in pkgs.

The Economy of Using

Preferred Stock Canned Goods

Packed Wherever the Best are Grown

is well illustrated in Preferred Stock Asparagus.

There are three varieties, Extra Selected Large White, Mammoth Peeled White, and *Preferred Stock Asparagus Tips.

Fresh Asparagus can usually be bought, in season, at three bunches for a quarter; the best is ten to fifteen cents per bunch. Which ever you buy, one-fourth to one-third of nearly every stalk is too tough to eat—the stubs are cut off in preparing and still more is rejected in eating. The cleaning, too, is a long process, if every stock is scraped to remove scales and indigestible fibre—as it usually is not.

Every bit of Preferred Stock Asparagus is delicious eating. In every can of Preferred Stock White Asparagus there are from thirty to thirty-five stalks, all tender, luscious and dainty—no waste at all. Preferred Stock Asparagus comes from the Sacramento River Islands, California, where the best asparagus is grown. There it is gathered, prepared and placed in the can, BEFORE SUNRISE, every morning during the season—to be enjoyed by particular eaters, the year round, everywhere. Thus gathered, with the sun on, and packed while still perfectly fresh and up, the silvery strands of Preferred Stock Asparagus are always wholesome and appetizing. Every stalk is carefully handled, and only tender, uniform sized stalks are accepted for Preferred Stock cans (when the housewife buys it fresh, she must take large and small, tough and tender.)

Preferred Stock Asparagus is all cooked, ready to serve. If desired hot, pour off the liquid, rinse stalks with coldwater, just heat in butter, and season with sweet cream, pepper and salt; or omit cream, arrange stalks on serving dish and pour hollandaise or white sauce around them.

No waste, no labor—and more for the money in every can of Preferred Stock—ask your Grocer

ALLEN & LEWIS, Wholesale Grocers, PORTLAND, OREGON, U. S. A.

*PREFERRED STOCK ASPARAGUS TIPS are the daintiest part of the famous Island Asparagus and are especially adapted for salads, soups and omelets
