Nearly every member of the city council has indorsed informally the Vaughn ordinance to construct a municipal convention hall on a portion or all of the city market block. Councilman Vaughn introduced his resolution yesterday in the ways and means committee meeting and a special committee will be appointed by Mayor Lane to look into the proposition. It is un-

to look into the proposition. It is unlikely that any recommendation will be made until after the council has settled the new franchise submitted by the People's Market association.

A canvass of the council shows that all of them practically, will support the movement to give Portland one of the largest and most pretentious convention halls on the coast. They are agreed that if a building is to be erected by the city it should be one that will be a credit to the municipality.

Inducement to Conventions.

It it costs over \$75,000 to erect an assembly hall the councilmen who have given expression on the subject feel that the sum will be well spent. Fol-lowing are the sentiments of some of the councilmen as expressed this morn-

ing:

Councilman Kellaher: "We need an assembly hall in this city under municipal supervision and it will be one of our greatest advertisements if we carry out the plan suggested. We feel a hesitancy about asking conventions of national or even state importance here for tancy about asking conventions of na-tional or even state importance here for we lack the accommodations that they demand. There are any number of or-ganizations that would like to conduct their assemblies in the Rose City, but must pass us by because we cannot of-fer them the inducements other coast

Councilman Rushlight: "It is a cap-ita! idea and one that should be given every attention. Already I see the free employment bureau given a home in the convention hall. We ought to fix up a general reception or reading room in the building and make our citizens feel that they have a lounging place whenever they desire to use it. There are a number of things we might use the building for in conjunction with the

Councilman Cottel: "Portland has needed a public assembly hall for a quaster of a contury and we have lost lots of publicity by not owning one. We must invite our convention and distinguished visitors to the armory, where accommodations are not conducte to their convenience. With a ward about inviting any convention to Portland."

Councilman Driscoll; "I favor a public assembly hall but I wonder if the location is not a little too far south. Such a building as we would put up would not be in harmony with its environments."

Councilman Cellars: "Portland needs an assembly hall, but whether or not it is advisable to place it on the market block remains to be determined by investigation."

partment.

A mild fight developed over the addition of the water tower in committee meeting, Rushlight and Kellaher vigorously opposing the water tower on the ground that protection was needed more at the hospitals. In support of equipment in the neighborhood, Rushlight cited that the only engine company was at Sixteenth and Washington streets, nearly half a mile distant from the three hospitals. The remaining hose company was about an equal distance away on the north side of the hospitals. Rushlight maintained that the long pull

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about \$600 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms-pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, discouers of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

George K. Parrish, musician, of \$72\% East Oak street, Portland, Or., says: "I just as gladly indorse Doan's Kidney Pills today as I did three years ago. 'time has proved that the benefits I found were permanent, and this has been very gratifying. Kidney complaint made its first appearance in my case so gradually that it was some time before I paid any attention to it. A cold settled in my back and I began to suffer from dull heavy pains in the loins and over the kidneys. It was then that I was induced to try Doan's Kidney Pills, and, as stated above, was completely relieved and not a symptom has reappeared up to this time."

Californians' Success.

As was to be expected, the Californians scored heavily again last night at the Marquam in the change of bill, "Fatinitza." This march opera of Von Suppe has never been sung better since the days of the old Bostonians. All the principals had opportunities to distinguish themselves, and in this they did not fail.

"A Stranger in New York."

The two distinct hits in the specialities introduced by members of the Baker company in Hoyt's "A Stranger in New York."

All the delights of a spiritualistic seance can be seen at the Grand theatre this week through the efforts of Professor Zambroch, of the court of Vienna who brings table-rapping spooks to the stage with astonishing ease and success. The performance is really a remarkable one. The professor utilizes three spirits simultaneously — manifested through a table, a drum and a common hat borrowed from one of the audience yesterday afternoon when these friendly ghosts answered all questions put to them by Zombroch quickly and correctly. Zombroch also has some other good tricks of magic—the familiar one of the singing birds which never loses its flavor and the always satisfying "stunt" of shooting a borrowed watch from the stage into the gallery.

Hayes and Wynn won a great deal of applause from the audience with their buck and wing dancing—some rather unusual work of its kind.

The headliners were Charles H. Boyle, Lilly Grazer and Harry Boyle who pre-

The Three Daltons have a barreljumping act that makes one sit on the edge of his seat and ache out of pure sympathy for what would happen if they missed a jump. There are three of the Daltons and all are very proficient in their act, that of jumping, hit or miss through a row of upright barrels arranged in various ways.

The grandiphone is as good as ever this week and Jor Thompson won his accustomed encores with his sentimental songs.

"King of the Desert."

Comedy drama in its best and most attractive form is shown at the Star theatre this week by the R. E. French stock company. The title of the play is "The King of the Desert," and while it is a long established drama, this is the first time it has been produced at popular prices or in such complete form.

JEWISH HOLIDAY IS ENDED IN NEW YORK

(United Press Leased Wire.)

New York, Sept. 24.—With the celebration of the Feast of Tabernacles the Jewish holiday season, which began with the New Year two weeks ago, came to an end yesterday. The Feast of Tabernacles commemorates the offering time of the first fruits of the wine and oil. This was the period when the houses were closed and the people went out into tents and tabernacles made of branches and leaves of trees. Among the Helyew people generally it is a time for festivity and rejoicing.
