

QUESTIONS PUT IN IMPEACHMENT

Orchard Denies Threats—Hercules Deed in Evidence—New Witnesses.

(Continued from Last Week.)
 Boise, Ida., Dec. 19.—Impeaching questions were put to Harry Orchard in the Petition trial this morning, after which the state began its indirect examination. Clarence Burrow is still too ill to be present and Edgar Wilson conducted the defense, asking Orchard in regard to conversations in which it is alleged he made threats against Stuenkel's life. Orchard denied making such threats in conversations with Max Melich, Eugene Engler, Dr. Maceo, Dr. Conroy, Charles A. Sullivan, Frank Hough, Louis Day, S. R. Reed, D. C. Coats, Allen F. McGill and Chester H. Felton. During the indirect examination of Orchard, conducted by Hawley, a deed for a sixteenth interest in the Hercules mine from Orchard to Dan Cordona was placed in evidence. The deed bore date March 7, 1893, a year before the trouble in the Coeur d'Alene.

O. R. & N. APPEALS TO HIGHER COURT

Franchise and Money Assessments Only Points Railroad Objects to.

The first step in the appeal that will be taken by the railroads from the assessment fixed by the state board of equalization was made by the attorneys for the O. R. & N. this morning. The appeal is less sweeping than expected, as it challenges only two points in the assessment and indicates that the railroad does not intend to make a further fight against the valuation of \$44,000 per mile on the main lines of track, although in the hearing before the county board of equalization it was claimed that the assessment should not be higher than \$20,000.

CARNEGIE COMES UP AGAIN AT ABERDEEN

(Special Dispatch to The Journal.)
 Aberdeen, Wash., Dec. 19.—The Carnegie library proposition here will not down. The council about a year ago turned it down decisively. A lot has since been bought by the city and certain revenues have been used as a basis for a library building fund. But now a change in the personnel of the council has taken place and the advocates of the Carnegie proposition consider it a favorable time to broach the subject again. A site has been acquired and a proposition has been received from Mr. Carnegie in which he offers \$15,000 on condition that \$1,500 a year for 10 years be spent to maintain the library. There has been strong opposition by the labor element.

Another Breeding Place Discovered for the Pest.
 Rev. H. Mould in Times of India. A short time ago, while going around the Colaba cemetery which is in my charge, I noticed what is after small "pills" growing out of a hole in the trunk of a tree, a karunia. I pulled it out and found the hole quite a foot deep, and containing several inches of water at the bottom which was never out of sight. Mosquitoes also stopped up with earth.

RARE BOOKS AT BROWN.
 Library Completes Set of Tracts of King Phillip's War.
 From the New York Sun.
 The John Carter Brown library at Brown university has completed its set of 13 original narratives, printed to the year from 1675 to 1677, of the Indian war which nearly destroyed the New England settlements.

A recent purchase in London at the sale of the Earl of Sheffield's library of a tract printed in London in 1676, containing a description of the "Great Swamp Fight," which broke the power of the Narragansett Indians in southern Rhode Island, completed the set.

The Brown library also has bought a Virginia tract which tells of a tempest which did great damage in 1667, and another which contains a report of Indian troubles in Virginia at about the same time that King Phillip was making war in New England.

The library has added a volume which contains an account of an annual meeting of the stockholders of a company of trade between Spain and Venezuela, and books which contain the regulation of the slave trade in the French West Indies in 1745, proceedings of the local government for the island of Martinique, and reports of the doings of the French fleet in the West Indies during the American revolution.

YEARLY STREET CAR TAX ADVANCES \$1000

Next Year Annual Tribute to City Will Amount to \$4,000.

This will be the last year the Portland Railway, Light & Power company will pay \$2,000 into the city treasury, and commencing next year it will pay an annual tax of \$4,000 for the ensuing five years.

This is in accordance with the company's franchise which requires the transportation company to pay an annual tribute for the use of the city's streets. Commencing in 1912 the company will have to pay annually for five years the sum of \$5,000; from 1913 to 1922, inclusive, \$7,000; from 1923 to 1927, inclusive, \$9,000; from 1928 to 1932, inclusive, \$12,000.

The company's franchise expires December 31, 1932. At that time the company will have paid the city \$200,000. The \$4,000 coming in next year will about pay the city employees' street car fare for the year.

LARCENY THE CAUSE OF MOST OF COMPLAINTS

A partial list of the transcripts of cases sent up from the municipal court to the circuit court from the district attorney's office during the holidays shows interesting facts regarding the rather different varieties of crime committed in the city. Out of 29 cases filed during the holidays, which is practically all of the cases passing through the municipal court from the state's action, the largest number were complaints alleging larceny of various kinds from petty larceny to highway robbery. In the list were three murders, one threat to kill, two for adultery, two for assault and battery, one for contributing to the delinquency of a minor, two for forgery, two for assault being armed with a dangerous weapon, one for lewd cohabitation and 15 for larceny.
