JUST A MINUTE

Are you buying groceries on credit? If you are, do you really think you can afford to do it? In order to ascertain whether you can or not, suppose you take your last month's bill and compare it with our advertised prices. Maybe the price difference will determine a change in the place where you buy groceries. Another thing—look and see if the bill from your credit store always itemizes the number of pounds for a dollar; then size it up and see if you can afford it.

MEATS!

The biggest sale we ever had in our meat department was Saturday, December 7. Our offerings called forth a response from the people such as has never before been witnessed in this city. It was a strong reminder that there's one—and only one—market where the masses concentrate their meat buying. Unless we miss our guess badly the following prices will crowd us again tomorrow, same as they did last Saturday. The watchword is, "COME EARLY"
