

THIRSTED FOR BANKER'S BLOOD

Friend of "Teddy Rosenfelt" Went to Bank Carrying Revolver.

Distracted from worry over the failure of the Title Guarantee and Trust company yesterday afternoon Mrs. W. L. Woodcock, of 408 East Pine street, a well known character about town, who has \$1,000 on deposit in the defunct counting house, started out with a revolver this morning, determined to slay the officials of the bank.

Mrs. Woodcock and Her "Teddy Rosenfelt" Banner.

That she was unsuccessful in her mission was due to the vigilance of Patrolman W. P. Courtney, who found her in front of the bank building at Second and Washington streets at 10 a. m. The bluecoat suspected that the woman, who is regarded as somewhat erratic, might be armed, and upon searching found a revolver in the satchel she carried. Mrs. Woodcock was relieved of the pistol and escorted to headquarters. Chief Grizmacher after learning the details of the affair, decided not to file a charge against the woman. She was later turned over to one of her relatives, but the revolver was retained by the police as a precautionary measure. Mrs. Woodcock has become a familiar local character by the manner in which she displays her extreme partisanship for President Roosevelt. The woman has been in the habit of carrying a banner about the streets, bearing the president's likeness and inscribed with several complimentary statements about the chief executive. "President Roosevelt," as Mrs. Woodcock calls the nation's head, is regarded by her as the greatest statesman of ancient or modern times. Early this morning Mrs. Woodcock endeavored to enter the premises of the Title Guarantee and Trust company, but was prevented by one of the employees of the institution. Shortly before 10 o'clock she again put in an ap-

BUYING PRICES SHOW DECLINE

Bank of France Raises Discount Rates to 4 Per Cent.

(Special Dispatch to The Journal.) New York, Nov. 7.—Today's engagements of gold bring the total to \$41,000,000. The Lusitania is expected to arrive tonight, bringing gold to the amount of \$10,000,000. Heavy liquidation was the order of the day in Wall street and despite an unusual volume of investment buying prices declined sharply. The news from abroad was less favorable. As anticipated, the Bank of France raised its discount rate to 4 per cent for the purpose of discouraging further shipments of gold. London sold American heavily. An encouraging feature is the continued good reports from the railroads. The Kansas City Southern reports a surplus equal to 4 per cent on the preferred and 6.95 per cent on the common. Today's declines in the stock market are attributed in part to the expectation of another unfavorable bank statement next Saturday, as the banks lost today \$8,000,000 to the New York sub-treasury.

ALTON RAILROADMEN RECEIVE MORE MONEY

Ten Per Cent Increase and Other Concessions Granted by Management.

(United Press Leased Wire.) Chicago, Nov. 7.—An agreement has been reached between the Alton road and its trainmen which settles all differences between them. The pay of conductors, trackmen, firemen and baggage men is affected by the agreement, the new rates to go into effect November 1. The men entered a protest against "double-head" trains and were informed that the policy of the road was not to run them, and that they would be reduced to a minimum. All wages have been increased uniformly 10 per cent.

HARRIMAN SURVEYORS WORK NEAR KLAMATH

(Special Dispatch to The Journal.) Klamath Falls, Or., Nov. 7.—Another party of Southern Pacific engineers arrived in Klamath Falls this week, and went on north to take up their location work on the Oregon Eastern. The party consisted of 18 men, and were locating Engineer D. D. Griffith's private party.

RAILROAD TO BUILD PLANT AT ROSEBURG

Roseburg, Or., Nov. 7.—The Southern Pacific company is contemplating installing its own electric light plant here in addition to its water system, which has just recently been put into operation. The principal reason for this move on the part of the railroad company is that it says it is being held up for light service. The company also announced and made a "stump speech" to a large crowd from the stairway leading to the bank entrance. She announced her intention of "cleaning out" the entire force of the bank.

GREEK KILLED IN ECHO DITCH

James White, a Workman, Buried for Eight Hours but Escapes.

(Special Dispatch to The Journal.) Pendleton, Or., Nov. 7.—Buried alive under several feet of earth for over eight hours and hearing his companion smother to death is the experience of James White, who, with George Panntopulos, a Greek, went to repair a leak in the ditch on the Umatilla project. The Greek was killed. Both men went

George Panntopulos.

fearlessly into the hole Sunday night to perform the work assigned them, but before they had time to turn around the earth caved in, burying them both. White tells how for hours he thought death would be a relief and how he heard his companion gasping for breath a few feet from him, as he fought death. He could not help him and the Greek died. White says: "I must have had air from somewhere by a very slight hole or I could not have lived, as I could not move my feet, head nor arms." White is at Echo and it is believed that he will live. He is a middle-aged single man, and has been in the employ of the government for some time. Fellow countrymen of George Panntopulos, the dead Greek, say that his name was in Trepolis, Greece, and that he left his country years ago after killing a man for coming between him and his wife. When he came here he changed his name, and has worked faithfully for years saving his money, and some of them claim that he had over \$2,000 saved up. Investigations are now being made as to where he deposited his money, and as to who his people really are. The government had him buried in the Echo cemetery.

STATE YIELDS TO FEDERAL FEE ACT

(Special Dispatch to The Journal.) Olympia, Wash., Nov. 7.—The supreme court has decided in favor of the United States government regulation governing the collection of fees for filing certificates of citizenship, as opposed to the state regulation on the same matter. The government charge for this service is \$2, but the last legislature enacted a law making the fee \$3 for the state of Washington. In a suit from Pierce county to test the matter the court holds that the federal regulation must control.

BABE KILLED BY ELECTRIC POWER

Two-Year-Old Child Electrocuted While Playing in Father's Station.

(United Press Leased Wire.) Los Angeles, Nov. 7.—Ten thousand volts of electricity instantly electrocuted Philip Chase, the 2-year-old son of Elmer Chase, operator at the Elison electric substation in Inglewood late Wednesday. Mrs. Chase is prostrated over the accident and is in a critical state. Chase took the little fellow to the substation with him in the afternoon and felt perfectly safe in permitting him to play about on the floor, as all the dangerous machinery is fenced off. Chase was called outside the building for a moment, and just as he started to return the great automatic cut-off switches that open in case of short circuit cut out with a roar. With a cry of fear he dashed into the building and found that Philip had crawled over the fence surrounding the main switch-board. There with his hands still holding onto the great copper sockets of the principal switch which controls a current of 10,000 volts his father found Philip dead. The circuit brought all the wheels of the great system to a stop for 15 minutes.

YOUTH PREFERS CELL TO AID FROM MOTHER

Prisoner in Seattle Jail Refuses to Appeal to His Wealthy Relatives.

(United Press Leased Wire.) Seattle, Wash., Nov. 7.—R. Howay, now a prisoner in the city jail, charged with forgery, is evading his mother, Mrs. J. T. Ford of Chicago, and is running away from wealth and luxury to enter a life of crime. Although the boy says he is only 18 years old, he looks much older. He is well educated, rather too well educated for a young man of his years, for he has traveled much and knows the ways of criminals as well as he does those of persons well up in the social whirl. Regarding himself Howay will say little. He declares he does not want the assistance of his relatives even now when they might help him to keep out of the penitentiary. Even to escape wearing stripes he will not communi-cate with his mother, who is a woman of wealth and who is only too glad to help him. What the trouble is that keeps him from his relatives he will not say. He would rather face years of imprisonment than ask a favor of those who love him, and whom he would naturally be supposed to love.

FIVE THOUSAND DIE ON RAILWAYS IN YEAR

(United Press Leased Wire.) Washington, Nov. 7.—Five thousand persons were killed and 76,286 injured in railroad accidents in the fiscal year ended June 30 last, according to figures published today by the interstate commerce commission. This is an increase of 776 in deaths over last year and an increase of 9,577 in the number injured.

ENGLISH STRIKE IS CALLED OFF

English Railroad Servants Reach Agreement With Eleven Companies.

(United Press Leased Wire.) London, Nov. 7.—The dispute between the railway companies and their employees has been settled and there will be no strike. Eleven of the leading companies and representatives of the Amalgamated Society of Railway Servants have signed an agreement drafted by Lloyd George, president of the board of trade, providing for the consideration of disputes by a board of concilia-

ATTENDANCE AT STATE NORMALS

Salem, Or., Nov. 7.—The first monthly report of the four state normal schools has been compiled by Secretary Starr and shows the following enrollment at each of the schools, the first number of each pair representing the normal department and the latter the training department: Ashland, 122 and 83; Drain, 70 and 144; Monmouth, 128 and 167; Weston, 154 and 111. Total, 469 and 540. Grand total, 919. The large enrollment at Drain is explained by the fact that the entire public school is used as a training department for the normal classes. Under the new law tuition is collected from each student, and the amounts remitted for the first semester are as follows: Ashland, \$594; Drain, \$294; Monmouth, \$744; Weston, \$324; total, \$2,556. Tuition uncollected first month, \$262.

OPERATORS WILL RETURN TO WORK

Official Notice of Ending of Telegraphers' Fight Will Be Sent Out Today.

Chicago, Nov. 6.—Official notice that the telegraphers' strike is ended will be sent out sometime today. All strikers are being told that they can return to work without disobeying union rules. The duration of the strike was 39 days and the total number of operators involved was 15,000, 1,000 deserted, 5,000 secured positions in other fields and 2,000 positions remain to be filled. The estimated loss in wages to the telegraphers was \$2,250,000 and the loss to the companies \$5,000,000.
