

# OREGON LUMBER FOR ORIENT

### Two English Companies Operating in China Open Portland Offices to Facilitate Greater Shipments of Lumber to Chinese Ports.

During 1907 more Oregon timber is to be shipped to the orient than ever before. For the purpose of facilitating their purchases in this state an office has been opened in Portland by Sneathlague & Co., limited, of Shanghai and Tientsin, and the China Import & Export Lumber company, limited, of central and north China.

W. Edwards, representing the two English companies is at the Hotel Portland, having come to Portland for the purpose of completing all arrangements to open the office here. Mr. Edwards formerly had charge of the companies' business in Shanghai.

Within a few weeks C. J. Butsch will arrive from China and for this purpose the Portland offices of the companies. Their headquarters are to be in room 224 in the Lumber Exchange building.

Heretofore the companies have been shipping something like 40,000,000 feet of Oregon lumber to the orient each year. This season, however, the shipments are to be greatly increased and a great deal of the pine timber from this state will be sent to China to be used in all kinds of construction work. Shipments of oak from Japan to the coast are also to be made by the lumber companies.

"We intend to greatly enlarge our business," Mr. Edwards said this morning at the Portland office for this purpose we have decided to open offices here. We find a ready sale for Oregon pine throughout China.

After the arrival of Mr. Butsch to take charge of the new Portland branch of the oriental company, Mr. Edwards will leave for London by way of Shanghai.

The Sneathlague company and the China Import & Export Lumber company are owned by English people who are rapidly increasing their business interests in the orient.

## REV. TROUTMAN SENDS BEST WISHES FOR PE-RU-NA

Rev. George A. E. Troutman, Mt. Washington, Mo., writes,

"My Wife and I Are Strong Believers in Pe-ru-na."

Catarrh and La Grippe. Rev. Geo. A. E. Troutman, Mt. Washington, Mo., writes: "My wife and I are strong believers in Peruna."

Walnut Hills, Cincinnati, Ohio, writes: "For several years I have been troubled with a peculiar spasmodic affection of the throat. It would seize me suddenly and for a few minutes I would be unable to speak audibly, and my breath would be greatly interfered with. I would be obliged to gasp for breath. I finally concluded that it was some catarrhal affection which probably excited the spasms. It interfered with my vocation as a preacher, attacking me occasionally in the pulpit. "I had heard so much about Peruna as a catarrh remedy that I determined to try it. After taking two bottles, my trouble has disappeared. I feel sure that Peruna has greatly benefited me." Rev. P. E. Swanson, Swedish Baptist Pastor, Box 224, Grantsburg, Wis., writes that from the use of Peruna he is perfectly well, entirely cured of chronic diarrhoea and catarrh.

Peruna in Tablet Form. For two years Dr. Hartman and his assistants have incessantly labored to create Peruna in tablet form, and their strenuous labors have just been crowned with success. People who object to liquid medicines can now secure Peruna Tablets, which represent the medicinal ingredients of Peruna. Each tablet is equivalent to one average dose of Peruna.

## BROKER OWES COOL MILLION

### Ten-Mile Railroad the Only Valuable Thing in John Mulholland's Assets.

(United Press Leased Wire.) Danville, Ill., Jan. 8.—Placing his liabilities at \$1,840,862 and his assets at \$2,013,668.98, John Mulholland of Fairview Landing, Illinois, yesterday filed a voluntary petition in bankruptcy in the federal court here. Among his assets Mulholland schedules everything from railroads to private libraries, one of the latter including a set of 53 volumes of "The Earth and Its Inhabitants," from which it might appear he had gained much inspiration in his financial operations. He asserts that he has 1,000 creditors scattered over eight states. A few years ago Mulholland opened a brokerage office in St. Louis, then branched out and established offices in Kansas City, New York, Cincinnati, Detroit, Buffalo and Cleveland. In these cities he incorporated under the laws of the state, bonding his company, the papers being signed by himself. On the \$3,000,000 in "assets" very little can be realized. About the only local assets considered of value by Referee Grant is named in a 16 mile railroad in Texas known as the Texas Short Line.

### London Stockholders Vote to Prepare First Mortgage Bond Covering Debts.

(United Press Leased Wire.) St. Paul, Minn., Jan. 8.—Following a meeting in London today of the London bondholders of the Chicago & Great Western railway, a receiver for the road will be appointed to maintain status quo during the time required to prepare a first mortgage bond covering the full indebtedness of the corporation. This action was determined upon at the London meeting, which was attended by President Stuckney of the road. The receiver will be named in St. Paul and report tomorrow.

## BREMERTON OFFICE LOOTED BY THIEVES

(United Press Leased Wire.) Bremerton, Wash., Jan. 8.—Safe crackers, between midnight and 6 o'clock this morning, blew open the safe in the office of the Bender Lumber company and escaped with the strong box containing \$200 and several thousand dollars worth of bonds, securities, etc.

Postum is made of the purest cereals with absolutely no medication whatever and when boiled according to directions it is heavy with food value and a great nourisher and re-builder, as well as a delicious drink. It is also a specific for all of the dozens of different diseases caused by coffee. Trial proves this, and "There's a Reason." Look in pkgs. for the famous little book, "The Road to Wellville."

## FALLING IN FRONT OF CARS IS NOW FASCINATING PASTIME

Picking Up Dummy in Fender Test. At the council meeting this afternoon the special fender committee of the city council will report in favor of the Lambert fender, and will urge the council to adopt it as the official device for Portland. This conclusion was arrived at by Chairman Vaughn and Councilmen Baker and Driscoll, who attended the fender tests at the Sevier street car barns yesterday morning. While Vaughn does not favor the Lambert type, he is willing to give in to the wishes of the Baker and Driscoll view, in order to have the matter ended.

## FEDERATION AT TACOMA

Union Men Boycott Unfair Restaurants and Barbers of the Sound City. Tacoma, Wash., Jan. 8.—Two hundred and fifty delegates, representing more than 45 vocations in life, are in Tacoma today attending the seventh annual convention of the Washington State Federation of Labor. At the very outset a boycott was declared on the numerous restaurants and barber shops of the city. The federation was formally welcomed this afternoon by Mayor Wright, the response being delivered by President Cotterill of the federation. The greater part of the day was spent in examining credentials, and little business will be transacted until tomorrow. Lakes Carriers Meeting. (United Press Leased Wire.) Detroit, Mich., Jan. 8.—The executive committee of the Lakes Carriers' association met at the Hotel Pontchartrain

## DID FULTON SWEAR

(Continued from Page One.) It is being contended by some that an oath taken over the telephone would not stand the test of the courts and that because of this opponents of Senator Fulton could, if they desired to raise the point, enjoin Secretary of State Benson from having the senator's name placed on the official ballot when it is made up. It is pointed out that the United States supreme court has held, by inference at least, that an oath or other legal action made or taken over the telephone is not binding, within the meaning of the statute. It is not believed that there is much danger of the technicality being called upon by any one opposed to Senator Fulton, but at the same time the point is arousing a good deal of discussion among the technically-minded.

## MARQUAM SUIT

(Continued from Page One.) A decree made by the supreme court for error apparent in the record. Adverse to Plaintiff. Eighteen of the nineteen assignments in the complaint are for error apparent, and can not be sustained, for the reason that this court has not jurisdiction or power to grant the relief prayed for on that ground. The requisites of a bill of review have already been stated. It remains to consider whether the allegations of the bill not devoted to statement or error apparent

# FOLEY'S HONEY AND TAR

constitute some new matter that has arisen in time after the decree, or that any one of them is some discovery after the decree. The history of the former suit as detailed in the complaint seems to indicate that not one of these subjects is new or has been discovered since the decree. It is unnecessary to discuss whether or not the matter under consideration is so pleaded as to comply with the requisites of a bill of review to be deduced from the decisions already cited, since the objection that the allegations are not of new matter or discovery must be sustained. Defendants insist the record in the former suit is not sufficiently set out in the complaint. The complete record is not pleaded, but the court is of the opinion that the pleader is only required to set out the substance of the record sufficiently to exhibit the errors of which he complains, and the relation of the same to the subject of the litigation. This plaintiff has attempted to do, and it has not been made to appear he has failed in any material respect. The court believes the record has been sufficiently set out to explain the errors of which plaintiff complains. The decrees are sustained, as to the first and third grounds and overruled as to the second ground.
