

Receipts of local apples are very lib-al along Front street. Demand is still slow but the trade cannot be con-sidered weak. The fact that shipmenia of supplies are so small keeps the trade from asking better price. There are but of supplies are so small keeps the trade from asking better price. There are but few carlots in this locality and for that reason everything is dumped on the local market. Those who have carlots are able to sell them to the eastern trade at better values than can be ob-tained for coast sale. While supplies of grapes are not heavy, they are fully up to the require-ments of the trade. Some are again coming from California. A few coming from North Yakima. Locals are in the best shape. Price rules between 75c and \$1.75 a box.
