### LAWYERS TO SEE ROSES

**American Bar Association Will Probably Meet Here During the June Fiesta—Campaign on Again—City Draws Many Conventions.**

It is possible that the American Bar association will hold its annual session in Portland during the Rose Festival next summer. Word was received yesterday from T. G. Halley, president of the Oregon State Bar association, to the effect that he is preparing invitations to all state bar associations in the United States to meet in Portland, during the Rose Festival, and a general invitation will be prepared and sent to the executive committee of the American Bar association, asking that organization to hold its 1908 convention in Portland, during the first week of June. Resumption of the exploitation work in behalf of the Portland Rose Festival to be held in the Rose City, June 2 to 7, this year will be taken up at a meeting of the ways and means and exploitation and publicity committees, at festi-

val headquarters, 515 Sweetland building, next Tuesday evening at 8 o'clock. A complete review of the work that has already been done, with an outline of the preliminary plans that are to be consummated before the opening of the big celebration, are to be the principal subjects of discussion.

**All Oregon Parades.**  
Reports from all sub-committees will be received and a renewal of the campaign for the raising of additional funds will be inaugurated.

Festival headquarters has been checking up the replies to letters sent out to the commercial bodies of all the leading cities and towns of the state and it is already ascertained that 20 cities and towns outside of Portland will be represented in the All-Oregon street pageant. Definite promises to participate have been received from 18 towns and requests for detailed information as to the conditions of the big day's celebration that will be devoted to the state of Oregon are now in the hands of General Manager Huthorn.

The northwest division of the Trans-Mississippi department of the United States Federal Veterans at its recent meeting held at Bozeman, Montana, decided to hold its regular annual convention for 1908 at Portland, during the Rose Festival, and L. C. Garrigus, of this city, who is a member of the general staff in its correspondence with General Fust, commander of the division, at Phillipsburg, Montana, and he guarantees a representative attendance of his organization.

**Admen to Be Here.**  
President R. M. Hall of the Pacific Coast Admen's league, which is to meet at Oakland, California, this month, has pledged a complete representation of the three coast states—California, Oregon and Washington—at the yearly gathering which is to be held here next June. Portland abrogated its right to having the winter convention, on condition that the regular annual meeting be held in the Rose City during the Rose Festival. This one body will bring together some 200 of the greatest boosters on the Pacific slope.

Next Wednesday night the chamber of commerce will hold its annual meeting, banquet and election of officers at the Hotel Portland, and some of the

speakers will call special attention to the Rose Festival, dwelling upon the important exploitation and advertising features, and at this meeting a resolution will be adopted inviting every commercial organization in the country to come to Portland during the first week of June. While, of course, it is not expected that all of these bodies will be able to accept, it is believed that a sufficient number will send delegates here to warrant the transcontinental railroads in giving a special low rate of fare for the festival.

**Plan Other Pleasing Features.**  
In case Judge Halley is successful in bringing a considerable number of the eastern state bar associations to Portland the week of the festival, it alone will guarantee a special reduced rate of fare, and whatever reduced rate is granted to the lawyers will also be available to tourists who desire to visit the Pacific northwest next summer.

Among the campaigns that the festival association is now working on is a crusade to have the local merchants participate in a general street illumination scheme, particularly during festival week, and with a further view of making the illuminations a permanent feature, it is understood that the Portland General Electric company is willing to make a special rate for light and power during the week of the jubilee.

**Recital Hall for Rent.**  
Silvers Recital hall, seats 330, perfectly ventilated, free from street noises, superbly equipped with highest-class musical instruments of all kinds, is available for a few more dates for highest-class musical functions and meetings. Day or evening. For terms, apply Dooly & Co., 324 Third street, or advertising department, Eilers Piano House.

Labor Commissioner Doherty of Virginia has begun an investigation of alleged violations of the labor laws of the state. Ten hours are fixed by law for women and children under the age of 14 years, and there are said to be many firms which have failed to observe the regulation.

### LENGTH OF CUFF ON TROUSERS SHOWS WEALTH OF THE WEARER

The latest style in trousers seems to be to have them made about three feet too long and then turned up at the ends. The result is that the trouser's cuffs reach nearly to the knee or thereabouts.

And in addition, among the latest dressers in the extreme, the idea is to have the trousers creased not only in front but on the side as well. But is this rather an old style. However, trousers turned up to such an extent that they have to be sewed to keep the ends in place is the very latest.

At least there was a man at the Hotel Portland wearing this sort the other day and he said the fad would soon be all the go.

The turned up cuffs, that is those in the extreme, have a most unusual effect. If ever the stitches holding the cuffs in position give way there will be something doing—the wearer of the long trousers will simply trip all over himself. The ends would fall to the ground and cover his feet and there would be a fool or so of trouser leg to spare.

It is said that suits with this new extreme cost quite a sum more than ordinary suits owing to the extra amount of good cloth which are required in the make up.

### CARPENTER PAID TWOLIP SALVE

**Court Holds That Kiss Is Enough Reward for Work Man Did for a Girl.**

Mineola, L. I., Jan. 4.—Bennette Bonanno of Manhattan sued John Lester and his wife, Mary, of Rockville Center, here today for \$309, which he said, was due him for carpentering and other work done for them. The defense set up the claim that the work was paid for with a kiss.

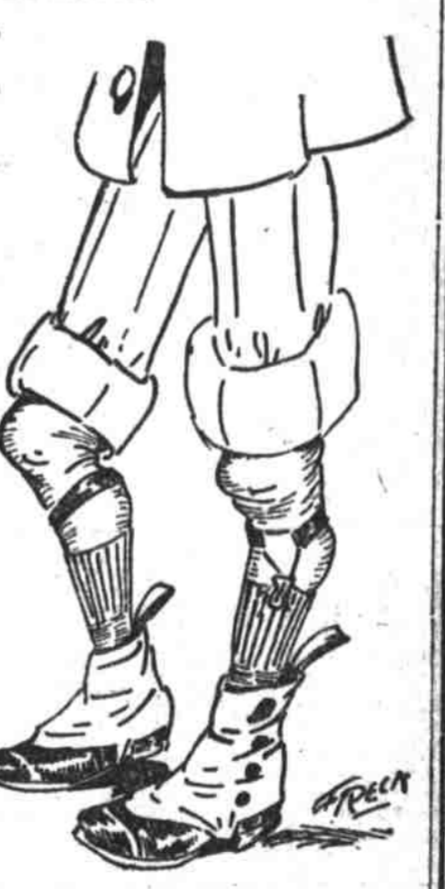

It was asserted by the Lesters that the work was done in a friendly way and was not to be paid for. Bonanno made no demand for pay until he and Rosie Vitro, the pretty 16-year-old adopted daughter of the Lesters, ceased to be friends.

Mrs. Lester told about a bird house which she said Bonanno had given her adopted daughter. In his bill the bird house figures as a \$35 charge.

She, her daughter and Bonanno were admiring the house and the girl exclaimed: "Oh! how can I pay you?"

To this, Mrs. Lester said, Bonanno replied: "I'd take a kiss for pay."

"Was the kiss given," asked the court,

"It was," responded the witness. Miss Vitro told the same story. She said she had done some sewing for Bonanno, who was calling on her very frequently, and he promised her a present and sent her the bird house. She admitted paying with a kiss.

Justice Garretson granted a nonsuit.

### ANCIENT ROBBERY BREAKS INTO COURT

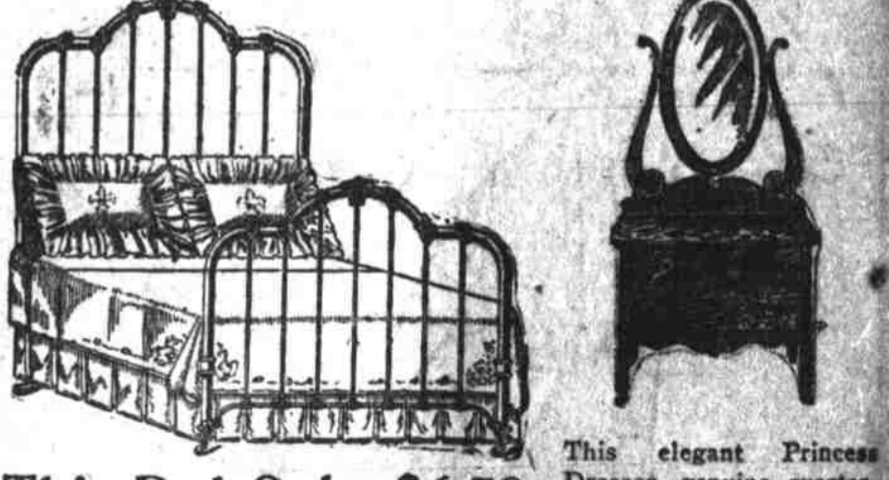

Judge Wolverton will decide three cases in the United States circuit court Monday morning.

The first is a decision on a demurrer filed in the case of Charles S. Van Acker against the American Surety company. This case is the result of a robbery of the State Bank of Rainier in September, 1906. Van Acker was alone in the bank at the time the burglars entered. They bound him hand and foot and made away with several thousand dollars. He was bonded in the surety company.

The two other cases are the Northern Pacific Terminal company against the

**A Beautiful Art Studio.**  
One of the best collections of high-grade oil paintings and pastels in Portland is on exhibition at the art studio of A. K. Berger at 544 1/2 Washington street, between Seventeenth and Eighteenth. Mr. Berger received his early training in art abroad and has studied continuously for the past 15 years.

Mr. Berger is not only well known as a painter of landscapes, but also as a portrait painter from life, and from photographs. He has, since his arrival in Portland, nearly a year ago, and where he plans to reside permanently, painted a number of noted men. Among whom are Hon. Judge H. Williams, Consul Dr. William Eason, Hon. G. F. Hoff.

It is hoped that the people of Portland will fully realize that in encouraging western art they are supporting and building up western culture, especially when we have capable artists among us.

Mr. Berger receives quite a number of orders from tourists visiting here from the eastern and middle states, among which is a set of oil painting of the "Good Shepherd" which he has had ready and will soon be shipped.

Organized labor of Seattle is said to have carried out its proposed plan of obtaining a coal mine.
