# THE TRUTH ABOUT KIDNEY TROUBLE

(BACKACHE)  
Backache as a cause of kidney trouble is outrageously abused, for there is not one case in five of backache that is an evidence of inflammation in the kidneys. The kidneys are not sensitive and seldom reflect pain.

# THE TRUTH ABOUT KIDNEY TROUBLE

Backache is commonly an evidence of lumbago, or shows a neuralgic or rheumatic tendency in the muscles of the back. In those cases in which it does proceed from the kidneys it reflects an action inflammation that usually yields very quickly and definitely to Fulton's Renal Compound.

It is the only reason one has for suspecting the kidneys, it will in most cases be found more closely related to the muscular system than to the kidneys. Kidney disease, first or last, is inflammation of the kidneys, and there is nothing on druggists' shelves for inflammation in the kidneys. The late John J. Fulton was the first man in the world to reach and reduce inflammation in the kidneys. His Renal Compound is the first real specific for kidney disease. Literature mailed free.

JOHN J. FULTON CO., Oakland, Cal. Fulton's Renal Compound can be had at all first-class drug stores.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in medicinal roots for the cure of most obstinate and fatal diseases. If we would properly investigate them, and in confirmation of this conviction, he points with pride to the almost marvellous cures effected by his Golden Medical Discovery, which has proven itself to be the most efficient stomach tonic, liver purifier, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, indigestion, torpid liver, constipation and even valvular and other affections of the heart yield to its curative action. The reason why it cures these and many other affections is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, Buffalo, N. Y., to all sending request for the same.

Not less marvellous in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and disturbing derangements is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of published testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic inflammation, irregularities, prostrations and other difficulties caused by weakness, vicarious action of stomach and impaired action of many other vital organs. Medicines and physicians had failed.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native medicinal roots. The processes employed in their manufacture are simple and safe, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for the purpose. All their ingredients are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle's wrapper.
