

TUNGSTIC ACID FOUND IN STATE

No Development of Industry in Oregon, Although the Price of Ore Goes Up.

COUNTRY AT LARGE PRODUCED 928 TONS

Small Output Was Valued at Over \$300,000 — Colorado Furnished Largest Offering This Year—Mineral Comes From All Over.

(Washington Bureau of The Journal.) Washington, Oct. 4.—Tungsten or tungstic acid is found in Oregon, but so far there has been no development of the industry there. In 1906 in the country at large 928 tons were produced, valued at \$349,000.

The noticeable rise in the price of tungsten during 1906 continued during 1907, and the production was stimulated accordingly. There was, however, a very great discrepancy in the prices paid for ore in various places, as there is almost sure to be when an article is produced sporadically in widely separated and often little known localities.

Use for Fireproof Cloth. Large quantities of sodium tungstate are manufactured, much of which is used to make fireproof cloth, curtains, drapery, etc., and as a mordant in dyeing. Tungsten salts are also extensively used in silk manufacture, being added to the silk with the dye to give more apparent weight to the fabric.

The production of tungsten in 1906 is reported by the United States geological survey in an advance chapter from "Mineral Resources of the United States, Calendar Year 1906," by Frank L. Hess, geologist, in connection with statistics of production of certain of the rarer metals.

KLAMATH CLAIMANTS RETURN HOME AGAIN

Despite Immense Number Who Rushed into the Bly Country There Was No Quarreling. (Special Dispatch to The Journal.) Klamath Falls, Or., Oct. 4.—Several Klamath Falls people who took part in the timber rush in the Bly country have returned with interesting reports of the success of their quest. It is estimated that there were 2,000 people on the ground, and one party reports 1,000 people in a radius of two miles of his claim. There were several locators for every claim, but, contrary to expectation, there was no bad feeling shown, even the squatters who had gone in some time previous signifying their willingness to accept the result of the contest cases. At midnight a rush was made, with six inches of snow on the ground, notices were built on the claims, notices posted and a few logs set up as the rude beginning of a cabin. In the morning several of the claimants set out for the Lakeview land office, where they will line up until October 28, when they will make filing. A good many of the claims are of little value, while others are good, but none are first-class homesteads, that is, good for agricultural land only. Some good quarter sections of timber will be secured. This land had been put into a temporary reserve pending the establishment of a watershed line by the reclamation service.

LAND FRAUD CASES NEED APPROPRIATION

(United Press Leased Wire.) Washington, Oct. 4.—District Attorney Baker will have postponed indefinitely the Hyde-Benson-Diamond land fraud cases. He appeared before the district court here, saying the expense of \$15,000 involved, which would include bringing witnesses from the Pacific coast, was inconsistent with funds available. Funds on hand, he said, made it impossible at this time for preparing for trial. Hence the necessity for postponement. The case has been set for trial October 21, before Judge Stafford, who last spring postponed it after witnesses had been brought from the west. The argument for postponement was based on request for a change of venue, the allegations being that prejudice would prevent fair trials under existing circumstances. The court postponed the cases until after Christmas, when congress will be in session, and an appropriation will be asked for necessary funds. It is vehemently asserted in government circles here that the intention of the government is to push the cases as soon as appropriation has been secured. It is said there is no intention here to let up on these, or any other land fraud defendants.

OWNERSHIP MEN AT EUGENE ORGANIZE (Special Dispatch to The Journal.) Eugene, Or., Oct. 4.—The advocates of municipal ownership in Eugene held a meeting last night and made preparations to start an active campaign for the election on October 15, at which time the question of whether or not the city shall issue \$300,000 bonds for water works will be voted upon. Mayor J. D. Matlock presided, and enthusiastic speeches were made by prominent citizens. The city council has selected a site for a source of water supply, and if the bonds carry at the election work on the new project will be commenced immediately. The site chosen is on Fall creek, about 20 miles east of Eugene.

A MOST WORTHY ARTICLE. When an article has been on the market for years and gains friends every year, it is safe to call this medicine a worthy one. Such is Ballard's Horehound Syrup. It positively cures coughs and all pulmonary diseases. One of the best known merchants in Mobile, Alabama, says: "For five years my family has not been troubled with the winter coughs, we owe this to Ballard's Horehound Syrup. I know it has saved my children from many sick spells." Sold by all druggists.

"EVERYBODY IS TALKING ABOUT IT"

EXPLANATION!

The slogans I suggest for East Portland are: "East Portland is Portland," "We don't cross the river for water," "East Portland is on the map," "We have it in East Portland," "East Portland is a go," "East Portland jumps by jumps," "The sun goes up in East Portland," "We'll meet in East Portland," "Good girls in East Portland," "Get married in East Portland," "Three cheers for East Portland," "You are welcome in East Portland." I do not wish any prize for above suggestions, but if East Portland will adopt my favorite slogan, viz.: "We drink 'Golden Grain Granules' in East Portland," then I shall give 1,000 sample packages free. In every package is health; with health comes happiness and wealth. Oregonians are loyal to Golden Grain Granules. EVERY PACKAGE OF GOLDEN GRAIN GRANULES IS NEARLY TWO POUNDS. IT TAKES VERY LITTLE OF IT TO MAKE A GOOD CUP OF THIS DELIGHTFUL AMERICAN COFFEE. IT TAKES BUT A MINUTE OR TWO TO BOIL IT. Children don't cry for Castoria any more, they want Golden Grain Granules, they crave the strength there is in it, when going to school, they don't want milk. DON'T USE TOO MUCH OF THIS PURE CEREAL COFFEE AT A TIME. REGULATE THE STRENGTH TO SUIT YOUR TASTE. Respectfully, JOHN BLAAUW.
