## 15 NEW CARS FOR SUBURB

"Pneumonia" Coaches on Mount Scott Division Will Be Replaced — Company Hurrying Work on Consignment of Rolling Stock

"Two and perhaps three new closed cars will be available for the Mount Scott service this evening and by December 18 we expect to have 15 newly equipped closed cars on that line," said General Manager Fuller this morning when asked when the open cars would be discontinued. "We are not running open cars on that line from choice; it is because we have to, and I think we have done everything that any one would do under the circumstances."

The Mount Scott district has grown very fast within the last few years. It realized it and placed an order for 15 new cars for that line as long ago as December 15 last year. On account of the great rush of work in the factories at St. Paul they have been unable to get out our cars as the contract provided. We even sent a man to St. Paul, F. H. Badley, to hurry the work along and assist in the wiring and other work that the factories would have had to do themselves. All this was done at our expense, so that we could get these cars for the early fall service.

"Altogether we ordered 90 cars. They came at different times, but all arrived during November. We have an extra gang of 12 or 15 men in the shops wiring and putting in airbrakes so that the cars can be used. We are doing everything possible for our Mount Scott patrons and if we had not put on the open cars in the emergency we would have been unable to handle the traffic during the evening hours."

Much feeling against the street railway company has arisen in the Mount Scott district because of the continued use of open cars on that division, especially during the evening. Patrons call them "pneumonia" cars. The people of the entire district will be greatly relieved when they learn that the cars are to be replaced within the next two weeks.

The new cars will begin going into service tonight, according to Mr. Fuller. By December 18, barring accidents or delays from any other cause, all the open coaches will be replaced.

In jail since October 22 because unable to give \$75 bail, L. C. Munson seems destined to stay there for an indefinite time to come, or until the holidays are lifted. He is held on a nonsupport charge, and the bail was fixed at a low point to enable him to meet it, as it was certain that he could earn nothing for the support of his family so long as he remained in jail, but he has been unable to secure anyone to go on his bond. There are four prisoners at the jail on misdemeanor charges in state cases, and concerning these there are possible complications when the ending of the holidays bring their cases up for trial. They are being held without trial because the district attorney's office does not want to take the risk of trying them on a legal holiday.

In city misdemeanor cases Judge Cameron passes judgment and sends offenders to the rockpile, but the district attorney is unwilling to follow his example. If one of this quartet should receive a year's sentence when he is finally tried he would have spent many weeks in jail in addition, despite the provision of law that men accused of crime are entitled to a speedy trial.

Christ Shuman and C. R. Yerkes have been in jail the longest of any of the prisoners held in this way. Their incarceration dates from November 7.

## Largest Coal Dealers.

Probably the largest dealers of coal in the city is the Independent Coal & Ice company, importers, jobbers and retailers. This company does a large business all over Oregon and imports its foreign coals direct from England and Australia. At their bunkers at the foot of Quimby street the British bark Port Patrick is discharging a big cargo of coal and 3,000 tons is due on the French ship Burdon, which will be partially discharged at their dock at the foot of East Yamhill. They not only handle foreign coals but are also exclusive agents for the celebrated Rock Springs coal, the most popular American coal on the market. In addition to this the company operates at the foot of Pettygrove street the largest coal storage plant in the northwest. O. M. Rankin is the vice-president and general manager of the company, the office of which is at 353 Stark street.

## OH, SPLUDGE! SUCH A DIZZY DIZZINESS

He was a married man. He stood in Sixth street—in front of a saloon—just as his wife went by. "I saw you today," said the wife that night. "I was talking to a friend," was the answer. "Yes—the wife—but you had just come out of that saloon; that's what I was talking about." "You're wrong, wifey dear. You're wrong—the old man—I hadn't just come out of that place." "No—the wife." "No—the husband—I was just going in." And then the wife felt better.

## Boon for Portland.

Portland will be the terminus of the first practical commercial airship in the world. The National Airship company has purchased 20 acres of land on the Montavilla carline at an expense of \$24,000 and has purchased on the Montavilla carline 80 acres of land at an expense of \$56,000 and will commence building operations in the spring, on landings, docks, freight sheds, etc. Alexander Otis, an ex-contractor of Portland, is the superintendent of construction and his office is located at rooms 10, 11, 12 and 13 Mallory building, 288 Stark street. Attention is called to advertisement in another portion of today's paper.

## MAYOR OF GLACE BAY IS UNDER ARREST

(United Press leased wire). Sydney, N. S. W., Dec. 5.—Mayor Burchell of Glace Bay has been arrested on the charge of embezzlement of \$3,000 from the Dominion Coal company. He was released on \$50,000 bonds.
