

# GERMANY AND ENGLAND DO NOT DESIRE TO DISTURB GREAT FLOW OF TRADE BETWEEN THE TWO COUNTRIES—AGREEMENT TO BE RENEWED.

Germany and England do not desire to disturb the great flow of trade between the two countries. An agreement to be renewed.

(United Press Special Wire.) London, Oct. 1.—The definite regulation of Anglo-American commercial relations is beginning to excite considerable attention in Berlin. At the end of this year the provisional arrangement made by the reichstag in 1905 will lapse. This arrangement granted England and her colonies, with the exception of Canada, the most-favored-nation treatment. Year by year trade between the two empires assumes ever greater dimensions. In 1906 the German trade with Great Britain and the colonies amounted to the colossal sum of \$750,000,000. It is therefore of the utmost importance to both countries that an arrangement should be made which will in no wise disturb so enormous an exchange. It is not believed in well-informed circles, however, that the new year will bring any change. England can now only offer what is offered all along, namely, the most-favored-nation treatment by the mother country, leaving the colonies to join the agreement or not as they think fit. "If such a proposition," says a leading editorial in the *Vossische Zeitung*, "was unacceptable for Germany eight years ago it has not been rendered more acceptable recently, especially when the attitude of the British colonies is taken into consideration, an attitude which is not illustrated by the new Australian tariff. There seems therefore to be only one way of meeting the difficulty, and that is to renew once more the provisional agreement which has been in force so many years. Let the reichstag therefore emphasize the federal council to renew the most-favored-nation agreement for another term of years."

As the result of the official inquiry into the fire which broke out on board the French warship "Caledonia" at Brest, no doubt remains as to its being the work of incendiaries, and three sailors have been arrested on suspicion. These men, who are from Toulon, where so many similar outbreaks have recently occurred, were absent without leave at the time the fire broke out, and are alleged to have boasted in the town that some disaster was about to happen on board. The police are making searching inquiries, both at Brest and at Toulon, among the former crew of the ship.

It is reported from Berlin that the German Anatolian Railway company has concluded a contract with the minister of the sultan's civil list for the drainage of the extensive plain southwest of Konia, in central Asia Minor. The work, which will cost about 25,000,000 marks, will be commenced at once by the same firm of Frankfurt engineers which has built the railway from Konia to Karaman in the direction of the Taurus mountains.

The capital invested will bear 5 per cent interest, redeemable in thirty-five years. The work will include the regulation of the Beysehir lake and river, the building of a canal 30 kilometers long to connect the rivers Beysehir and Tscharkamba, besides numerous smaller canals.

The result of the operation will be the opening of about 250,000 acres of hitherto desert lands for wheat culture. It is computed that the crop of wheat on this plain will be increased by 20,000 wagon loads, and enable the Turkish government to supply the wants of its Asia Minor troops as well as to improve the supplies for Constantinople. For the present, at any rate, there are no plans for sending out German colonists to the district in question.

The recent meeting of the United French Socialistic group with the doctrine of anti-militarism has caused a certain amount of patriotic emotion in the ranks of the French Radicals, who do not relish finding themselves linked in such compromising company. For the fiftieth time one hears confident assertions of the imminent dissolution of the ministerial bloc, which process is to take effect immediately the chamber meets. The situation is not without its original aspect, and certain fissures may disclose themselves in the government majority, but electoral necessities really control the outlook. Radicals and Radical Socialists cannot dispense with the support of the United Socialists any more than the latter can afford to disregard the influence of the Hevelists, and however magnificently they may appear to flout each other in the chamber their mutual needs in the constituency keep their bickerings from becoming an open breach. Certain Radicals may form themselves into a dissident group, but that is a process which has been ripening some time.

The Paris *Temps* observes, with reference to the French naval budget for next year that the expenditure falls short of the 120,000,000 francs considered to be annually necessary a year ago. The new vessels to be built are limited to smaller units, including ten torpedo destroyers and five submarines and submersibles. The government has reduced the number and importance of the vessels to be begun in 1908 with the object of directing the main effort upon the construction of the six battleships comprised in the 1906 program, which will absorb in round figures 53,000,000 francs. These six battleships will be completed in the beginning of 1911.

## DR. WILLIAMS' PINK PILLS FOR ANAEMIA

Thin Blood, Dizzy Spells, Palpitating Heart and Smothering Sensations Indicate a Condition for Which This Remedy is a Specific.

An anemic condition, that is, a state of health in which the blood is apparently turning to water, and every organ of the body is suffering for lack of nourishment, can be met only by a remedy that will increase the quantity and richness of the blood.

Dr. Williams' Pink Pills actually make new blood and they have been curing anaemia for a generation. A recent case is that of Miss Nellie M. Danforth of 66 South Broadway, Akron, Ohio. It was not an unusually severe case but was a characteristic one.

The approach of Miss Danforth's trouble was very gradual. She felt symptoms of it for a year and although she was under a physician's care for some time the treatment did not afford her any relief. She says: "I had weak spells when I felt as though I was going to faint and my heart would palpitate so that I was almost smothered. I had no color, even in my lips and cheeks, and was as white as wax. Everyone said my blood was turning to water."

Whenever I would rise from a chair I would have to hold on to it to steady myself as everything would turn dark before my eyes and all I could see were flashes of light like shooting stars.

"Nothing seemed to help me and when a friend recommended Dr. Williams' Pink Pills I got a box. I began to feel a little better and continued taking the pills until I had fully recovered. I have recommended Dr. Williams' Pink Pills to a number of my friends."

A valuable booklet, "Diseases of the Blood," containing fuller information will be sent free upon request.

Dr. Williams' Pink Pills are sold by all druggists or sent, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

**NEW AD. MANAGER**  
George Forges Succeeds Oscar A. Olsen With A. B. Steinbach & Co.

The stores of Portland naturally attracted my attention first, and I must say I was most favorably impressed, and you know first impressions are the most lasting," said George Forges when seen at the advertising desk at A. B. Steinbach & Co. Mr. Forges is the newest addition to the corps of skillful advertising writers of which Portland can boast. He comes to the Steinbach clothing establishment well equipped to prepare the publicity required by the store. For the past two years Mr. Forges was advertising manager of the Seal Clothing Store, for which he did some exceedingly effective work. For eight years prior to that time he was advertising and sales manager of the Seal Clothing Store of Salt Lake. To accept this position he resigned as advertising manager of the Leader department store at State and Adams streets, Chicago, a position he had filled creditably for 12 years.

With A. B. Steinbach & Co. Mr. Forges succeeds Oscar A. Olsen, who resigned his position on account of ill health.

The executive board of the Massachusetts state branch of the American Federation of Labor has decided that legislation to limit or defeat the power of courts in injunction cases is to be the effort of organized labor of the state in the fall campaign.

## EPISCOPALIANS TO MEET AT RICHMOND

(United Press Special Wire.) Richmond, Va., Oct. 1.—Richmond will be the scene, during the next three weeks, of the most important religious gathering ever held in this country—the triennial general convention of the Episcopal church in America, which convenes tomorrow. The session will be historic in that it will commemorate the three hundredth anniversary of the landing of English churches at Jamestown and the first use of the Book of Common Prayer in the new world.

## CITY OFFICIALS MEET FOR ANNUAL SESSION

(United Press Special Wire.) Detroit, Oct. 1.—Officials of cities in all sections of the United States are in attendance at the meeting of the American Society of Municipal Improvements, which convened in Detroit today for a four-day session. An exhibition of machinery and material used in various cities is a feature of the convention.

As Chinamen are not union men and their laundries not unionized, they are not so deprived of the patronage of union carpenters in the future if a recent vote taken by the Boston Carpenters' union is honored by the members.

"We live," continued the emperor, "in a great time, a time of powerful, marvelous, and almost unfeeling progress made by the new empires in all directions. The astounding development of our trade and commerce, the magnificent inventions in science and technique, are the consequences of the reunion of the German races into a common fatherland. Shall we now begin to forget the source of all this unbounded development?"

"The greater and the more prominent the position acquired the more must we recognize therein the workings of Providence. If God had not meant the nation to accomplish great tasks he would not have given it such capacities. Let us, therefore, in recognition of this development, look first to heaven, thankful for the grace God shows us by granting us his sign. Let us see that we hold fast the old sources of our strength the same now as they were in 1807."

"Bids People 'Look Up.'"  
"Let us look up, in the belief that all we achieve is due to a disposition from above, and in this belief, we can go about his work—the savant with his books, the smith with his anvil, the peasant with his plow, the soldier with his sword, the work as brave Christians and brave Germans. Then we will be men of action, a determined people pressing forward, and out of this development of the great duty and great work laid upon us."

**OVERWORKED CREW LET CARS ESCAPE**  
Passenger Train Late or a Horror Would Have Occurred—Crew on Duty Forty Hours.

(Special Dispatch to the Journal.) Olympia, Wash., Oct. 1.—The railroad commission has received a report from Inspector Perley regarding a narrow escape from a disastrous wreck on the morning of September 9 last, which illustrates the necessity, in the eyes of the commission, of strict enforcement of the sixteen-hour law and the safety appliance law.

On the date named there was a runaway of a part of the Great Northern freight train at Cashmere, caused by a chained-up draw bar and a broken spring for the engine to use the air slide on the four rear cars, which broke and ran away at a high rate of speed.

The only thing that prevented a very disastrous wreck was the fact that passenger train No. 1, then due, was late and therefore not on the track in the line of the runaway.

Inspector Perley that the train crew in charge of the train that ran away had been on continuous duty forty hours.

The train was in charge of Engineer Kutoff and Conductor O'Brien.

**FILES CLOSED 9 TO 14 DAYS.**  
Pago Ointment is guaranteed to cure any case of itching, blind, bleeding or protruding piles in 6 to 14 days, or money refunded, 50c.

## One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

## TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.
