HANDS IN POCKETS; FALLS; ARM BROKEN

(Special Dispatch to The Journal.)

Milton, Or., Jan. 18.—Willie Brinker, while on the playground at the public school yesterday, had his arm broken in two places. A number of boys were playing when young Brinker was thrown suddenly to the ground. He had his hands in his pockets in such a way that he was unable to dislodge them before he struck the ground. The arm was broken just above the elbow and one bone in the forearm was broken.

BRINGS CEMENT FROM ANTWERP

French Bark Eugenie Fautrel on En Route List for Portland.

MANY CARGOES OF BUILDING MATERIAL

Indications Point to Strong Demand for Cement During Coming Spring and Summer and Large Quantities Will Be Imported.

Importers of cement are fully convinced that building operations will demand large quantities of cement here next summer, and do not hesitate bringing out cargo after cargo from the factories in Europe.

Balfour, Guthrie & Co. today arranged to have the French bark Eugenie Fautrel bring a cargo of cement to this port from Antwerp. The vessel will be the fourth now headed this way for the one firm.

Immense quantities of cement were imported here and at other Pacific Coast ports last year, but nevertheless there were times when the stocks were none too heavy for the demand. Thousands upon thousands of barrels went into railroad construction, and large quantities were used in molding tall reenforced concrete office buildings about the city.

A number of big sailing vessels laden with cement are now heading this way consigned to W. P. Fuller & Co. and Meyer, Wilson & Co., who with Balfour, Guthrie & Co. import practically all the cement used in this part of the country.

Of the cement ships now en route, the French bark Pierri Loti should be nearest at hand to arrive. She left Antwerp July 20 and reported at Hobart, Tasmania, several months ago. The Pierri Loti is consigned to W. P. Fuller & Co. The Pierri Loti will bring about 19,000 barrels, an average cargo.

TWO COASTERS ARRIVE.

Alliance From Coos Bay and Inman From San Francisco.

The steamer Alliance, Captain Olson, arrived here from Coos Bay last night, bringing about 35 passengers and a large quantity of freight. She will leave for Coos tomorrow night.

Captain Olson reports having had a pleasant voyage with the most beautiful moonlight evening imagination could picture. The sea was calm and the air balmy enough to invite the passengers on deck to enjoy to the full extent the beauty of the vast ocean of silvery ripples.

Going south the Alliance ran into some heavy head seas, but she made good time nevertheless.

The steam schooner R. D. Inman, Captain Nelson, arrived here last night from San Francisco to load lumber for a return cargo. She discharged a small quantity of freight at Oak street wharf and then proceeded to the mills of the Inman-Poulsen Lumber company to load. Captain Nelson, too, reports having had ideal weather most of the way from the Golden Gate.

TO INSPECT RIVER.

Steamer Enterprise Will Carry Officials to Kettle Falls.

(Special Dispatch to The Journal.)

Wenatchee, Wash., Jan. 18.—The steamer Enterprise, owned by the C. & O. Co., will soon start on a trip up the Columbia river, going up as far as Kettle Falls, in Stevens county.

The object of the trip has not been disclosed, but it is rumored that it is to take a party of government officials for the inspection of the river.

The government has been blasting rocks at several of the dangerous points along the river under the supervision of Captain Hansen, an old captain on the Columbia, and as there is a great opportunity for that kind of work above Brewster, the head of navigation at the present time, it is generally supposed that work will be commenced soon to open the river so as to make the trip to Kettle Falls far less arduous than it is at the present time.

BURNED HER CARGO.

British Steamer Inveran Runs Short on Coal During Voyage.

A brief dispatch to the Merchants' Exchange announces that the British steamer Inveran has arrived at Manila with the report that in fighting severe storms across the Pacific her coal supply ran out and the fires had to be fed with lumber from the deck load.

The Inveran left Portland November 7 for Manila with 3,207,880 feet of lumber shipped by Balfour, Guthrie & Co., and hence was more than two months making the run that ordinarily should be made in six weeks. It is supposed that she fell into the awful storms that nearly sent the German steamer Tolosan to the bottom on her way from Seattle to Vladivostok.

SAILS NEXT WEEK.

Oriental Liner Arabia Begins Loading Monday.

The oriental liner Arabia is expected to get away from this port next week with a full cargo of flour and general freight. Included in the general cargo is a large shipment of green hides for Yokohama.

The flour shipment will consist of about 50,000 barrels, although the demand for flour in the orient is said not to be very strong at this time.

The Arabia will probably finish discharging at Alaska dock this evening.

ALONG THE WATERFRONT.

The steam schooner Johan Poulsen cleared today for San Francisco with 800,000 feet of lumber.

The steam schooner J. B. Stetson left Astoria yesterday with 800,000 feet of lumber for San Francisco.

The British bark Amazon will begin working ballast at the wharf of the North Pacific Lumber mills tomorrow in order to get ready for loading wheat as soon as possible.

The lighthouse tender Armeria, Captain Gregory, is in the harbor today getting supplies. She is berthed at the foot of Davies street.

The German steamer Germanicus arrived in at Astoria at 11:30 this morning bound for this port to load lumber. She took on a part cargo at Grays Harbor.

The steamer Beaver was inspected this morning and will probably start out on the Clatskanie run next Tuesday.

The towboat Diamond O left for Astoria this morning to bring to Portsmouth barge No. 3 now due to arrive at Astoria with a cargo of oil.

The steamer Costa Rica, Captain Mason, leaves for San Francisco this afternoon. She goes out with a full passenger list, something out of the ordinary at this time of year.

The oriental liner Nicomedia is due to arrive here from China and Japan about the last of this month.

To Help Cotton Goods.

Charlotte, N. C., Jan. 18.—More than 2,000,000 spindles were represented at a joint conference held here today by the Southern Hard Yarn Spinners' association, the Southern Soft Yarn Spinners' association and the North Carolina Manufacturers' association. The present unsatisfactory condition of the cotton goods trade was thoroughly discussed and ways and means considered looking to the better protection of the cotton goods manufacturers.

My Fee is Only
$10.00
IN ANY UNCOMPLICATED CASE

DR. TAYLOR,
The Leading Specialist.
I have taken up these ailments especially because thousands of lives are ruined and thousands of men are not what they should be, because they are held down by chronic weakness, which the average practicing physician does not understand and usually tries to make light of by telling the patient that nature will soon repair the waste. But the drains continue until the vital force is sapped from the body and both the mental and physical structures of the body collapse.
You Can Pay Me When You Are Cured
A great many people do not seem to understand the difference between the regular practitioner and the medical expert who has devoted his life study to, say, three or four complicated diseases. They seem to be under the impression that any physician cures any disease with equal success. It is an every day experience to have a patient say, "I have tried nearly every remedy sold by druggists for my trouble," and the invariable verdict is, "no benefit." Another will say, "I have been treated by several family physicians in my neighborhood, who thought they could cure me, but the results proved otherwise."
I do not appeal especially to the man seeking the cheapest cure in asking such a low fee as $1.00 for the cure of any uncomplicated case of Male Disorders, but I want to reach all men who object to paying exorbitant fees heretofore charged by specialists. My methods insure quick results, or I would have to charge more for my time. The outcome in every case undertaken is certain, or I could not hold the proposition to effect the cure before asking the fee.
VARICOCELE
An average of one man in five has Varicocele. Most men that have this dragging, draining weakness are not aware of it until it has wrecked their lives. Varicocele causes congestion of the blood in some of the most vital blood vessels of man. It causes a dull, heavy, listless feeling which is often mistaken for nervous debility or general decline of power.
"WEAKNESS"
My cures for this disorder are permanent and lasting. No tonics that stimulate temporarily, but thoroughly scientific treatment for the removal of conditions responsible for the functional derangement. "Weakness" is merely a symptom of inflammation or congestion in the prostate gland, and under my own original local treatment this gland is promptly restored to its normal state and complete functional activity is the lasting result.
By my special methods such ailments as Lost Vigor, Varicocele, Hydrocele, Contracted Disorders, Contagious Blood Poison, Stricture and "Weakness" can be cured perfectly—so as to stay cured.

WEAKNESS
If other physicians have treated you for so-called "weakness," you were helped only temporarily, if at all, and the reason is very apparent when the cause of loss of power in men is understood. "Weakness" isn't a weakness at all, but is merely a symptom of chronic inflammation in the prostatic gland, brought on by early dissipation or some contracted disorder. Our system of local treatment removes this inflammation and is the only treatment that has ever restored or ever can permanently restore strength and vigor.
CONTRACTED DISORDERS EVERY CASE
Of contracted disease we treat is thoroughly cured; our patients have no relapses. When we pronounce a case cured there is not a particle of infection or inflammation remaining, and there is not the slightest danger that the disease will return in its original form or work its way into the general system. No contracted disorder is so trivial as to warrant uncertain methods of treatment, and we especially solicit those cases that other doctors have been unable to cure.
