STRATHORD COMING TO LOAD LUMBER

Two Vessels, the Hutamet and Agnes Oswald, Will Be Here Soon With Coal Cargoes From Australia -Steamer Aker for Japan.

ince the Portland & Aslatic company s cramped for space on its regular ners, Mr. Dewson considers himself lucky in having secured an option on the Persia. She will be ready to leave Portland during the latter part of the month before the departure of the next regular liner, which cannot possibly get away before the first of December. The Persia was formatly the liner.

The Persia was formerly the liner Coptic, and piled between San Francisco and Hongkong for a number of years. When taken off the route to give room for the mammoth Korea, Siberla and others she was renamed the Persia. It is understood here that the intention of her owners is to place her on the China coast to operate in connection with the trans-Pacific liners.

OFFICER'S LONG WALK.

Lieutenant Castner Tramped Nearly 2,000 Miles.

From the Cincinnati Enquirer.

Francisco Francisco The feat of O'Leary in walking 1,000 miles in 1,000 hours has reminded the officers of the Fourth infantry of a Francisco feat accomplished by Capt Joseph C. Castner of that regiment, who beat O'Leary's record by about two miles a Francisco Francisco Francisco O Leary's record by about two miles a day in the wilds of Alaska. In other words, Capt. Castner, who was then a lieutenant of the Fourth infantry, walked a distance of 1.375 miles in fifty-two days, an average of twenty-six miles a day. The story of the hard-ships undergone by Lieut. Castner dur-ing an exploring expedition in the ware Francisco ... San Pedro ships undergone by Lieut. Castner dur-ing an exploring expedition in the years 1898-99 is one of thrilling and intense interest. On June 6, 1898, he joined an exploration expedition sent out by the government to find a pass through the Alaskan mountain range of which Mount McKinley, the highest peak in America, forms a part.

Mount McKinley, the highest peak in America, forms a part. Starting from the northwestern part of Alaska, Lieutenant Castner and two privates of the Fourteenth infantry started in a southeasterly direction across an unexplored country, finally arriving at the Yukon river near the mouth of the Tanana river on October 11, 1898, having traversed a distance of 2,000 miles.

MAY ABAN

(United Press Lessed Wire.) Honolulu, Nov. 9-R. P. Schwerin, eneral manager of the Pacific Mail, Steamship company, in a letter to the Honolulu Chamber of Commerce, hints strongly at the withdrawal of the Pacific Mail liners on the oriental run. The chamber had asked him for a definite statement of the intentions of his company as to providing Hawali with a better passenger service, suit-able for tourists. To this he held out no hopes whatever, hinting at a possible suspension of the service from San Francisco altogether. A part of his better save

s.eds to carry their baggage, but the dogs perished for lack of food shortly after crossing the mountain range. Once on the Yukon the two soldiers de-cided they had had enough of exploring and joined some troops a short distance away. Lieutenant Castner being of ad-venturous disposition, found a Canadian who would accompany him up the Yu-kon, so they started on their tramp on the ice to the mouth of the river. It was on this journey that a record of twenty-six miles a day was made. Upon his arrival at Skagway, on the twenty-six miles a day was made. Upon his arrival at Skagway, on the western coast, on February 24, 1899, Lieutenant Castner was informed that the government was organizing a re-lief expedition to search for him.

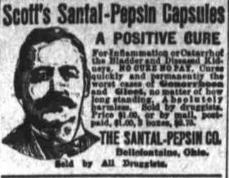

Sewing One Seam for 15 Years.

From the St. Louis Globe-Democrat. "The case with which people can beome habituated to any kind of unin-

teresting work, no matter how monotmous it is, may be seen every day in any shoe factory," says a gentleman connected with this St. Louis indus-

try. "In a shoe factory the division of la-bor is carried to the utmost possible bor is carried to the utmost possible In a snoe factory the division of la-bor is carried to the utmost possible extent. As a rule one operative per-forms one operation and no more. There is one woman in our employ who for fifteen years has sewed the seam which begins at the right of the system, runs to the top, then around and down on the other side. The machine works so rapidly that she actually smooth substants on the other side. The machine works so rapidly that she actually spends almost as much time in picking up and lay-ing down the shoe and adjusting it to the machine as is required to do the sewing, and this work she keeps up day after day during all the working hours. One might suppose the monotony of the task would wear on her health and spirits, but it does not seem to do any-thing of the kind. She is one of the most cheerful women in the factory."

CHICHESTER'S PILLS 25

The Truth **About Doctors**

"What do doctors know about the use of drugs?" I was asked the oth-er day. "Practically nothing at all," I replied. This extract from an editorial, which appeared in The Examiner some time ago, explains it in a few duct the force to the part duct the force to the part that is alling and quickly restores health. Electro-Vigor is a relief from the old system of drugging. It re-moves the cause of disease, and when that is done no pain or sick-

words: "Today very little is known of medicine and its use. The wisest doctor can do but little more than clear out the system or accelerate the action of the the more than the more clear out the system the action of the heart. When he has done both or all of these things he has reached the end. **Doctors can't** cure." rent.

.

. . . I used your Elec-tro-Vigor just six weeks and was cured of sciatica. From my experi-ence with this treatment I con-sider ft just the thing for any perence with treatment I con-sider it just the thing for any ner-vous derangement. C. M. WITT. Groveland, Cal.

Your treatment has cured me of kidney trouble; my strength is returning and my general health is im-proved wonderfully. ROBERT REED. Parlier, Cal.

Get It Free

Get my 100-page book describing Electro-Vigor and with illustrations showing how it is appled. This book tells in plain language many things you want to know, and gives a lot of good, wholesome ad-

it, just as a sponge absorbs water, and carry it to every organ and tis-sue of your body, where it gives en-ergy and strength to all weak parts. Your body is run by electricity. It's the lack of electricity that causes sickness and disease. When you have a full supply of electric energy you are healthy and strong. Electricity is the power nature uses to restore health; so can't you see that drugs won't give you this force? Human electricity comes from the food you eat. The digestive julces of the stomach burn the food and produce this power, which is forced through the nerves to run the hu-man machine. When you dope your stomach with drugs you decrease your sup-Vice for men. I'll send this book, prepaid, free, if you will inclose this coupon.

No Stimulants for Weakness | No Surgery for Varicocele

My success in permanently curing that condition commonly known as "weakness" fully demonstrates the absolute corectness of my method of treatment, which is a method employed by myself alone. I do not stimulate the functions to temporary activity by the use of strong internal tonics. This is the course commonly pursued by both general practitioners and specialists, and is a treatment that cannot possibly result in a permanent cure. "Weakness" is in a permanent cure. merely a symptom of chronic inflammation in the prostate gland brought on by excesses, early dissipation or by the improper treatment of some contracted disease. A complete and radical cure is, therefore, a question of restoring the prostate gland to its normal state, and this I accomplish promptly and completely with-out the use of internal remedies. My treatment is a local one entirely. It is original and scientific , and has been proven absolutely effective, by thousands of tests. I am convinced that by no other methods can full end permanent restoration of and permanent restoration of strength and vigor be accomplished.

are endangering their general health, their manly powers and even life it-self by allowing the disorder to re-main uncured. Varicocele results from partial paralysis of the delicate nerve fibers that have a part in con-trolling local circulation of the blood. The muscular coatings of the veins being deprived of nervous communi-cation and control become inneting being deprived of nervous communi-cation and control, become inactive, weaken and relax. The blood vessels expand from the pressure within, the circulation in the parts becomes sluggish, and frequently stagnant pools form in little nooks and pock-ets that constantly enlarge as the re-laxation continues. The possibility ets that constantly enlarge as the re-laxation continues. The possibility exists that clots may form in these stagnant pools and then pass out into the general circulation. Should one find lodgment in a valve of the heart, the result might be instant death, or should it be carried to the brain, general paralysis would fol-low.

I guarantee to cure varicocele in one week by a method that involves no cutting. No other physician em-ploys a like method, and so thorough is my work that there need not be the slightest fear of a relapse into the old
