

FORT PECK TRACT SOON WILL OPEN

Half-Million Acres Will Pass to the Public by Purchase.

INDIAN ALLOTMENTS UNCOMMONLY LIBERAL

Tract Situated in Northeastern Montana and Where Water for Irrigation is Available—Provisions for Indians.

(Special Dispatch to The Journal.) Helena, Mont., Oct. 1.—The Fort Peck Indian reservation in northeastern Montana, containing about 500,000 acres, is soon to be thrown open for settlement. The Flathead reservation, of double the Fort Peck tract's area, will be thrown open next year. Both contain some of the finest agricultural lands in the state.

A treaty providing for the opening of the Peck reservation has just been entered into between the government and 577 male Indians in behalf of the tribes. The Indians bound by the agreement are the Sioux and Assiniboinese. The red men agree to surrender to the government all land within the reservation, provided allotments of 250 acres each shall first be made to every man, woman and child belonging to or having tribal rights on the reservation who have not heretofore received allotments. It is further agreed that if the government irrigates the lands, forty acres thereof may be included. In addition, heads of families and adult members more than 18 years of age are allotted the timber lands within the reservation bordering along the Missouri river, and further, 160-acre allotments of non-irrigable lands are to be made to each child born to the Indians' parties to the agreement so long as the reds are in possession of any unallotted, tribal or reservation lands.

Minimum of \$1.25 per Acre. The agreement provides for the appointment of a commission of three to inspect, appraise and value all lands not allotted or reserved and shall be divided into three classes—first and second-class agricultural lands and grazing. When this is done the lands shall be disposed of under the homestead and townsite laws of the United States, the date to be fixed by the president. In no case shall the valuation be less than \$1.25 per acre. After deducting the expenses, the funds so received are to be credited to the Indians by the national treasurer, and from this \$10,000 will be set aside annually as a pension for the aged red men. At the end of fifteen years the sum remaining shall be distributed equally among the Indians.

The land is situated chiefly in Valley county and is watered by the Missouri and Milk rivers and most advantageously situated for reclamation. That the opening of both reservations will attract thousands cannot be doubted.

About 40 employees of the New York, New Haven & Hartford railroad have been retired on pensions. The men so retired have been in the employ of the company from 35 to 40 years and will now receive from \$3 to \$7 per week for the remainder of their lives.

BARNEY MORRISON ALWAYS PIONEER

Born on Frontier of Eighty Years Ago, Followed It to Coast.

(Special Dispatch to The Journal.) Newport, Or., Oct. 1.—Barney Morrison, who died at his home at Pioneer, now known as Morrison, in Lincoln county, last Tuesday, was born June 1, 1827, in Washington county, Tennessee. He was married April 11, 1846, to Jennie Stover. There were born to them eight children, six of whom survive.

Barney Morrison.

him, Ruth A. Embree of Dallas, Oregon; James H. Morrison of Washington, Chester L. Morrison of Pioneer, Tabitha Simpson of Independence, Oregon, and Josephine Bevin of Atrille, Oregon. Barney Morrison was always a pioneer, keeping in advance and helping to open up the way for the civilization that was to follow. He moved from Tennessee to Missouri, from there to Iowa and thence to Oregon, locating in 1862 in Polk county for a while. Again he moved with his family to Yaquina bay, locating at Pioneer, where he resided up to the time of his death. Mr. Morrison was public-spirited and took an active part in the affairs of the communities in which he lived. He helped organize, and was the first president of the Yaquina Bay Mutual Telephone and Improvement company. He celebrated his sixty-first marriage anniversary the first day of last April. His children and many of his grandchildren were present to participate in the festivities of that occasion. Many handsome presents were given the aged couple and many kind greetings from friends.

Mrs. Morrison, nearly 80 years old, enjoys good health and is held in high esteem by a large circle of friends and acquaintances.

Dr. T. J. Lloyd. Veterinary surgeon and dentist, has opened a new veterinary hospital at 126 North Sixth street, near the Union depot. The doctor is thorough in all branches of the profession. He pays particular attention to the treatment of dogs and operative surgery. Telephones A-3435, Main 8016.

AN ISLE WHERE EASTERN OREGON WOMEN LABOR CHURCH DISTRICT

Quaint Settlement Off Coast May Be Designated at General Episcopal Convention at Richmond, Va.

(Washington Bureau of The Journal.) Washington, Oct. 1.—The general scheme to reform western missionary districts in the Protestant Episcopal church comprehends the creation of several new districts as well as the setting aside of one in eastern Oregon. The Right Rev. Mr. Scadding, bishop of Oregon, is understood to have expressed the desire for the eastern Oregon district, and it is regarded as probable that his wishes will be respected at the general convention at Richmond, which convenes this week. This has been the suggestion among the delegates to the Brotherhood of St. Andrew, 2,500 in number, who were here last week in session.

It is proposed to create a new district of Nevada, which is now in a diocese including Nevada and parts of Utah and Colorado. The plan involves also the removal of the bishop of Laramie, the Right Rev. Mr. Graves, to western Nebraska, where a new district would be created, and a missionary bishop for Wyoming to succeed Bishop Graves. The churchmen assert that dioceses and missionary districts heretofore maintained of parts of different states and territories have been more or less hampered by limitations of state pride, and that the proposed plan would obviate this difficulty.

Among the hundreds of St. Andrew delegates, many of whom will sit as deputies in the Richmond general convention, has been carried on an intense discussion as to the proper solution of the negro question, which has arisen to plague the Protestant Episcopal church. It is not unlikely that the convention will develop some sharp passages at arms between the radicals and conservatives, the former being disposed to maintain a rigid segregation of the races, and the latter being disposed to take into account the obvious facts to be observed in the south. A plan has been formed, however, by influential men, among them Bishop Edsall of Minnesota, who said that in all likelihood separate dioceses would be created for the negroes, regardless of the state lines, giving them their own division or section, not geographical, but racial, these dioceses to be given full representation in the general convention. That this will be the solution appears to be the consensus of opinion among the delegates to the Brotherhood of St. Andrew.

The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superior worth as a 'ood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Bloodroot and Black Cherry bark are extracted and preserved by the use of chemically pure, triple-refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for free booklet which quotes extracts from well-recognized medical authorities such as Dr. Bartholow, King, Scudder, Coo, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia as well as in all bilious or liver complaints and in 'wasting diseases' where there is loss of flesh and gradual running down of the strength and system.

The 'Golden Medical Discovery' makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and through them, the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing to apply to them Dr. Pierce's All-Healing Salve. If your druggist don't happen to have this Salve in stock, send fifty-four cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the 'All-Healing Salve' will reach you by return post.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

COMMERCIAL CLUB OF KENNEWICK BANQUETS

(Special Dispatch to The Journal.) Kennewick, Wash., Oct. 1.—The banquet given by the Commercial club at the new Hotel Kennewick Saturday night was the most successful affair of the kind ever held in this part of the state. Over 125 guests were present, many coming from outside cities, and the large dining-room was taxed to its utmost capacity. A number of the most prominent men in the state were present, among them being Governor McGowan, Congressman Wesley L. Jones, Mayor O. A. Fechter of North Yakima and Dr. N. G. Blalock of Walla Walla, and Mr. Gorman, president and manager of the Hanford Irrigation company of Seattle. A special train from Walla Walla brought about 25 representative citizens from that place, and nearly all the larger towns of the state were represented.

St. Helens Schools Open.

(Special Dispatch to The Journal.) St. Helens, Or., Oct. 1.—The schools opened yesterday with Professor J. W. Allen as principal. Twenty-five names have been added to the list of children in this district and it is expected there will be a large attendance. At a special meeting of the district Saturday evening it was decided that the ninth and tenth grades should be taught this year.

My brain is like a hazy sky
Where something seems to float,
I think it's something I must buy,
By Jove! an OVERCOAT!

TO DEVELOP COAL VEIN IN MALHEUR

Wealthy Sheepman Will Explore Promising Claim on Cottonwood —Other Good Prospects.

(Special Dispatch to The Journal.) Ontario, Or., Oct. 1.—J. H. Seaward, a prominent sheepman of this county, has sent a force of men from this city to Cottonwood creek to begin the developing of the coal claim he recently located on that stream near the farm of E. S. Copeland, 20 miles southwest of Vale, and about 46 miles from this city. The vein of good coal two feet thick and exposed for about 40 feet in width crops out along the bed of Cottonwood creek, having been unearthed by the waters of that stream. The outcrop is situated about half a mile from the Ontario-Barren Valley public road, one of the main traveled thoroughfares and is thus of easy access. Should the vein continue or increase in thickness for any depth a trolley line will be constructed to the mine.

William Uitz, of Nyssa, also has a claim located near there, and there are several other claims in that vicinity but from all reports Mr. Seaward has the best prospect. He has already been offered a good price for a half interest in his claim but as he amply able to develop the mine he has decided to do so at his own expense.

At the annual meeting of the stockholders of the Pennsylvania Railroad company it was voted to increase the age limit for persons entering the employ of the company from 35 to 45 years.
