The crime created the greatest "x-citement throughout Australia. The government immediately offered a reward of 1500, and professional and amateur detectives by the score were engaged attempting to track the daring miscreant. The theory of the actual crime was that the murderer had gained admission to Mr. Bauer in his room on the representation of being a prospective buyer of some diamonds. This was supported by the fact of a diamond weighing one carat being found on the weighing scales.

From the London Chronicle. How a young man rose from the humble position of blacksmith to be a millionaire with a mansion in Park Lane is a romantic story which is just

marriage will take place shortly between Miss Ethel Lewis, second daughter of Isaac Lewis, head of the South African firm of Lewis & Marks, and Jeffery Duveen, son of H. J. Duveen, principal of the famous firm of art dealers.

Few men have been so extracrdinarily successful as H. J. Duveen. He was one of a number of youns Dutch Jews who left their native land for England. Emigrating to Hull he followed his trade of a blacksmith, for some time, but soon his faculty for getting on asserted itself.

He came to London, and in due time he became associated with a Holborn firm of jewelers. Meanwhile he took pains to educate himself, all the while exerting himself to master every detail of his work.

Eventually so well did he prosper that he was able, with his brother, to establish the business in Bond street which has become so famous. A short time ago, it may be mentioned, he paid over \$1,000,000 for the Rodolphe Kann collection.

The crime was the murder of Bernard Bauer, one of the best known diamond merchants in Melbourns, in that faraway city, in June last. The murder was a particularly ferocious one, and for months the Australian police have searched for the assassin in valin.

They made extraordinary efforts to run him to earth, but everywhere they came to a blank end. Suddenly, when their quarry had escaped to England, and was in hiding in London, and so the scene changes to the metropelis.

Exown and Watched.

Scotland-yard officials were informed a day or two ago, that the man suspected by the Australian police is now known to be in London, and is actually being shadowed at the present time.

The chase has an added interest for London in that the Victorian government is offering the unusually large reward of £1,000 for information that will lead to running the murderer to earth. In the event of a smart detective or police-officer findings his man through his own astuteness then this very substantial sum of £1,000 will be paid to him.

The editor, as he read over the article, called the reporter up to his desk and told him that he would cut out that sentence about winter lingering in the

John Horgan the champion pool player, told at a dinner in St. Louis a billiard story.
"Billiards is a tame amusement beside pool," Mr. Horgan began. "Two used was found in the room, covered with blood. It was a piece of iron tubing.

WE CURE WEAKNESS

This is to men who lack courage, whose nerves are shaky, whose eyes have lost the sparkle, whose brains are muddled, theas confused, sleep restless, confidence gone, spirits low and easily depressed, who are backward, hesitating, unable to venture because they are afraid of failure, who want somebody to decide for them, who are weak, run down and restless. It is to men who have part or all of these symptoms and want new life, new energy. We especially solicit those cases in which many so-called treatments have failed, or where money has been wasted on other methods of treatment. Don't experiment when our direct method offers a certain means of cure by local treatment.

WE CURE VARICOCELE

Variencele causes congestion of the blood in some of the most vital blood vessels of man. It causes a dull heavy, listless feeling, which is often mistaken for nervous debility or general decline. Varieocele results from partial peralysis of the delicate nerve fibers that control local circulation of the blood. The muscular coating of the veins is deprived of nervous control and become inactive, weakens and relaxes. The blood vessels expand from the pressure within. The circulation becomes aluggish and clots form in little nooks and pockets that constantly enlarge as the relaxation continues.

We have cured thousands of complicated cases where others have failed. Our offices are well appointed and equipped with the most modern appliances and the latest inventions essential for the proper and up-to-date treatment and cure of special diseases.

You may consult us privately in confidence. You will be examined in a thoroughly scientific manner and our diagnosis and advice will be cheerfully given to you absolutely free of charge. After this if you desire to be treated we will cure you and make you well and strong as you ought to be.

No matter what your aliments are, call or write to us today, stating your case plainly in your own way, and receive the benefit of a modern skillful diagnosis. All letters answered in plain, sealed envelopes.

WEAKNESS

Note the announcements of all other specialists and medical institutes and you will see how little they say about their treatment for Men's

Weaknesses and how lightly they pass over the subject. Yet one man out of every four has a vital weakness, which constantly drains his vital weakness, which constantly drains his power, and that man must continually force himself along in his everyday path of living. There is no real joy or happiness that is not marred by his ever-present feeling that he is not as other men. Now to such man that he is not as other men. Now to such men I offer hope. I not only hold out a helping hand to lift them up, but I urge them earnestly to ac-cept my aid. I can gain their confidence from the first examination by locating the seat of their trouble exactly, and can always entirely con-

tion. I never charge for this examination or consultation "Weakness" Means Just This

That there is some functional derangement, the direct result of inflammation, enlargement or excessive sensitiveness of the prostate gland, brought on by early dissipation or resulting from improperly treated contracted disorder. This condition cannot possibly be removed by internal medicines, and any tonic system of treatment that stimulates the activity of the function can but result in aggravating the real aliment. This is a scientific truth I have ascertained after a careful and scientific study and upon which my own original system of treatment is based. I employ neither tonics, stimulants nor electric belts. I treat by local direct methods exclusively, and my success in curing even those cases that others have failed to temporarily relieve with their tonics is conclusive evidence that my method is the only possible means of a complete, radical and permanent cure.

A Guarantee Worth Something

I do not care what your experience has been with other treatments, what guarantees you have, and what promises were unfulfilled in the past, as unsuccessful, unscientific treatments and unreliable concerns are in no way a reflection upon honest, trustworthy business methods lived up to in this city by me for twenty years. I have an established reputation, and my guarantee means that my patients are indisputably insured of success in their case. There is all the difference in the world between a guarantee of this kind and the promise of these mushroom concerns which are continually falling in business. I repeat my straightforward, square proposition to wait for my fee until the cure is effected.

VARICOCELE, SPERMATORRENA, LOST VIGOR, ORGANIC WEAK-NESS, CONTRACTED DISORDERS, STRICTURES, SPECIFIC BLOOD POISON and PILES I also treat and cure promptly and thoroughly.
