(Special Dispatch to The Journal.)
New York, Nov. 20.—"Dakota Bob," who fought Indians under General Miles and who for the past 12 years has been a professional pedestrian, was landed in New York after having walked 3,485 miles from Portland, Oregon, on a wager of \$3,000. Bob was 16 days ahead of his schedule, it having been stipulated that he should reach New York on Thanksgiving day.

FRANKIE NEIL OPENS FAVORITE OVER OWEN

Englishman Is Not Known Well Enough In California to Merit Odds.

(United Press Leased Wire.)
San Francisco, Nov. 20.—Lack of backing for Moran caused Neil to become an 8 to 10 favorite last night, and in the opinion of many of the followers of the game the price will be even longer, possibly 7 to 10, before the men enter the ring Friday night at Brown's and pavilion. The records of the two men do not differ enough to cause this price on the level box, but a number of conditions enter into the fixing of the odds when it comes to betting.

OREGON WORKING UP TO MULTNOMAH GAME

Hard Scrimmage Work Has Begun—Second Team Trains for O. A. C.

(Special Dispatch to The Journal.)
University of Oregon, Eugene, Nov. 20.—Hard practice to get the Oregon eleven in shape for the Multnomah game began last night. While several men were bruised in the game with Washington at Seattle last Saturday, none received any serious injuries. Last night both the first and second team were given their first treat of the season, Coach Frost consenting to their attendance at the musical comedy, "The Royal Chef," which played at the Eugene theatre.

Woods Out of the Game.

"Billy" Woods, who had his leg hurt again in the splendid game at Multnomah Saturday, will not be able to play against the second O. A. C. team next Saturday. "Sharkie" Huston will take his place. Huston has been substituted in the varsity, but has not had a chance to win his "O," as Kuykendall has been out this year. Therefore, he is eligible for the second team.

The other members of the second team are in splendid shape. Dr. Chase is putting them through hard practice every day.

OHIO MILITIA MAJOR CHALLENGES PATENT

Claims Target Invention of Lieutenant Houck an Infringement.

(Special Dispatch to The Journal.)
Roseburg, Or., Nov. 20.—Adjutant-General W. E. Finzer of the Oregon National Guard was in Roseburg, Monday, holding a conference with Dr. George E. Houck, lieutenant of the Roseburg company, who has a patent on an inside target.

Dr. Houck has figured out a target that can be used for practice indoors during bad weather. The target that Dr. Houck has patented is being contested by Major Winder of the Ohio militia. These targets are of the exact shape of the field targets, but the size has been so reduced that they represent feet instead of yards distant. A target, for instance, that is to be used at 200 yards can be reduced in size so that it can be placed at 200 feet and have the same effect in target practice as the field target.

It has taken no little study and practice to reduce these targets and get them exact, so that all field targets can be brought to within range of 200 or 300 feet, and still not destroy the effect. This, however, has been accomplished by Dr. Houck and he has had them in use here for some time. Just what point the patent contest of Major Winder refers to is not known here.

The adjutant-general will make an investigation of the patent and report his finding later.

PROPERTY OWNERS TO VOUCH FOR SALOONS

(United Press Leased Wire.)
Chicago, Nov. 20.—A sweeping decision by the Illinois supreme court that owners of property rented for saloon purposes are liable for damages in cases of the illegal sale of liquor by their tenants was made public yesterday.

ILLINOIS SUPREME COURT DECIDES RESPONSIBILITY IS WITH LANDLORDS.

It proved a surprise to the organizations of citizens and clergymen that have been fighting the liquor traffic in Illinois. It was an equally great surprise to the officials and representatives of the liquor interests. The anti-liquor forces held educational and at once laid plans for a new and extensive campaign in which both property-owners and liquor dealers are to be made the targets.

WATCH YOUR TONGUE

If Furred and Coated, it is a Warning of Trouble to Come.

When it is the morning after the night before, you do not have to look at your tongue to know that the stomach is upset, the head is aching with a dull throb, and that all the world looks black and dreary. It may have been lobster Newburgh, Welsh rabbit or some other tasty dish that looked much better at night than the morning after. There is no need to look at the tongue thermometer then for symptoms of trouble. You naturally go to your box of M-I-O-N-A stomach tablets and with one of the little relievers bring joy and gladness to the physical system.

The real time to watch the tongue is at the time if it is coated with a white fur, or possibly with dark trimmings, even though the stomach does not tell you by the acute pains of indigestion that it needs help, yet the coating shows that you are getting into a bad way and that there is need of aid.

Used at the first symptom of a coated tongue, distress after eating, headaches, and lifeless feeling, flatulence, or any other of the early symptoms of indigestion, M-I-O-N-A will strengthen the stomach muscles so that they will take care of all the food that is eaten without the slightest pain or discomfort. It will increase the flow of gastric juice, tend to the liquefaction of the nourishment and strength and expelling the waste from the system without further aid.

Then I commenced taking them again and Wednesday, April 4th, I passed another tape-worm 28 ft. long and over a thousand small worms. Previous to my taking Cascarets I didn't know I had a tape-worm. Always had a small appetite."
