

# WILL STOP ROLLERISM

## Tacoma Aroused at Uncivilized Sect Which "Drags Name Religion in Mud"—Larsen Case Excites Indignation.

(Special Dispatch to The Journal.)  
Tacoma, Dec. 10.—Good people here who object to having religion dragged in the mud are making ready for war on the Holy Rollers. The developments yesterday in the case of Mrs. Larsen, mother of 19 children, who has been driven hopelessly insane and her brood of pinched-faced little ones left to suffer paternal neglect while the misguided mother followed the disquieting Holy Rollers, has excited the greatest indignation here.

As the details of the case of the unfortunate woman are brought to light the authorities are appalled at the work of the sect. The husband of the woman has told his story of the infatuation of the rollers in court. She has been committed to the insane asylum and this morning was accompanied there by her husband and a deputy sheriff.

**Brought Into Court.**  
Mrs. Larsen was brought into court physically exhausted, her mind apparently a blank, and so hoarse she could scarcely speak. She smiled vacantly when questioned and appeared to have no realization of the situation until told she was to be taken to a hospital for a few days. She declared she would not go, but must return home to her children.

As she was being returned to the county jail, Mrs. Larsen suffered another attack of the peculiar malady. She seemed to lose control of her body and would have fallen had she not been sustained by her husband. She was removed to the asylum this afternoon.

Yesterday, after several hours shouting and praying, Mrs. Larsen completely lost her voice. She continued the peculiar movements effected by the Holy Rollers, however, and at midnight, overcome by the physical strain and nervousness, her husband sent after the police.

Mrs. Larsen lately recovered from a serious illness, following the birth of a child now two months old. Since the child was born, Mrs. Larsen has attended a number of the Holy Roller meetings at Eleventh and O streets in company with her husband.

The first circumstances indicating that Mrs. Larsen was affected occurred Wednesday about midnight, when she roused the family and insisted that they spend the remainder of the night in prayer, as the end of the world was near. The family tried to quiet her, but their efforts had little effect.

**Little Children Frightened.**  
The nervous strain so affected one of the older children that she exhibited symptoms of the mother's mania and the infant, which the mother had nursed, seemed to be similarly affected. Yesterday Larsen says, he felt the strange influence coming over him and he then determined to have his wife removed from the house.

"I didn't think any harm would come from attending the Holy Roller meetings," Larsen said. "I went to the meetings several times and, aside from some of the people making peculiar noises with their bodies and uttering strange sounds, the meetings were conducted like other religious meetings. I never dreamed that anything would happen until my wife went crazy. I never want to go to another meeting and if a Holy Roller ever comes into my house I will kick him out."

**Ackerman at Clatskanie.**  
(Special Dispatch to The Journal.)  
Salem, Or., Dec. 10.—State Superintendent of Public Instruction J. H. Ackerman is holding the annual county institute at Clatskanie, Columbia county. Mr. and Mrs. Ackerman will start Thursday for Angeles, where Mr. Ackerman will deliver an address before the Southern California Teachers' association.

# LIVELY ELECTION HELD IN BOSTON

## Three Factions in Field Today—Alleged Graft in Administration.

(Special Dispatch to The Journal.)  
Boston, Dec. 10.—Conservative old Boston is throwing aside all political conventionalities today and two factions of her citizens are facing each other at the polls in a hotly-contested municipal election as has never taken place here. Like the recent battle against graft at San Francisco, Boston's fight of today involves principals in civic existence that mean much to a locality that would keep clear of the insistent forces of corruption. Graft in the Hub will live, it is alleged or will take cover when the votes are counted.

The Democratic nominee is John F. Fitzgerald, against whom has been directed the most piercing shafts of the opposition to the city government. He has not only maintained an extravagant administration and under him—he is just finishing a first term—the various departments of the city government have rapped heavily at the treasury doors and have not always been refused admittance. The police department has grown careless, the gambler and the lawbreaker and only the humble and honest citizen has to take care of himself.

The Republican nominee and John A. Coulthart has grown a showman and a league. Coulthart has received the strongest sort of backing from the Boston American, the Hearst paper, and has not to give the city government the people. He is backed by a large part of the business element and has a powerful organization behind him. He will cut into the Democratic votes and Coulthart will also trim the usually heavy Democratic vote. This may turn the office of mayor, councilman, school committee and several minor officials are to be elected.

# U. OF W. REVIVES OLD ENGLISH STAGE

(Special Dispatch to The Journal.)  
Seattle, Dec. 10.—The old English style of staging the drama will be revived this month at the University of Washington by the Sophomore students of Shakespeare under the direction of Dr. F. M. Padelford. "Twelfth Night" will be the first play to be staged. Following the old custom, no scenery or stage settings will be used. All changes of scenes and acts will be indicated by the actors hanging on the stage. The women's gymnasium will be altered to represent the Hall of the Middle Ages when "Twelfth Night" was first staged. The cast of "Twelfth Night" is mixed, but in "As You Like It," women students will assume both male and female characters.

"The Knight of the Burning Pestle," an old English drama, will be given by the members of the senior class in February. This will be the first time that play has ever been produced on the Pacific coast, and will be given with the old Elizabethan staging.

# STRINGENCY FADES AT WALLA WALLA

(Special Dispatch to The Journal.)  
Walla Walla, Wash., Dec. 10.—Grain dealers estimate that fully \$200,000 has been paid to Walla Walla county farmers the past 10 days for wheat bought earlier in the season but which the dealers could not realize on owing to the financial stringency. The paying out of so much money is rapidly relieving the money situation in Walla Walla and the stringency is fast becoming a memory. Merchants report better business and collections are coming in faster than for a month past.

# Alexander in Street Gang.

(Special Dispatch to The Journal.)  
Roseburg, Or., Dec. 10.—Dave Alexander, past 60 years of age and a former resident of Brockway, who a few days ago was released from the Multnomah county jail after completing a term of six months for selling liquor to Indians at Klamath Falls, came to Roseburg and got boisterously drunk and is now working on the streets in lieu of his fine, which was \$10.

# BEST COUGH CURE MIX IT YOURSELF

Go to your druggist and get one half ounce Concentrated oil of pine, two ounces of glycerine; half a pint of good, pure whiskey; mix it up, glycerine and oil first, then add the whiskey. Use in doses of a teaspoon to a table-spoonful every four hours, shaking the bottle well each time.

The Concentrated oil of pine comes put up for medical use in half-ounce bottles, each enclosed in a tin screw-top box, which protects it from heat and light. If you do not find it sealed you know that you are not getting the real article.

There are also several patent medicines put up to resemble the Concentrated oil of pine and called by similar names. This stuff should be avoided. The concentrated oil of pine is the only truly soluble pine preparation known to science. It also makes a wonderfully effective liniment by putting a teaspoonful of the raw oil into a saucerful of hot lard, applying hot, and also making a mixture of cold in the chest or sprains and bruises.

# \$2,500 TO BUILD FIRST LIBRARY

## Temporary Building to Be Erected on East Side Site.

At a meeting last night in the clubrooms of the East Side club, Barge hotel, it was decided to begin at once to raise \$2,500 for the erection of a temporary building on the property donated at East Eleventh and East Alder streets for library purposes. The committee in charge of the campaign was much encouraged to receive the voluntary subscription of \$100 from Dr. T. L. Elliot before the meeting last night adjourned.

Dr. Elliot on invitation addressed the meeting. He said that the intention of the Portland Library association to extend the library to all parts of the city and extend to the east side that perhaps the main building on the west side would be the smallest in the city. Steps had been taken, he said, to establish branches in different suburbs and all that is required by the association is some encouragement from those who live in the districts benefited by the branch.

There are 11 districts to be canvassed by the committee and subcommittee for the east side main branch library. The work will be done today. Chairman O. M. Scott earnestly asked every citizen to do something for this worthy object that will be a source of pleasure and profit to every class. Mr. Scott explained why it was necessary to forego the permanent structure at this time and said a neat building of 45 feet could be built and finished for \$2,500 that would be adequate for a number of years.

Cut glass at Metzger's, 343 Wash.

# HEADQUARTERS OF ROCK ISLAND

## Portland Chosen as Natural Center of Distribution and Tonnage Origin.

Portland will on January 1 become northwest headquarters for the Chicago, Rock Island & Pacific railway, from Salt Lake and Butte to the coast. The company's offices at Seattle, Butte and Spokane will be closed, and the proposed office at Tacoma will be abandoned. Portland is looked upon as the center of distribution and tonnage origin, and the logical metropolis of the Pacific northwest, including all the country tributary to the Columbia, Snake and Willamette rivers.

# EAST SIDE ANXIOUS TO BUILD BRIDGES

At a meeting of the United East Side clubs tonight the executive board will be urged to expedite the construction of both the Union avenue and East Twenty-eighth street bridges across Sullivan's gulch by letting the contracts at once. The bids for the East Twenty-eighth street bridge were opened last week, but residents of Albina do not wish to see that bridge built first, nor do the East Twenty-eighth street people wish to wait until after the Union avenue bridge is built. The latter says they can both be built at once, and it is likely such action will be taken.

# BAKER PLAYERS POKE FUN AT FRISCO TROUPE

Hilarity was the order of the night at the Baker last evening, when the entire San Francisco opera company was the guest of the Baker management and saw William Gleason, Maribelle Seymour and the others of the stock company present "Sag Harbor." It was an opportunity to take a few shots at their contemporaries that the Baker actors couldn't miss, and the audience was kept in a roar through a good portion of the evening with the sallies of Mr. Gleason and the others at the expense of Manager Healy, Miss Hemmi, Kunkel and the other San Franciscans.

# Gannery for Monroe.

(Special Dispatch to The Journal.)  
Monroe, Or., Dec. 10.—A cannery is to be erected in Monroe soon. Eastern men have invested local capital, and \$4,500 has been subscribed. A. Wilhelm & Sons took \$500 worth of stock as did also Herron Bros. Others have put in from \$100 to \$300, and the plans are already being prepared for the building. Should this prove to be a successful undertaking, Monroe would undoubtedly become the most important point between Corvallis and Eugene on the new railway. Monroe now has a large elevator and flouring mill, a creamery, the largest country store in the state, two churches, a graded school, two hotels, a very stable and other business houses, usually found in a place of its size, and is distinctly on the map. "Be a Booster" is the motto of its citizens.

# A DIFFERENT KIND OF CREDIT STORE!

# The Big East Side Store's

# Formal Grand Opening Thursday Even'g, Dec. 12

Open a credit account with us, buy what you want, have it delivered at once and arrange with us to pay for it gradually, to suit your convenience, on our partial payment plan. # Food VS. Cosmetics

Every drop of red blood coursing through one's arteries carries to the skin health or disease, dependent largely upon the character of the food taken into the system. Eat greasy, uncooked, heavy foods and the complexion soon tells the tale of a disordered liver and warns one that a change should be made in the diet. All over America the people are learning the great value of Grape-Nuts ready cooked food, and thousands find it just the food they have long been seeking. Grape-Nuts food is cooked at the factory for a period of 12 to 14 hours. It is easily assimilated even by the most sensitive stomach, and contains just those elements necessary to make strong, healthy bodies, clear brains, and beautiful complexions.

# Drugs Are Made To Sell Not To Cure

How is it that a man can pile up a fortune in a year or two, through the sale of drugs that have no merit whatever? Simply because drugs are nearly all profit. Three cents' worth of "dope" in a little alcohol will sell for a dollar, but it wouldn't cure if you swallowed a barrel of it.

Any old Tom, Dick or Harry can mix up a lot of dope, a few colored pills, or any preparation with a new name, and sell it to you at thirty times its cost. You take it, just because you believe in drugs; you were taught that nothing but drugs could cure. Sometimes you lose faith in the ready-bottled preparations and you go to a physician or a home doctor, who sells you the same stuff (sometimes worse), and you pay the name and at a bigger price. Then you go home, dose your poor stomach with that trash and imagine it's doing you a lot of good.

But you don't get well; your stomach soon gets out of order, your nerves become weak and other troubles arise. That's what poison does to you. It was in the stuff you doped your stomach with. I claim that the practice of drugging was originated by savages and is founded upon superstitions. It is entirely out of place in this day of progress.

Words cannot express my gratitude for Electro-Vigor. I have used it three months and my back is cured, my stomach acts better and I have gained in strength. H. B. Peterson, 150 Ballard Ave. Ballard, Wash.

I feel 100 per cent better since using your Electro-Vigor. I have no more rheumatism, no back aches or stomach trouble, and my strength is what I know it should be for a man of my age. A. E. Boyne, Meacham, Or.

**Get One Free**

I want you to write for my 100-page illustrated book, which tells all about Electro-Vigor, my methods and prices. This book contains a lot of valuable information for every sufferer. I'll send it, closely sealed, free, if you will mail me this coupon. Cut it out now.
