ALBANY COLLEGE BRYCE INFORMED The

Its Work, Solid in Itself, Connects With Highest Institutions.

INDIVIDUAL EFFORT HAS AMPLE SCOPE

Home Feeling Pervades All Departments of Its Life-Self-Help Considered Ennobling-Year Opens Next Wednesday.

(Special Dispatch to The Journal.) Albany, Or., Sept. 21.—Albany college begins its next year's work on Wednesday, September 35. With a location which its friends think is superior to that of any other college in Oregon, with a strong faculty of vigorous men and women, with loyal support from the citizens of Albany and community, with a student body made up of the sons and daughters of many of the best families in Oregon, the college looks forward to the best year of its history and to the beginning of an era of unusual pros-

The institution was founded as an academy in the late sixtles. Its growth and advancement have never been spectacular nor remarkable. The institu-tion is now the synodical college of the Presbyterian church in Oregon and it is the only institution of that denomination doing collegiate work in the state. One of the graduates of Albany received his bachelor's degree in Princeof study of the institution being now resognized as the equal of any collegiate institution in the state of Oregon except one. It is the expressed ingon except one. It is the expressed in-tention of the faculty of the institution to raise still further the standard of work until Albany college shall be able to offer more elective courses and a greater variety of instruction.

Individual Work in Science

Within the last few years such im-provements have been made as to allow individual laboratory work for each student in all branches of science taught by the college. (The college offers instruction in physiology, physical geography, geology, botany, physics and chemistry). More work in modern languages has been added, and advanced courses in English literature. The department of mathematics offers instrucpartment of mathematics offers instruction through differential calculus. In the department of pedagogy and philos-ophy, both required and elective courses are provided. In sociology and econom ics the work has been particularly strong and popular. The college also maintains normal, academic and commercial courses. The

work of the normal department is under the direction and supervision of the president of the college, who has had large experience as a supervisor and ex-ecutive in public school work. Twice a year review courses are offered for teachers, with opportunity to pursue advanced subjects

The commercial department has been deservedly popular. The college places most stress on a three years' business course, which is practically the equivalent of an Oregon high school education. The students of this course are thoroughly prepared for business. Shorter courses are also offered in this

Separate , Music School.

The course of study in the academy differs somewhat from the course of study in the Oregon High school. Individual laboratory work is required of all students in every science; work in two languages is required; the work done in mathematics exceeds the work in the course of the cou

two languages is required; the work done in mathematics exceeds the work done in the ordinary high school with four years' course. Many students are enrolled in this department from neighborhoods where high schools exist. The musical courses of Albany college are now in a separate institution, the Albany College Conservatory of Music, headed by Clarence Chandler of Wisconsin. Mr. Chandler's previous work is spoken of in highest terms and he is expected, with the assistance of Carrol is spoken of in highest terms and he is expected, with the assistance of Carrol H. Palmer of the vocal department, to make the new conservatory strong at its very beginning. To the work in plano, voice, theory and history of music, and harmony, will be added work in stringed instruments. A glee club is to be organized and the oratorio chorus of last very will be represented. last year will be continued.

The Home Spirit Everywhere.

Tremont hall, the girls' dormitory, is almost full. This very excellent home for girls is well furnished and is in charge of Miss Elizabeth Irvine, teacher for girls is well furnished and is in charge of Miss Elizabeth Irvine, teacher of English in the college, who makes an ideal matron. The spirit and tone of the pince is not that of the noisy public institution, but that of an orderly. Christian home. Rates here are lower than board and room can be secured in town, the institution having been so conducted as barely to pay expenses.

Albany college is proud of her self-supporting boys and girls. Some of her best students work in homes, in stores, and at outdoor labor to earn their way. A woodchopping camp established this year promises to aid a number of young men who might otherwise not be able to attend college. The high price of wood, with the shrewd business arrangement the management of the college has made, makes the ordinary chopper able to earn large wages. The sound of the student's ax is already heard in the woods near town.

"The Man's the Gowd."

"The Man's the Gowd."

The spirit of the institution is such that the woodchopper, the student janitor, the boy who carries papers or puts in wood—all are equal. The worth of the man tells and determines his place in the college and in the town.

The college is doing everything possible in the upbuilding of the state and is furnishing each year a number of young people who will uphold the institutions of home and church and country wherever they may go. "The Man's the Gowd."

wherever they may go.

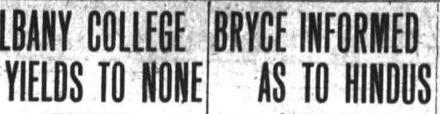

FIVE NEW TORPEDO

BOATS FOR THE NAVY

(United Press Leased Wire.)
Washington, Sept. 21.—The navy department has awarded contracts for the building of five torpedo boat destroyers. Each will have a speed of 29 knots.

(Special Dispatch to The Journal.)

Spokane, Wash., Sept. 21.—Governor Mead has called a meeting of the Associated Charities of the state to meet at Spokane during the interstate fair.

Authorities at Bellingham and Everett Assured of Full Protection.

(Special Dispatch to The Journal.) Olympia, Wash., Sept. 21.-The disorders at Bellingham several days ago. which resulted in the intimidation of the Hindus and caused their departure from that city, has been brought to the attention of the state department at Washington through a note from the British ambassador. The ambassador states he has been informed that a majority of the Hindus have left Bellingham for Canada in consequence of the troubles, and that those at Everett are in fear of an outbreak.

Acting Secretary of State Alvey A. Adee wired Governor Mead the substance of the ambassador's note and asked that he be advised as to the sit-

Upon receipt of this telegram the governor wired Mayor A. L. Blanck at Bellingham and Mayor Newton Jones at Everett to ascertain the conditions in those cities, and received the following replies, which have been communicated to the state department at Washington.

Mayor. Governor Albert E. Mead, Olympia, Clennes and these usually Wash.—Am in receipt of your telegram, and as the mayor is out of town and cannot be located, I will state that there are no indications of any trouble. Have been instructed by the mayor in case of trouble to deputize every available man.

GAMBLING WILL

Astoria Justice, Easy With and a half wide, has twisted gold and First Offenders, Warns Others.

(Special Disputch to The Journal.) Astoria, 'Or., Sept. 21.-Five hundred dollars will be the fine imposed by Judge McBride on any person who may be found guilty in his court on the charge of gambling. That was the an-nouncement made from the bench yesterday afternoon when sentence was im-posed in other cases. Al Seafeldt and John Stephenson, indicted on a charge John Stephenson, indicted on a charge of being proprietors of a place where gambling was conducted, Andrew Palo, F. Leatherman, Artu Saari, H. Miller, Kasper Lampinen, Guy E. Fuller, A. Carkula and August Ukkola, indicted for gambling, pleaded guilty. Seafeldt and Stephenson were fined \$26 each and the others were fined \$20 each. The defendants were accused of engaging in a game of draw poker in the saloons run by Seafeldt and Stephenson. The attorney for the defense in asking for the Senfeldt and Stephenson. The attor-y for the defense in asking for the clemency of the court said the proprietors of the saloons were not interested in the games and got nothing from them except what few drinks the participants might purchase. Also that the men playing were in no way connected with the saloons.

In pronouncing judgment, Judge Mc-Bride said there had been a radical Bride said there had been a radical change here in relation to gambling recently, as before the order was fesued by the district attorney, the city had practically licensed gambling games. He also realized that there might be a mis-understanding as to whether the law applies to all games of chance and as

iaw he was inclined to show leniency.
"This leniency must, however, not be "This leniency must, however, not be understood to apply in the future," continued the court. "To play poker or any other games of chance in a cigar store or saloon or any other place is just as much an infraction of the law as is the playing of any banking game in the lowest gambling hell. Now that this will be made public and every one will understand it, I desire to announce right here that if any of these defendants or any other persons are brought before any other persons are brought before me on a charge of gambling they will be subject to a fine of \$500." He then imposed a fine of \$25 each on

Seafeldt and Stephenson and \$20 each

WYOMING TAX BOARD KNOCKS LUMBER RATE

(Special Dispatch to The Journal.) been received by the state railway commission from the state board of equali- field. Maine, postoffice. zation of Wyoming answering the re-quest of the Oregon commission to re-quest the interstate commerce commis-sion to investigate the proposed insion to investigate the proposed in-crease in northwestern lumber rates. The board inclosed a copy of a letter sent to the interstate commerce com-mission in which it said that lumber prices are now very high and that if higher they would greatly hinder the development of the state. The letter asks that the railroads be compelled to refrain from putting the increased rates into effect until a thorough investiga-tion is made. A letter has also been received from

the Colorado ratiroad commission saying that the act creating it has been declared unconstitutional in the district court and the commission is unable to commission as to lumber rates until the opinion of the supreme court is rendamental.

umbrella. There is a circular veil hav-ing a circle for inches in diameter in the center and increasing to large ones that reach to the edge of the veil. Che-

nille dots are most favored, but the double-faced velvet ones are some used. Early fall hats are shown in blocked felts, beavers and velvets. For trim-mings, velvet will be as popular as it is understanding as to whether the law applies to all games of chance and as these were the first arrests under the law wet. Imitation of Persian lamb makes a very smart effect, and as it is light, is law he was inclined to show leniency. excellent for both hat foundations and trimming. Fringed silk in ruches and bows is used lavishly, almost covering the top of some of the hats. The colors that are fashionable for hats are the same as for gowns. Purple is the leading favorite, with all its shades. The Atlantic blue is the leading color in all the different blues, and amber, caster and new rose are all popular shades. Lingerie blouses in soft, pretty tones of blue and pink and delicate green and corn color are dainty and fashionable.

corn color are dainty and fashionable Little house coats are provided to wear with them, which are cut on the eton effect, but with the kimono sleeves. The material for these is silk. The eton is short in the back, the sleeves come just below the elbow and are trimmed with

A Woman Mail Carrier.

The champion rural free delivery mail-carrier of the United States is a Salem, Or., Sept. 21.-A letter has woman. She is Miss Etta Nelson, the driver of R. F. D. No. 3 from the Pitts-

Fourth Assistant Postmaster-General De Graw has placed her at the head of the service record in point of efficien- 44 S. Fifth St. cy, upon her record for the last three | | years. In that time she has not missed a trip except when told by the postmaster that the state of the weather did not warrant her making a trip, and this has happened only twice.

Miss Nelson's route is over 20 miles of country roads such as are found in rural Maine, and leads through three day, according to the state of the roads and the weather.

There are snowdrifts in the winter sloughs and honey pots of sticky mud in the spring, and the blinding dust of midsummer. There are snow blizzards,

soaking rains and gales to be faced. Miss Nelson has driven over her route when the mercury did not rise above 20 below for the day, also when it did not go below 90 in the shade. She has fig-ured in a number of mishaps, but none with serious results. Once her horse was frightened by an automobile, and scattered the United States mail for some distance, and on another occasion

some distance, and on another occasion a bear or something of the kind made a wild runaway of her steed.

Miss Nelson is a little woman, just past 20, and clear grit. Her father is a rural free delivery driver, and she got the idea that she could handle a route, as she liked to be out of doors and felt that it would be a benefit to her health, as it has.

as it has.
She uses an ordinary riding wagon in summer, and in winter drives several horses alternately in a stout, wide sleigh huilt with an eye to navigating qualities on Maine winter roads. To face the wintry blasts she wears a heavy sweater

wintry blasts she wears a heavy sweater and fur overcoat over her ordinary winter clothing, also a sealskin cap. Two pairs of mittens, the outer pair leather gauntlets, complete her outfit, and she is never cold.

She is modest and unassuming. She likes her home and is a good house-keeper, belongs to a woman's club and teaches a class in Sunday school. She says that she would not advise any woman to take up the rural free delivary work, although she was successful

in passing the examination over a num-ber of male competitors and believes that there are many other Maine women

Beautiful Hands of Many Lands.

"The French woman, when she finds her hands getting old, puts on long, lacy sleeves, coming to the knuckles," says an exchange. "Then she devotes her leisure to lengthening her finger nails and letting the tips grow.

"The Russian woman, when she finds her hands getting seamed and old-looking, puts them through the cold water cure. She dips them in cold water and she rubs them vigorously to bring back

young. "When the Spanish belle finds her and trailing. In these two styles of dress nothing could be more graceful than a long trailing skirt with the waist line having the upward curve.

The Japanese sleeve has been such a favorite that it is quite likely to respect to the street of the grape upon her hands, and that is the reason why the hands of the Italian woman are so beautifully supple. Her hands, all draped in lace or bare, are her pride. She keeps them white with grape juice and scented with rose leaves.

leaving no lint. Everyone who washes windows knows the bother of using several different cloths—the wet cloth, the dry cloth, and the polishing rag. Wrung dry it is an excellent dusting cloth, and for cleaning woodwork it has no equal. Picture frames and looking-glasses are Picture frames and looking glasses are improved by its use.

Avoiding Rust .- Many housekeepers are annoyed by their flatirons becoming rusty from dampness in the cupboard. trimming. Some of these suits have the edges bound with braid.

In the new trimmings, the metallic effects are conspicuous, especially those for evening gowns. The filet lace is often made entirely of gold and silver threads combined, and solid worked dots of the same. A new lace braid an inch and a half wide, has twisted gold and silver threads in a spider-web design. There are also bands of net darned in a delicate design in pastel colors, outlined with silver and gold thread Some but the process makes the iron delight. but the process makes the iron delight fully smooth and easy to use, and con-sequently one may get over the clothes more quickly.

What for Dessert?
