## "ECLIPSE," THE PROUD RULER OF THE KITCHEN

"The World's Best"

"The Range of Reason"

And the "Eclipse" are one and the same.

Other Range dealers—realizing their inability to cope with the "Eclipse"—have resorted to every sort of inducement. We need but one inducement—the Range itself—the "Eclipse."

We only ask that before you fall under the spell of alluring statements and deceptive claims of other Range dealers, you give the "Eclipse" a few moments of your time.

Talk doesn't cook.

It's the Range—and remember that the world's best Range is still "Eclipse."

We guarantee to prove it.

Some Ranges are good cookers but poor bakers.

The "Eclipse" is especially famous for its baking.

And this is why—In the "Eclipse" the fire box area is just about one fifth that of the baking (or oven) area—while in other Ranges the ratio is one to eight. This means a quicker heating to the baking point in the "Eclipse" than any other Range. This is the secret—the true reason of "Eclipse" baking superiority.

"Eclipse"—the Range of "Style," of "Quality" and of "Reason"—with 15 distinct superior advantages.

Insist upon the choice of universal judgment—the world's best—the "Eclipse."

It has everything that every other Range has and many original features of its own.

### TORN TO PIECES BY FIERCE ALASKAN DOGS

(United Press Leased Wire.) Nome, Alaska, Sept. 19.—While going to meet his father, whom he had not seen for several days, 13-year-old Philip Goodwin was torn to pieces by 32 of his father's big fierce Malamute dogs Wednesday night in the vicinity of Center creek. The dogs are of the largest species of the animals used in this country and when hungry have

the fierceness of wolves. Three of them were injured by the little fellow. The smell of blood of the three injured dogs served to intensify the fierceness of the brutes, who tore the little fellow to pieces and after killing him ate the flesh from his bones. The boy made a fierce struggle when first attacked. He opened his large pocket knife and attempted to slay some of the beasts. Seeing this was impossible the lad started to run but had taken only two or three steps when he was thrown to the ground and pounced upon by the hungry animals.

We are popping over with good things for boys' school wear.
