

A PICTURE TO THINK ABOUT

ROBERT CARTER

The significance of this cartoon will be pretty plain to every one, the mother especially. There is much agitation now about women smoking. It would be a pretty bad woman who would smoke with her baby looking on.

Whales Play Close to Pier.

Redondo Correspondence Los Angeles. A school of whales called at this port this afternoon, causing no end of excitement along the waterfront. Three of the great black monsters came to the surface of the water about 100 feet off Pier 1 and for 15 minutes or longer displayed themselves, sporting and gambolling like a trio of gigantic dolphins in plain sight of the crowd that soon gathered. The first intimation that something unusual was going on under the placid waters inshore was a panic among the smaller denizens of the deep. The shallow waters along the beach suddenly became alive with fish—large and small—all scurrying in from deep water and all apparently beset with fear. Even yellow-tail great silver-sided beauties, darted hither and thither through the shallow waters inside the breakers, and bathers were astonished to feel them strike their limbs in the blindness of their panic. One fish—a 15-pound yellow-tail—actually held his headway so long that he was ashore on the beach and was captured.

Senator Wetmore will be reelected by the Rhode Island legislature next week. At the last session of the legislature there were three senatorial candidates, Senator Wetmore and Samuel P. Colt, Republican and Colonel Robert H. I. Goddard, Democrat. The legislature, and also the present one, had a Republican majority of two to one, but the Republican vote was almost equally divided, and the necessary two-thirds vote could not be obtained by either of the three candidates. Colonel Colt withdrew from the race some time ago, leaving Senator Wetmore unopposed in his own party.
