DEER AND HORSES PICKED BY DIMICK CHARGE

Pullman Coach Stamps as Ridiculous Assertion of Whitman Athlete.

(Special Dispatch to The Journal.)
Whitman College, Walla Walla, Wash., Jan. 12.—Coach Bender of Washington State college stamps as "ridiculous" the charges that he tried to persuade Dimick or Philbrook of the Whitman football team to go to Pullman this year. In reply to the charges recently made by Dimick, the Pullman coach has sent the following statement to Walla Walla for publication in the local press:

"I wrote no letters to either Dimick or Philbrook offering to harbor such foolish ideas. Besides, I am strictly opposed to having students at all school go to another, especially athletes. This is one phase of the conference idea to which I adhere, and will advocate that this rule be adopted in all schools of the northwest colleges which Mr. Ingalls of the Seattle Athletic club will call in the spring. I hold that a student should be in attendance at least one semester or half of the school year, before he is permitted to represent that school in athletics or any intercollegiate affair.

"Mr. Dimick and Mr. Philbrook are both very good athletes, but W. S. C. made no inducements to them that I am aware of. It was by some of our team last year, after we defeated Whitman in football, that Dimick said he wanted to come to W. S. C. I took him to a game, and I know that students are not in the habit of leaving their college merely to go some place else. It is a hard thing to do, and the man that does it for personal gain alone is a 'chump'.

"I hope that this letter will clear matters, have been in athletics too long and am too much of a college man to try and persuade athletes to leave their college. The whole affair is ridiculous, as far as I am concerned.

(Signed) "JOHN R. BENDER."

SCALER LACKED COIN AND FRAYNE GO IS OFF

California Fight Fans Wanted to See Spokane Kid in Action.

(United Press Leased Wire.)
San Francisco, Jan. 12.—If Stanley Ketchel comes to the bat this afternoon and agrees to a match with Mike (Twin) Sullivan, Coffroth's matchmaking troubles will be over for February, as he will stage the event at the Mission street arena on Washington's birthday. Mike has conceded considerable fight in agreeing to 15 rounds several hours before the contest. That would mean that Ketchel would weigh in the neighborhood of 200.

Manager of Kid Scaler and his manager to put up the \$2500 forfeit that was demanded by Coffroth and the subsequent calling off of the fight by Scaler is a disappointment to Johnny Frayne and quite a number of the boxing enthusiasts who wanted to see how Scaler would show up in action.

NEWSPAPER PROMOTES A \$15,000 FUTURITY

One of the richest and the most liberal futurity stakes ever offered for trotters and pacers is being promoted by the Horseman and Spirit of the Times. The stake is guaranteed to be not less than \$15,000, and according to the terms of the contest, all the money contributed to the stake by breeders in the shape of nominating and starting fees will go into the stake as added money.

The conditions of entry are exceedingly liberal. The nominating fee of 15 cents is returned to the nominator if they may own. In addition to this there will be two further payments of \$5 each, which is all the money required until the year of the race, when starting fees fall due.

The stake will be raced in three divisions. For 3-year-old trotters there will be a purse of \$10,000; for 2-year-old trotters the purse will be \$2,000; for 3-year-old pacers \$2,000.

The guaranteed amount of the stake is subscribed to by the Chicago Horseman Newspaper company, of which Daniel J. Campau of Detroit, Michigan, is president. This is the richest of all newspaper futurities and the most liberal system of entrance.

SEATTLE WINS GREAT TROPHY

Portland Golfers Have No Chance to Get Up on the Winning List.

(Special Dispatch to The Journal.)
Tacoma, Jan. 12.—The Seattle Golf club yesterday won the Treat cup trophy by defeating the Tacoma club in the last game the Seattle players have to contest. The game was one of the best ever seen here. Of the six matches played but one game which was to the best match, from a spectator's point of view, was that between H. S. Griggs of Tacoma and Van Tyle of Seattle. Griggs won the match by a score of 18 to 17. The game was excellent and on the eighteenth hole they tied. Going on to the twentieth hole Griggs won out.

The results of the game were as follows: Griggs beat Van Tyle, one up; Garrett of Seattle beat P. H. Kershaw of Tacoma three up and two to state; Strait of Seattle beat Van Milligen six up; Gillison of Seattle beat Fransell three up; Chester Thorne of Tacoma, defeated Alvin Grant of Seattle one up; Fisher of Seattle beat Kay Smith three up.

An interesting sequel to the game was the challenging of H. S. Griggs, the holder of the Wallace trophy by Garrett of Seattle, and this contest will come off in the near future. Griggs won this trophy in a contest with Van Tyle and Seattle golf players for its possession.

In the contest for the Treat cup Seattle defeated Tacoma and Tacoma defeated Victoria on the latter's home grounds. The Victoria club lost a game to Seattle played at Seattle and one at Portland.

The best of the game was that between Tacoma and Seattle. Tacoma has so far failed to win a match, but has still a chance in a game to be played with Portland and another with Victoria. A number of Seattle golf enthusiasts came over to see the playing. Following the game a banquet was given the Seattle club by the Tacoma players at the Union hotel.

The Seattle and Tacoma second golf club teams also played a match yesterday. Portland won eight matches in this game, and the Seattle players took six, the playing being one sided.

SIX STEAM LINES WILL BE LINKED

Electric Road to Be Built Into New Country From Kennewick.

(Special Dispatch to The Journal.)
Kennewick, Wash., Jan. 12.—Surveys for a new railroad up the Columbia river from Kennewick to Waterbury were filed in the United States land office some time ago. Information is now given out by the officers of the company that construction is to be commenced early in the spring and already secured. W. R. Rust of Tacoma is named as the president of the company, and E. H. Gule secretary and H. K. Owens chief engineer.

The road will be of standard gauge and will have a length of 125 miles in length, will connect with five large transcontinental lines and the North coast will give it still another connection.

Vast New Areas Opening.

The new road will tap thousands of acres of irrigated land of inexhaustible fertility and hundreds of thousands of acres of unexcelled wheat lands.

Last summer six new companies went into the district between Kennewick and Priest Rapids to pump water to irrigate lands, 22,000 acres coming under one system. New towns are springing up and making rapid growth. White Bluffs has grown since 1904 to a town of about 500, supporting a live newspaper and a \$10,000 hotel. The new electric line will connect with numerous spurs and sidetracks, giving the farmers in the new irrigated districts a short haul to shipping points.

Within 60 days the gigantic power plant at Priest Rapids will be completed with a capacity of 20,000 horsepower. The new railroad will receive power from this plant. A contract for power running 30 years has been signed between the power company and the railroad.

Kennewick & Trade Center.

Kennewick, as the southern terminus of the road, will derive immense benefit. Practically all the supplies for the building will be obtained here and on the completion of the road the immense wheat country of Douglas county and the rapidly growing irrigated districts along the Columbia river will become tributary to Kennewick.

The steamship lines that make Kennewick their headquarters, plying between Kennewick and Priest Rapids, are taxed to their utmost capacity, and the owners are already contemplating building new boats to accommodate the rapidly increasing traffic. With the commencement of work on the new railroad new boats will be an absolute necessity.

Incendary Brings Sorrow to Aged Servitor of Uncle Sam.

(Special Dispatch to The Journal.)
The Dalles, Or., Jan. 12.—"When some one robs you, you can at least attempt to defend yourself, but when some one sets fire to your house, that's a cowardly act," said Fred Benzer yesterday afternoon while gazing at the burning remains of the old house he purchased from the United States government in 1877 and for which he paid in gold coin in 1883.

Benzer, who was cook and baker at Old Fort Dalles from 1860 to 1875, was indignant yesterday because a fire of incendiary origin at about 1 o'clock Sunday morning destroyed his house and furniture.

Benzer is past 70 and is an old-timer who believes in justice. He takes the loss of the dwelling to heart and lives and bakes bread in the same government bakery he used years ago.

When Benzer bought the house, Dalles City was just in its infancy. The land surrounding it had not been cut up into lots and there were no streets. With the advance of progress came streets and Mount Hood street passed by his house, one of the five officers' residences on Garrison hill near this city. In fact, the street passed on both sides of the house.

The Dalles city council recently appropriated \$200 for the purchase and grading of Mount Hood street to a point above the Garrison building at the corner of the Good Roads association of Mill Creek. As the old dwelling built by Uncle Sam stood in the way some one thought he would contribute to the march of progress by burning it. A little thinking of the sorrow and loss he would bring upon a gray-haired pioneer.
