

UNIVERSITY OF OREGON LOOKS FORWARD UPON A RECORD YEAR

Students Pouring in to Tax Capacity of Town of Eugene.

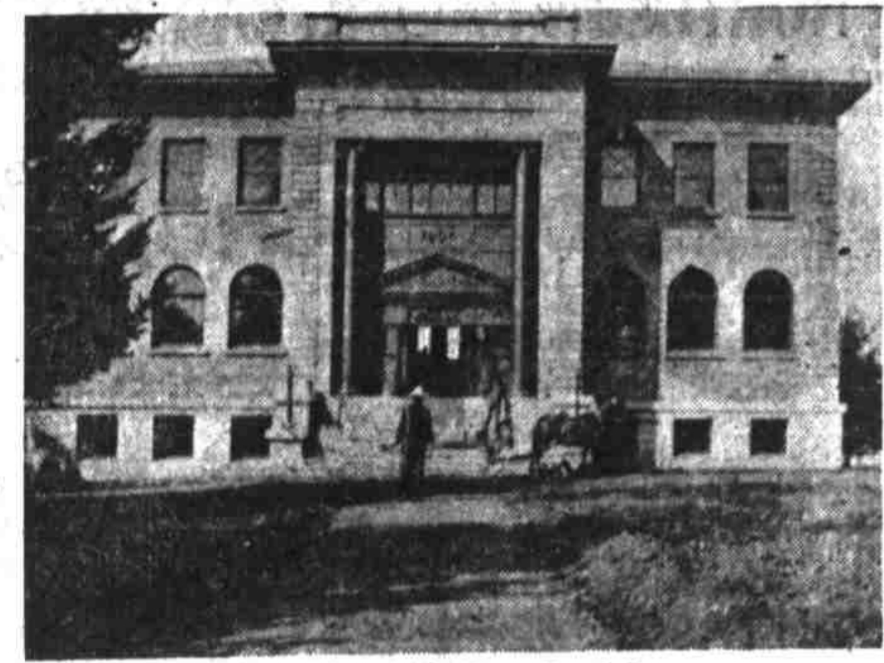

FACULTY STANDS PAT ON THE REFERENDUM

Spirit of Students Very High—Attendance More Nearly Represents All Sections of State Than Ever Before—New Buildings.

(Special Dispatch to The Journal.) University of Oregon, Eugene, Sept. 24.—The University of Oregon opened the first semester yesterday with the brightest prospects in its history. The faculty decided to stand behind the school solid during the trouble with the referendum, and while not quite all the additions that were hoped for have been

Tau Pi Sorority House, U. of O., Nearing Completion.

New Library Building, U. of O.

consummated, the efficiency of the professors who will compose the faculty is as great as in any institution west of the Mississippi. The proof lies in the fact that graduates of the university have received instructions in all the leading institutions of the northwest, and in the east besides.

The students arrived yesterday and Sunday by hundreds. While registration, which began today, is not complete enough to offer any figures, the freshmen class will be very large. The Portland delegation is very prominent. The great influx of students may be judged when it is considered that already difficulty is being found to supply quarters for the new students. Great efforts have been made to meet the emergency, and in two or three days it is likely the situation will be relieved.

The students are coming from all over the state in a more general fashion than ever before. Eastern Oregon adds a large quota.

Library Building. One of the chief additions to the university this year is the \$40,000 library building. It is well arranged and will provide many needed classrooms as well as departments for the library proper. Other buildings which are a source of pride to all lovers of the University of Oregon are the girls' club building, the first of a number of small dormitories to be erected on the campus, costing

GROWING GIRLS NEED PINK PILLS

The Tonic Necessary for Their Proper Development and to Insure a Healthful and Happy Life—Read This Statement of an Iowa Woman

There is a form of anemia, or bloodlessness, that often afflicts growing girls, that has been called the anemia of development. It requires care and proper attention as neglect may cause a life of unhappiness and suffering. There is also danger of consumption, especially if a dry, hacking cough is noticed. The disease is in the blood and Dr. Williams' Pink Pills are particularly well adapted to cure it. We have yet to hear of a case in which these blood-making pills have been tried without success.

Miss Esther E. Durbin of 212 1/2 Main street, Des Moines, Iowa, had two doctors when I was a school girl. I became afflicted with anemia and grew so weak that I could scarcely walk. There was a craving for rich and I ate a great deal of it. I was pale and thin, had no ambition and was subject to hysterical attacks. I had two doctors so short that I would have to sit down and rest on the way up the school steps. I would fall asleep during a recitation in spite of my efforts to keep awake and at last had to give up going to school. Sometimes it seemed as if my heart would jump out of my body. Almost everything I ate hurt my stomach and I had a bladder trouble that caused me to hurt and puff out. I had two doctors during the two years before I began using Dr. Williams' Pink Pills and at last had to give up. I thought that they could do nothing for me.

"Our druggist recommended Dr. Williams' Pink Pills and when I had taken them for about a year and they gave me a change for the better. Altogether I used them for about a year and they gave me a change for the better. I noticed every other means had failed. I have recommended the pills to many others and am always glad to see so many as you are. Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y."

HEAVY PRODUCTION BY DRY LAND FARMING

Wheat Crops on Bench Land of Montana Enormous—Thought Worthless.

(United Press Leased Wire.) Helena, Mont., Sept. 24.—It remained for Iowa and Oklahoma farmers to show the way as regards wheat raising in Montana with the result that land which five years ago was considered worthless except for grazing, today commands from \$20 to \$25, and is yielding from 40 to 60 bushels of wheat an acre. The wheat is graded as No. 1 hard northern, and is bringing from 85 to \$7 cents a bushel. These lands are what are known as "bench" that is, they are neither in the valleys nor on the mountains. The high for irrigation, they had been used for grazing purposes, when Oklahoma and Iowa farmers, emigrating to this state, set the example in Great Falls county, and it has quickly spread to Fergus, Madison, Chouteau and other counties. The process is known as dry land farming because of the fact that no water is available of save the natural rainfall. Madison county which three years ago raised no wheat, this year produced 40,000 bushels, while Fergus and Gallatin will raise several hundred thousand bushels each. The freight rate to Minneapolis will permit of a net price of from 80 to 85 cents to the farmer. One Gallatin county farmer has raised 4,000 bushels on 80 acres this year, and he declares that with improved and more scientific methods in vogue in this state, that record will be eclipsed easily.

Rye is also raised in this method, and an excellent illustration of the method is given in the features of the state fair, which begins in Helena on September 30, will be the division of dryland farming, and it promises to be one of the features of the exposition. Five years ago the announcement that crops could be raised without irrigation except in the valleys would have been ridiculed, yet from present appearances, the dryland crops are going to give the irrigated crops a very close race for supremacy in the near future.

VAST IMPROVEMENT IN KESLO SCHOOLS

(Special Dispatch to The Journal.) Kelo, Wash., Sept. 24.—The Kelo public schools have now settled down in regular work with a heavy enrollment, 296 being in the grades and the high school. The new \$10,000 addition to the Washington building has relieved the congestion of last year and now all the grades with the exception of the first primary are in the one building. An assistant has been added to the high school and through the efforts of Superintendent Suits a \$200 laboratory fund was raised and Kelo now has the best outside laboratory in the county. The teaching force for this year is composed of Misses Jenkins, Seeley, Daubney, Ambrose, Hall, Winston, Mrs. Raddy and Superintendent Suits.

STEAMSHIP OFFICIAL RESIGNS FRISCO JOB

(Pacific Coast Press Leased Wire.) San Francisco, Sept. 24.—W. E. Pierce, local manager for the Pacific Coast Steamship company, has resigned his position with the intention, it is said, of entering a new line of business immediately after the first of next month. J. C. Ford, vice-president and general manager of the Pacific Steamship line, here from Seattle, and a guest at the Fairmont, confirmed this news last night. He said Pierce had requested that his resignation take effect on October first. Ford says that he is undecided as to who will succeed him.

VANCOUVER ADVERTISEMENTS.

Announcement. I have been so fortunate as to secure the services of Dr. C. H. Law of Detroit, Michigan, to give a post-graduate course in higher optics and prism, and for the purpose of demonstrating the same, he will examine and advise free of charge all cases of eye trouble presenting themselves between now and Wednesday evening. I would urge all those who have been unable heretofore to get relief from eye strain to avail themselves of this rare opportunity. W. R. COBB, 112 Sixth St., Vancouver.

For Sale—Wood at \$4.50 and up delivered to any part of the city. Phone 618 before it is all gone.

Fashionable New Silks and Dress Goods

Dependable Qualities in Strikingly Handsome Designs. All recent arrivals—carrying the tone and character that emphasizes the season's leading weaves. The best efforts of the men who man the looms of the greatest textile mills in the world are to be seen here. BUSINESS COURSE IN ROSEBURG SCHOOLS

(Special Dispatch to The Journal.) Roseburg, Or., Sept. 24.—It is the intention of the Roseburg school board

to add a commercial course to the public schools of this city, and to make it possible for students to fit themselves for any kind of work in the business line that they see fit to take up. To this end the board will hold a meeting this week and decide whether the new course shall be added at once or at the beginning of the next school year. Now Metzger's eye glasses, \$1. 342 Wash.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.
