WEATHER REPORT

An immense high pressure area over-lies the north Pacific states and fair weather prevails west of the Rocky mountains except along the Washing-ton coast, where heavy rains have fell-en. A disturbance of decided character is central north of Montana, but so far little rain has attended its progress eastward. Another disturbance is passing off the New England coast and it caused light rains at scattered ces in the middle Atlantic and New places in the middle Atlantic and New England states. A week high pressure area overlies the Ohio and lower Mis-sissippi valleys and fair weather pre-vails generally in the southern states and the middle west. The indications are for fair weather in this district tonight and Tuesday except in western Washington, where rain may be expected.
