WATER SUPPLY IS AURORA'S PROBLEM

(Special Dispatch to The Journal.) Aurora, Or., Oct. 9 .- It was the sense of the members present at the last council meeting that not a sufficient supply of water even for fire protection could be obtained from the well lately bored, and the decision was reached that the most feasible plan would be to investigate some other source, several of which are close to the city. One proposition was to locate a pumping station on the banks of the Pudding river and pump water into a high tank located on the present site of the plant. Another plan is to pump into the tank from the spring well at the Aurora Electric company's power plant, where it is claimed sufficient water for all uses can be obtained at a reasonable cost. Still another plan has been considered to pump and pipe water from J. G. Miller's spring on his farm, where there is said to be a never failing supply of good water. No decision was reached. The water committee will investigate and report at the next meeting. of the members present at the last

Licensed and Legitimate

My Portland offices are conducted by two regular graduate physicians whose certificates showing them to be LICENSED TO PRACTICE MEDICINE AND SURGERY IN THE STATE OF OREGON are at all times open for inspection in consulting room.
Together with these two Oregon Licenses, are diplomas from the
best American and Foreign Universities and every patient has
ample protection of being treated by honorable and legitimate
methods. Men should recognize the difference between the responsible and reliable Specialist and the illegal quack that the Medical Society is seeking to stamp out.

Treat Cases I Can't Cure

I treat for real and lasting cures. Every remedy I employ has its part in bringing positive and permaent results. Under my treatment the patient who notes improvement in his condition can feel assured that real benefit and not a temporary drug effect has been obtained, and can continue with confidence that a thorough cure is being accomplished. My success as a specialist is due to the fact that I accept no incurable disease and always treat with a cure in view, never resorting to the use of a remedy that brings out temporary

treatment for Varicocele.

I have conclusively demonstrated the fact that derangement of the masculine functions is a curable aliment. That there has been considerable diversity of opinion upon this point among the profession is but an evidence that functional weakness has not been thoroughly understood and has been unscientifically treated. Though commonly regarded as a nervous disorder, it has never yielded when treated upon this theory. I have ascertained by the closest observation in thousands of cases that only in rare instances is the general constitution or nervous system involved to any noticeable degree whatever, and that "weakness" in all its phases is merely a symptom of nervous disorder. In by far the greater number of cases the functional derangement is due to a single case, a chronically inflamed condition of the prostate gland brought on by early dissipation or lingering as a result of some improvement under stimulating processes of treatment, but ultimate relapse is certain to follow all such methods. The only radical cure is the absolute removal of the abnormal condition responsible for the functional disorder, and this I positively accomplish through carefully directed local measures. My treatment is entirely distinctive and original. No other physician employs like methods or approaches my success in curing. The results I obtain are thorough and lasting, and strength and vigor are restored in the full and normal degree.
