We have also added a large number of new bargains to this list for the two continued days. Buy now and save money.  
**LESSONS FREE.**

## ROGUE RIVER CEMENT PLANT

**Geographical Survey Expert Finds All Elements—Coal Plenty, Too.**

(Special Dispatch to The Journal.)  
Medford, Or., Sept. 24.—Professor N. H. Darton, geologist of the United States geological survey, has been in Medford for several days examining conditions regarding the possibility of establishing a cement factory in the Rogue River Valley. He reports that conditions are very favorable for such a plant, and his report will go to the state.  
Professor Darton's visit is one of the results of Secretary Garfield's tour of the coast. He was sent at the personal request of the secretary, who promised Medford citizens that he would have an examination made of the building materials in this and other sections. As cement forms a large part of modern building, such a factory is extremely desirable.

**Abundance of Good Limestone**  
As the guest of Mayor J. F. Reddy, Professor Darton examined the limestone deposits at Coleman creek, Jacksonville and Gold Hill. The lime in all places was found of about the same quality, very good for cement, carrying little silica. The Gold Hill deposits were more accessible, however, than the others, situated near the railroad and also near large deposits of shale, which, with lime, forms cement.

**SAD TERMINATION OF PLEASURE TOUR**  
(Special Dispatch to The Journal.)  
Grants Pass, Or., Sept. 24.—Fred, the only son of Mr. and Mrs. Dennis H. Stovall, died at Minneapolis, Minnesota, last night. The parents have started back to Grants Pass with the body. They had started on an extended trip east. Mr. Stovall is a well-known newspaper correspondent and an author of note.

## PITCHFORK TILLMAN SHIES GARDEN PROJECTILE AT LITTLE BROWN MEN

Senator Ben Tillman, of South Carolina, arrived in Portland last night with his pitchfork packed carefully in a dress suit case where it reposed harmlessly until the South Carolinian was asked to discuss the race question. Before replying he unpacked the pronged implement and wielded it with equal force against Japanese and negro.

"The negro must be disenfranchised," said Senator Tillman, "and the sooner this is done the better it will be for the south and, as a matter of fact, for the whole country. We must repeat the old motto of the movement to the constitution. The negro problem confronts the north as well as the south and the northmen are beginning to realize it. This is especially true among the younger generations, to whom the equality with an inferior race hopelessly devoid of those perquisites which are necessary to raise them to our civilization, is distasteful."

## NEW DIOCESE FOR OREGON

**Episcopal Missionary District Planned for Eastern Portion of State.**

(Special Dispatch to The Journal.)  
Washington, D. C., Sept. 24.—Protestant Episcopal Bishop Edsall of Minnesota announced here that the general convention at Richmond next week will receive a request from Bishop Scadding of Oregon for the creation of a missionary district for eastern Oregon because the present diocese is too large. The general scheme involves many changes in western missionary districts.

Bishop Edsall's announcement is in perfect harmony with the understanding in Episcopal circles throughout Oregon. Long since it was deemed necessary to divide the Oregon territory, both for convenience and because of the large field. More particularly is another missionary district needed, however, because east of the Cascades there is a large territory of undeveloped country which gives promise of rapid population and Catholic diocese work has been established. Episcopalians believe that they would be negligent in their duties unless they looked out for the spiritual welfare as well as the Catholics.

No intimation has been had locally of changes in appointments and neither is it known here who will receive the eastern Oregon missionary diocese. These matters will be arranged at the convention at Richmond next week in the usual order of business as on all previous occasions.

## REPUBLICAN CLUBS ARE TO BOOM KNOX

(United Press Leased Wire.)  
Harrisburg, Pa., Sept. 24.—The annual convention of the State League of Republican Clubs began here today, and will continue over tomorrow. A large number of delegates and visitors are in attendance, including good sized delegations from Philadelphia, Pittsburg and other leading cities of the state.

Much interest centers in the mass meeting tonight, which will mark the formal opening of the Republican state campaign, and also the campaign of Senator Philander C. Knox for the presidential nomination. Senator Knox, Governor Edwin S. Stuart and John A. Shantz, candidate for state treasurer, will deliver addresses, and other speakers will include distinguished Republicans from every section of the state.

**PRESIDING ELDERS OF METHODISTS, SOUTH**

(Special Dispatch to The Journal.)  
Walla Walla, Wash., Sept. 24.—Presiding elders were appointed at the conference of the Methodist Episcopal church south that closed here last night, as follows: Rev. J. G. Carrick of Troy, Idaho, Spokane district; Rev. J. D. Lewellen, Walla Walla district; Rev. J. D. Crooks of Spokane Boise district; Rev. J. W. Compton of Milton, Oregon, was made missionary secretary.

Postoffice Called Harriman.  
(Special Dispatch to The Journal.)  
Prineville, Or., Sept. 24.—A postoffice has been established in Harney county near Lowen. The new office is on the proposed Burns-Ontario railway line and has been named Harriman by the post-office department.

**BUCK'S RANGES**

**"peace makers" in the home-- Buck's ranges--sent for free approval test**

**\$1.00 After 30 Days—\$1.00 Per Week Thereafter**

**THOUSANDS OF KIDNEY CASES IN PORTLAND**

The famed Dr. Loomis of Bellevue hospital has declared that his autopsies show that nine tenths of men and women over 40 have kidney disease, and as probably one fifth of the people in Portland are over 40, that nine tenths of these would mean thousands. But if Dr. Loomis' statement is only partly correct, it would show that astonishing prevalence of kidney disease. Another and important fact is that kidney trouble is not only curable but commonly gets well of itself the first few weeks. But if it is not hanging on and becomes chronic it is then considered fatal and that it has been so is shown by the census deaths from kidney troubles—now over 63,000 annually. This frightful annual death list also shows the futility of the scores of medicines that claim to cure kidney trouble. While many of them are possibly helpful during the first few weeks of the curative stage, there is only one thing known that gets recovery in the chronic or suppurated stage, and that is FULTON'S RENAL COMPOUND. It has a proven efficiency in just this class in nearly nine tenths of all cases, and the Fulton company is the only one in the world that limits the recoveries it publishes solely to the supposed incurable forms. As it is impossible to say whether a given case of kidney disease is in the first or second stage, the only sensible plan if you have kidney trouble is to start on the only thing that will reach it in both stages.

"The authorities coincide in declaring the disease incurable. Do not the numerous recoveries under this treatment demand a new adjustment of our beliefs?"—Berkeley, Cal., Daily Reporter.

If you have kidney trouble start right with FULTON'S RENAL COMPOUND. At druggists.

—this pouch feed assures a steady, even heat, not simply pyramids of fire under the lids, but an even fire the entire length of the firebox, and an evenly heated stove top.

—these ash guards help to keep the kitchen clean—they guide the ashes to where they belong—into the ashpan, not into the bottom of the stove, or on the kitchen floor.
