

HEAVY PIANO SELLING CONTINUES AT ELLERS

BIG REDUCTIONS THROUGHOUT ENTIRE STOCK KEEPS BUYERS AT FEVER HEAT—SECURE YOUR CHRISTMAS PIANO AT GREAT SAVING.

Concessions for Ready Cash Many Times Greater Than Ordinary Interest—Makes of World-Wide Popularity Now Purchasable Far Under Usual Cost—Special Talking Machine Offer This Week, Too—Time of Special Sale Is Growing Short, So Do Not Delay.

Piano buyers in large numbers continue to take advantage of the radical reductions established by Ellers Piano House, and as the special sale draws toward an end there is a general impulse to profit by the opportunity before it is withdrawn.

The financial flurry is rapidly being displaced by absolute confidence in the future, and as rapidly as possible the difficulties of the situation are being overcome, and matters are fast assuming a more normal condition.

Now that immense sums of gold and currency are traveling westward to relieve the stringency in Oregon and the Pacific coast, the situation is practically cleared in this part of the country. But with this great movement of money westward, there will remain the need of ready money in large amounts by eastern manufacturers at this particular time, and a substantial premium continues to be offered for them for cash. All unmarketed bills which are paid them now are subject to large extra discounts. These discounts are the basis upon which the present special sale is being held at Ellers Piano House. Every piano seeker who is prepared to make a substantial cash payment now will secure an unusual bargain. Hardly without exception, the entire stock of new instruments is included in this great special offering. Makes of world-wide fame, pianos which are popular throughout all the world—instruments of established reputation and standard

value—are now purchasable at a price far below regular figures.

NOTE THE PRICES.
Here, for instance, is one of the \$350 styles—a make that will at once command your attention, by reason of its reliability and high quality—that goes now for \$225. Another make, equally desirable, regular \$475 style, goes now on the special cash basis for \$319. The more expensive styles are reduced in an equally decisive manner, \$575 instruments now being marked at \$395. These few figures are but a hint of the opportunities for saving that are possible now. The same proportionate discounts prevail right through the stock. If you are not prepared to pay all cash, the discount will be applied to the first portion of the first payment as you can make on this basis, and the usual convenient terms will be arranged to suit on the balance.

The famous Ellers guarantee covers every sale—money back if you're not satisfied. This guarantee makes certain that every purchaser is pleased, and bound to be at all times.

BUY NOW FOR CHRISTMAS.
This is an opportune event for those who have contemplated the purchase of a piano for Christmas. The saving in price now will cover the cost of all your other holiday gifts—doubtless for several years to come, allowing for a

pretty liberal remembering of all your friends at that time.

For those who enjoy the splendid entertainment afforded by a Talking Machine, a special sale at this time also offers exceptional inducements. We are offering this week regular \$25 Talking Machines at \$12.50, and regular \$30 ones for \$15. Come in and hear them, and we think you'll be anxious to secure one of them at the special reductions. Do not forget that our new Talking Machine parlors are the finest and most attractive on the coast. Record choosing is a delight here, for each parlor is entirely separate, sound-proof and as cozy as your own home is.

A number of used pianos are offered at this time at exceptionally low prices. These are instruments traded in toward new Pianos. Pianos, Chickering, and Weber, Granda, popular Kimball, and other makes in our line of Highest Quality. These exchange instruments may be secured either for very low cash prices or on liberal terms, to suit.

A more advantageous time for piano buying could hardly be expected. Drop in within the next few days, while the great discounts are in force, and see how much farther your money will go now than under ordinary conditions. And see also what a big difference there is between prices here and elsewhere. Ellers Piano House, the House of Highest Quality, 353 Washington street, corner of Park.

SALEM LINE COMPLETED

Last Spike Driven Last Night on Oregon Electric Railway—Trains Will Be Operated Out of Portland by January 1.

Three scattering cheers rang out and several old hats went sailing into the air last evening from a party of men at work on track laying for the Oregon Electric Railway company near Tigardville. They had just driven the last spike in the construction of the main line connecting Portland and Salem, Oregon's capital city. This somewhat nervous but genuine outburst of track-laying joy was the only ceremony attending the hammering of the last spike home.

The builders, W. S. Barstow & Co., are but four days behind their estimated date for completion of the track laying. For months they have been looking forward to November 15 as the day of driving the last spike in the main line.

Owing to the necessity for making a few changes in the grades and hence more earthwork than first estimated, they were unable to complete it until the evening of November 19.

The track will be surfaced and ballasted and will then be ready for the operation of trains. The regular schedule will probably not begin before January 1.

Completion of the best electric railroad in Oregon has been hailed with pleasure by the people of the Willamette valley, who foresee the construction, before many years, of a system of electric roads that will connect all the principal towns in the valley from Portland to Corvallis.

The Oregon Electric has ordered a full complement of the most modern equipment. Its electric locomotives are powerful engines, and its passenger cars have all the conveniences of the latest railway coaches.

It is expected that when the main line is completely ballasted and a regular schedule for passenger trains adopted, the time between Portland and Salem will be very fast.

Early next spring the company will begin construction of a branch line to Hillsboro, and this will be followed by construction of other branches in the valley.

It is expected the next large undertaking of electric railroad builders on this coast will be the construction of a fast passenger line between Portland, Tacoma and Seattle. The Tacoma-Seattle end of this route already has one line running, and another is about to be built. T. Coleman Dupont of Wilmington, Delaware, is president, and A. C. Lewis of New York is representative of eastern capitalists who are backing the Tacoma-Seattle Short Line, an electric railway company just incorporated with a capital of \$5,000,000, to build an electric railroad between Tacoma and Seattle on a route that will be six miles shorter than the present line operated by the Stone & Webster syndicate.

Most of the right of way has been secured, and it is expected to have the line completed next year. It is not likely that electric railroad men will much

CHILDREN LOST! WHERE DID WE FIND THEM?

The neighborhood was aroused yesterday by the report "Little girl and boy lost." There was great excitement and every available mama was called upon to help in the search for the missing youngsters. Even the faithful Towsees were pressed into service and made to put their keen noses to the ground to scent the children.

No one thought to look behind the greenery. The big lawn stretched out to the edge of the hill and there the pretty green-house stood, but few ever went there—only the gardener. One particularly smart Towsee (probably Ambitious Teddy's bow-wow) gave a sharp bark of delight. He had located the youngsters.

It was all over in a few moments and the mammas were all happy.

Little Jimmy and Tiny Lily were there, and what do you suppose was the cause of their absence? Why, just sat down behind the greenery for a moment, but stayed there three hours reading the funny pages and children's section of The Oregon Sunday Journal.

TALKS ON COOKING.

Demonstrations Daily at the Honeyman Hardware Co. From 2 to 5.

Demonstrations in cooking will be a Thanksgiving feature with the Honeyman Hardware company. While a Gardener's range will be used, the aim of the company is to demonstrate the superior merits of a number of lines of cooking utensils. During the afternoon Miss Lillian Tugue, the well known authority on cooking, will give a free lecture on the preparation of different dishes and she has promised to give special attention to the cooking of the bird.

This free Thanksgiving course of lectures on cooking will doubtless be much appreciated by housewives as well as by even the expert chefs of the city. The demonstrations will be conducted from 2 to 5 p. m. for the next 10 days.

GOVERNOR TALKS ON MONEY TROUBLES

At the regular monthly meeting of the Ohio society last night in Alinsky hall Governor Chamberlain delivered an address, dealing largely with the present financial stress and the causes thereof. In part, the governor said:

It was the announcement by the large eastern banks that money would not be shipped west that caused the trouble here and elsewhere in the north-west and brought about the holiday proclamations. The Portland banks all had plenty of money, their securities were in good shape and business was running along smoothly; but if the banks of this city could not get money from the east which they had on deposit there, of course they could not stand a run, which might be precipitated at any time. The holidays were declared not only to protect the banks' depositors, but the men who owe the banks. It was a condition bordering on bankruptcy that confronted the Portland banks, and to protect all interests the holidays were necessary.

The present condition is an abnormal one. It can't long continue. So long as conditions remain as they are until relief comes, which, I confidently believe, will not be long.

UNCLE SAM WANTS CIVIL SERVICE MEN

The United States Civil Service commission announces examinations to secure eligibles from which to fill vacancies in positions as follows: Assistant superintendent of construction, quartermaster's department at Brgs, salary \$900, for service at Fort Sam Houston, Texas, examination to be held December 11; shipping commissioner, bureau of navigation, department of commerce and labor, salary from \$1,000 upward, December 11; matron, Indian service, salary \$400 to \$500, December 11; topographical draftsman, in the Panama canal service, salary \$125 to \$175 a month, December 11-12; deputy shipping commissioner, bureau of navigation, department of commerce and labor, salary from \$800 upward, December 12. For additional information apply to Z. A. Leigh, postoffice.

DOG SAUSAGE ROUSES FIRE OF DR. COTTEL

Facetious Councilmen Make Sport of Medico's Request for a Salary Increase.

Having added in settling the crematory site without losing any of his constituents in the Fifth ward, Councilman Cattel is now confronted with the more vexing problem of securing a raise in salary for the dogcatchers, who want their pay checks boosted from \$69 a month to \$85.

Dr. Cattel says the problem is even more complex than one would suppose, because of the friendly attitude of his associates in the council who regard the proposed increase as a joke. Councilman Vaughn, is said to have told the medical member of the council to sell the dogs to the sausage factories and take the increase from the sales thereof. Mr. Vaughn is also reported to have said that he had heard a number of complaints from citizens regarding the quality of sausage to be purchased at the local markets.

Dr. Cattel, however, was very serious over the matter yesterday and did not take the views of his colleagues as lightly as they were offered. He said if the dogcatchers are entitled to more money he wants them to have it, but stated that it will be a difficult task to convince the council of the necessity of making the raises.

REPUBLICANS TO SMOKE PEACE PIPE

The third monthly smoker of the Union Republican club will be held in the Hirsch hall Tuesday evening, November 26, at 8 o'clock. A list of good smokers has been secured and special music is being prepared for the meeting. The club is attempting to coquet together all the scattered fragments of the Republican cause, preparatory to the battle of the June election, and has inaugurated the system of monthly smokers as a means to this end.

Drunkards Cured Secretly

Any Lady Can Do It at Home—Costs Nothing to Try.

A MODERN MIRACLE.
A new, tasteless and odorless discovery which can be given secretly by any lady in tea, coffee or food. Heartily endorsed by temperance workers. It does its work so silently and surely that while the drinker is in the morning, daughter looks on the drunkard is reclaimed even against his will and without his knowledge. Many have been cured in a single day.
