

SCRIP FOR WHEAT CROPS PAID

Movement of Immense Cereal Tonnage Will Relieve Money Situation, Says Robert Balfour, Who Is Here From England.

Farmers Must Be Content With 60 or 90-Day Clearing House Paper—Cash Will Be Realized by End of That Time.

To finance the movement of the Pacific northwest wheat crop from the farm to the London granary without paying out any money in advance at this end of the line, is a problem that will engage the earnest thought of the Portland clearing house at a meeting tomorrow afternoon.

Without having the actual figures at hand for reference, I should say that 25,000,000 of the Pacific northwest wheat crop has been marketed.

It has been moving at a good rate, and is still moving. It is up to the banks to finance this grain movement.

It is expected that at tomorrow's meeting the clearing house banks will propose some plan of credit exchange for transmission for the exportation of the remainder of the crop.

Mr. Balfour's position on the question was not very definite and he evidently had not made up his mind as to what should be done to meet the present emergency.

He was certain that a quantity of cash is in existence but is being withheld from circulation, and that considerable time will be required to bring back normal conditions in the money market.

The eminent wheat dealer is a member of the British parliament, and takes an active interest in public affairs in England and America.

Washington Report of Great Northern (Special Dispatch to The Journal.) Olympia, Wash., Nov. 16.—The report of the Great Northern Railway company to the railroad commission of Washington for the year ending June 30, 1907, shows a net earnings of \$12,525,849.92, and a percentage of expenses to earnings for the entire line of 58.85.

It controls 47,39 miles of line in Washington, but only 1,255 miles of line in the state. The company reports a total mileage, controlled, of 4,252.99, all owned by other corporations. It is capitalized at \$210,000,000, with total outstanding stock valued at \$149,577,300.

Timothy L. Woodruff, former lieutenant-governor of New York, attributes the recent Republican victory in Brooklyn to President Roosevelt's strength there and sees in the result further evidence that the president will be obliged to accept a re-nomination.

The Popular Jewelry Store In the little shop these days jewelry lovers and Christmas shoppers, on account of the financial stringency, are all intent on the one thing—the biggest value for the least amount of money.

North Bank Tracklaying Outfit Evokes Great Rejoicing as It Makes Echoes in Hills Opposite—Nearing Last Link Now.

(Special Dispatch to The Journal.) Hood River, Nov. 16.—The first train run on the North Bank railroad arrived opposite Hood River yesterday, and spectators from the surrounding country for many miles were on hand to welcome it.

For the present tracklaying will be suspended from this end of the line owing to the fact that a crossing must be provided over the White Salmon river. This is expected to be in place by December 1.

Not alone do the banks need money, but we, too, are pressed for ready cash. Through circumstances that we nor any one else could foretell, we are absolutely forced to sacrifice our immense stock of Ladies' Ready-to-Wear Apparel to raise money to satisfy eastern creditors, consequently we inaugurate Monday a monster

IT'S AN ILL WIND, ETC.

MONEY SAVING AND MONEY RAISING SALE

A sale that should commend the attention of every woman in need of Fall and Winter Wearing Apparel. The prices quoted in our windows should be sufficient to crowd this store as it never was crowded before. It's a desperate situation that confronts us—we are bound to and must raise money. See what J. M. A. says while en route to New York:

SAYS M'KINLEY WAS ALL RIGHT

B. F. Swope Resents Post-mortem Attack on Martyred President.

Toledo, Or., Nov. 15.—To the Editor of The Journal—In the issue of the daily Oregonian of November 6, 1907, there appeared on its editorial page an article entitled "A Short Review."

It is not also strange that he should be nominated and elected president of the United States and be again nominated without opposition in a great Republican convention as the Republican candidate for president and elected by an overwhelming majority.

Again we look back to his boyhood days, for he was scarcely more than a lad when he enlisted as a soldier in his country's service at the hour of the darkest period in its history.

The editor of the Oregonian may have reluctantly voted for McKinley, but there were millions of Republican voters who gladly voted for him for president and preferred him to any other man in the nation.

Reviving an Ancient Game. From the Medical Press. One of the recent revivals is the ancient game of bowls, which now bids fair to take once again a leading place among the sports of Merrie England.

DO YOU KNOW That 50 per cent of disease is caused by abnormal action of the kidneys? Chiropractic adjustments make them act normal.

In this matter and not allow its blind hatred of McKinley to cloud its vision it will find that wherever such crimes or frauds were discovered during his administration the judicial machinery of the political government was promptly set in motion and successful prosecutions followed.

It was the wonderful prosperity of the country which made it possible for railroads and other corporations or trusts to enter upon their career of rapacity and unlawful combinations which have characterized their actions during the last 75 years.

It is not a little strange that McKinley, being the weak and impotent creature the Oregonian pictures him, should have been nominated and elected governor of the state of Ohio and after serving his first term, be again nominated by acclamation and elected to a second term by a greatly increased majority.

Again we look back to his boyhood days, for he was scarcely more than a lad when he enlisted as a soldier in his country's service at the hour of the darkest period in its history.

The editor of the Oregonian may have reluctantly voted for McKinley, but there were millions of Republican voters who gladly voted for him for president and preferred him to any other man in the nation.

LAST STEAMER FROM FAR NORTH

Corwin Arrives From Nome With News of Mikkelsen Expedition.

(Special Dispatch to The Journal.) Seattle, Wash., Nov. 16.—The steamship Corwin from Nome, reached Seattle this morning, six days overdue, after encountering two of the worst storms Captain E. L. West has experienced in 40 years on the Pacific.

The Corwin is the last boat from Nome. She left Nome October 18. One of the passengers said: "We encountered the first storm October 23 in Bering sea and Captain West assured us that it was the worst he had experienced in 40 years."

The editor of the Oregonian may have reluctantly voted for McKinley, but there were millions of Republican voters who gladly voted for him for president and preferred him to any other man in the nation.

KAISER KNOWS POWER OF PRESS

German Emperor Cordial to Newspapermen Assembled at English Capital.

London, Nov. 16.—Emperor William, who came to London today from Windsor castle, to receive numerous deputations at the German embassy, was specially cordial to the newspapermen who presented him with an address. He said: "The power you wield is great and is most beneficial when exerted in directing feeling of friendship among the nations."

It is not a little strange that McKinley, being the weak and impotent creature the Oregonian pictures him, should have been nominated and elected governor of the state of Ohio and after serving his first term, be again nominated by acclamation and elected to a second term by a greatly increased majority.
