

# TAYLOR STILL LEADS BETTING

## Reform Candidate for Mayor of San Francisco Is Favorite in Race.

(United Press Leased Wire.)  
 San Francisco, Oct. 30.—With the city election but six days away, the campaign has reached the fever pitch. From now until next Tuesday morning the three main candidates and their supporters will put in their mightiest efforts to win votes. If the betting goes for anything, Taylor, the Democratic and reform candidate, will win hands down. Although no heavy bets have been recorded, many small ones make Taylor a 10 to 1 favorite against the other candidates. It is believed that Taylor's managers have figured on many Union Labor votes that their men will not get and that Ryan, too, will get some of the labor votes claimed for Taylor. It is admitted that until 10 days ago Taylor had a good labor following, but it is now claimed that there has been a switch in the sentiment because of the administration's failure to disarm the strikebreaking carmen. How serious this switch has been will not be known until the ballots are counted.

A landslide is predicted for Langdon for district attorney. McGowan has been little or no figuring thus far on the complexion of the next board of supervisors, but it is believed that if Taylor is elected, McGowan will carry with him a majority of the good government and Democratic candidates for places on the board. For the other offices it looks like a case of pay your money and take your choice.

# INVESTMENT BUYING

 certificates, issued by the banks, of small denominations. The purpose of the policy here is to prevent a wholesale withdrawal of deposits.

Both Mr. Gilkey of the First National and Cashier Jewell of the Trust company state that their respective institutions are in first-class condition. The reserves are more than double the amount required by law, and the deposits of late have been very heavy. The five days' grace declared by the governor will give ample opportunity for the banks in an absolutely impregnable position.

The depositors gave a unanimous vote of approval and expressed full confidence in the stability of the Grays Pass banks.

# NO CASH AT TEKOA.

Clearing House Basis Established—Nobody at All Alarmed.

(Special Dispatch to The Journal.)  
 Tekoa, Wash., Oct. 30.—The two banks here, the Clearing House Association, when they opened for business yesterday morning.

"We, the undersigned banks of the town of Tekoa, Washington, have this day organized a clearing-house bank association and have resolved that, for the general convenience of the interests of our depositors, from now on until further notice, we cease paying checks, drafts or bills of exchange in cash, but will pay the same in demand certificates of deposit or cashiers' checks.

"This is simply a temporary precaution, which will be necessary for some time as the banks of Spokane and Portland resume shipment of coin.

(Signed) TEKOA STATE BANK, Cashier, J. B. Jewell.  
 LOMBARD & CO., F. I. Gill, Cashier.

While the notice caused much comment, no excitement appeared and both bankers and depositors feel the situation will be relieved in a day or two.

Both banks are in excellent financial condition and have no fear of the situation has not affected business in any way.

Reports from Spokane say that shipment of coin will probably be resumed today.

# TACOMA FOLLOWS LEAD.

Associated Banks Pay in Clearing House Certificates.

(United Press Leased Wire.)  
 Tacoma, Wash., Oct. 30.—The associated banks of Tacoma last night decided to take action similar to that taken by all the banks of New York, Chicago, St. Paul, Minneapolis, St. Louis, San Francisco, Portland, Spokane, Seattle and other cities to protect their cash reserves. Balances between the banks will be paid by clearing-house certificates and the following depositors will be paid through the clearing-house only. In such a case depositors will have the full use of their balances, but as no cash will be paid, the hoarding of money, which is the chief danger in the present situation, will be prevented. The Pacific coast states were never in a more prosperous condition and the same is true of the banks. The present situation has been brought about entirely by the financial conditions in New York and will last until matters right themselves there.

# BANKS CLOSE.

Governor Mead Declares Legal Holiday in Washington.

(United Press Leased Wire.)  
 Olympia, Wash., Oct. 30.—Governor Mead late last night stated that he has declared a legal holiday existing in the state of Washington for the rest of the week. This action was taken principally for the protection of the country banks. The banks in the clearing-house cities were able to protect themselves, but refused to ship money to their country correspondents. This decision being taken without notice left the country banks in place from which to draw funds and made it essential for their safety that they be allowed a

# breathing spell in which to adjust themselves to the existing conditions.

**EUGENE REGRETS.**  
**Banks Never So Prosperous—Public Confidence Maintained.**  
 (Special Dispatch to The Journal.)  
 Eugene, Or., Oct. 30.—The four Eugene banks are closed as the result of the governor's proclamation declaring a five days' holiday. The officials of all the institutions express regret that the governor saw fit to issue such a proclamation, as they believe the action will create unrest among the depositors, many of whom may withdraw their money as a result. The banks were never so prosperous and perfectly sound. It is thought they will open when the five holidays are over, even if the governor sees fit at that time to extend the holiday.

Business was almost at a standstill yesterday, people who have all their funds in the banks and there are a great many of them being unable to get their money, which is making a bad effort to be made to reassure the few fearful depositors, to meet even the semblance of a run when the banks reopen.

# TWO DAYS' HOLIDAY.

Governor Mead Closes Washington Banks and County Offices.

(United Press Leased Wire.)  
 Olympia, Oct. 30.—Governor Mead this morning declared a legal holiday in this state for today and tomorrow only. Governor Mead will close all county offices in the state. Governor Mead states that this is taken for protection to country banks, as members of the clearing house association in the larger cities of the state have refused to make remittances to country correspondents until the conditions are more settled.

# OPEN AT TILLAMOOK.

Two Banks Doing Business and Depositors Keeping Cool.

(Special Dispatch to The Journal.)  
 Tillamook, Or., Oct. 30.—The two banks of Tillamook, the First National and the Commercial Bank, are open and both open and handling business. It comes The officials of both state they have enough of the hard cash to take care of any possible run. There is no excitement, no uneasiness and no abatement of confidence. Not the least difficulty is expected by the bankers nor threatened by any depositor.

# ASTORIA COMPLAINS.

Feels the Shutdown Due to Holidays Proclaimed as a Hardship.

(Special Dispatch to The Journal.)  
 Astoria, Or., Oct. 30.—With the closing of the banks, legal business connected with court process has been shut down for the period of the holidays proclaimed by the governor. Astorians do not take kindly to the proclamation. The Commercial Chamberlain, considerable inconvenience has been felt, as Friday is the first of the month.

# NO NEED TO "RESOLUTE."

Commercial Club Has All Confidence in City Banks.

At a noonday meeting of the board of governors of the Portland Commercial Club today, President Hodson brought up the subject of the board's attitude toward the policy of the city's commercial banks in the present stringency. The question of adopting resolutions was discussed, and it was decided to take no formal action. After the meeting Secretary E. L. Thompson, expressed the views of the board as follows:

"The situation having in the last 24 hours righted itself, the board considers it unnecessary to resolve on the question. Our attitude is that the banks have taken the correct course, and that the danger to the public is not in the hoarding of money, but in the lack of confidence in the city's banking institutions.

"The Portland board of trade at a meeting last evening adopted resolutions of confidence in the banks of Portland, and commended the action taken by the clearing house association. The German American bank and the East Portland banks are open and doing business in a normal manner. Independent of the Clearing House Association. They have not felt the need for taking advantage of the holiday proclamation in clearing their certificates. There is no evidence of excitement at any of these banks, and the public apparently has the fullest confidence that the situation will not amount to anything more than a temporary inconvenience among the clearing house banks, most of which have large cash balances in the east which they cannot collect from the New York Chicago and Boston banks until the money market gets easier.

# ASHLAND IS SAFE.

(Special Dispatch to The Journal.)  
 Ashland, Or., Oct. 30.—The proclamation of the governor, brought here by the out-of-town banks, has not perturbed business conditions. All the banks here are open and will continue to do business as they have no fear of people getting scared. The banks are very strong.

# ANNUAL CATHOLIC FAIR AT ALBANY

 Albany, Or., Oct. 30.—The ladies of the Catholic church of this city last evening gave the opening program of their annual fair. ## Charley Carr, Who Owned Half Tonopah, Is Arrested at Reno for Theft.

(United Press Leased Wire.)  
 Reno, Nev., Oct. 30.—Charley Carr, the original discoverer of the famous West End mine, one-time owner of half of the city of Tonopah, and classed among the millionaires of Nevada, has received a sentence of 60 days in the county jail, with the alternative of a fine of \$120. For lack of funds and friends Carr went to jail. He had been found guilty of petty larceny, having stolen a suit case.

Carr, who is about 45 years old, was one of the best known men in Nevada when Tonopah and Goldfield were discovered. He owned one-half of the town of Tonopah, and Jim Butler owned the other half. He went the pace, and squandered his money recklessly. Once he sold property worth \$5,000 to secure \$250 cash for a good time. During the past few months he became a slave to drink, and his many friends have gone with his wealth.

# WOMEN IN HOSPITALS

## Experiences of Mrs. Rockwood and Miss Tierney

MISS MARGARET TIERNEY MRS. CHAS. A. ROCKWOOD

A large proportion of the operations performed in our hospitals are upon women and girls for some organic trouble.

Why should this be the case? Because they have neglected themselves, as every one of these patients in the hospital beds had plenty of warning in those dragging sensations, pains at left or right of abdomen, backaches, nervous exhaustion, inflammation, ulceration, displacements, and other organic weaknesses.

All of these symptoms are indications of an unhealthy condition of the female system and if not heeded the penalty has to be paid by a dangerous operation. When these symptoms manifest themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has saved hundreds of women from surgical operations.

Lydia E. Pinkham's Vegetable Compound, has cured more cases of feminine ills than any other one remedy. Such letters as the following:

**Mrs. Pinkham's Standing Invitation to Women**  
 Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that may help your case. Her advice is free and always helpful.

# NO FEAR OF PANIC AMONG EAST SIDERS

Resolutions were passed by the East Side Improvement association last night declaring there was no occasion for alarm regarding the financial situation in Portland. H. H. Newhall, who presided, emphasized the necessity of judgment on the part of the depositors and cited the unprecedented prosperity of the Pacific northwest with its abundance of crops and resources as sufficient provision against the recurrence of a panic. Sympathy and support were extended to the people of Mount Scott in their struggle for better car service. Fama Sleeth was empowered to go among the different east side associations and clubs, of which there are now 22, to solicit a larger attendance at the United East Side clubs. The secretary was also requested to extend the thanks of the association to the county court for the decision to keep one streetcar track and walk for pedestrians open during the repairing of the Burnside bridge.
