Yet a little sleep, a little slumber, a little folding of the hands to sleep; so shall thy poverty come as a robber, and thy want as an armed man.—Solomon.

THE PERMANENT ROSE FIESTA PROJECT.

THE ROSE FIESTA last summer, though rather hastily projected and arranged, was manifestly so good a scheme, and proved such a success, that the management decided, with popular approval, to make it an annual affair and enlarge its scope and attractions. satisfied, requests such people to write short letters telling why they like this country better than the old home, making a clear statement of facts that will appeal to those who are planning to come here. When a sufficient number of these answers have been received the Optimist will print them in pamphlet form for general circulation, bearing all expense.

SMALL CHANGE.

So Wu Ting-fang is coming back to Washington as minister from China, according to a report. He will be welcome, of course, but doubly so if he will not spend most of his time making speeches on the duty of Americans. We have a president, he should remember, who tells us all frequently what we should do.

SMALL CHANGE.

Doubtless Dr. Long and others will watch the reports of the president's hunting trip to see if they can discover any nature faking stories.

WORKING WOMEN, WHAT THEY SHOULD KNOW

Women for the most part spend their lives at home, and it is these women who are willing and ambitious that their homes shall be kept neat and pretty, their children well dressed and tidy, who do their own cooking, sweeping, dusting and often washing, ironing and sewing for the entire family, who call for our sympathy. Truly the work of such a woman is "never done" and it is any wonder that she breaks down at the end of a few years, the back begins to ache, there is a displacement, inflammation or ulceration of the abdominal organs, a female weakness is brought on, and the struggle of that wife and mother to continue her duties is pitiful.
