

PRESIDENT PRESENTS HIS VIEWS

(Continued from Page One.)

been defined by the courts, must necessarily either be futile or mischievous, and sometimes both. The law should correct that portion of the Sherman act which prohibits all combinations of the character above described, whether they be reasonable or unreasonable; but this should be done only as part of a scheme to provide for this effective and thorough-going supervision by the national government of all the operations of the interstate commerce.

I do not know whether it is possible, but if possible, it is certainly desirable, that in connection with measures to restrain stock watering and over-capitalization there should be measures taken to prevent at least the grosser forms of gambling in securities and commodities, such as making large sales of what men do not possess and "cornering" the market. Legitimate purchases of commodities and of stocks and securities for investment have no connection whatever with purchases of stocks and other securities or commodities on a margin for speculative and gambling purposes.

There is no moral difference between gambling at cards or lotteries or on the racetracks and gambling in the stock market. One method is just as pernicious to the body politic as the other kind and in the evil worked far greater, but a far more difficult subject with which to deal.

Protect Business.
The great bulk of the business transacted in the stock exchanges is not only legitimate, but is necessary to the working of our modern industrial system, and care would have to be taken not to interfere with legitimate business interests.

Moreover, there is a special difficulty in dealing with this matter by the federal government, inasmuch as the public like ours. But if it is possible to devise a way to deal with it, the effort should be made, even if only in a cautious and tentative way. It would seem that the federal government could at least act by forbidding the use of the mails, telegraph and telephone wires for the gambling in stocks and futures.

The Standard Oil corporation and the railway company have both been found guilty because of criminal misconduct; both have been sentenced to pay heavy fines; and each has issued and published broadcast statements asserting their innocence and denouncing as improper the act of the courts and juries in convicting them of guilt. These statements are elaborate and are untruthful in important particulars.

The attacks by these great corporations upon the administration's actions have been given a wide circulation throughout the country, in the newspapers and otherwise, by those writers and speakers who consciously or unconsciously act as the representatives of predatory wealth—of the wealth accumulated on a giant scale by all forms of iniquity, ranging from the oppression of wage-workers to unfair and unwholesome methods of crushing out competition and defrauding the public by stock-jobbing and the manipulation of securities.

Certain wealthy men of this stamp whose conduct should be abhorred by every man of ordinary conscience and who commit the hideous wrong of teaching our young men that phenomenal success must be based upon dishonesty, have during the few months made it apparent that they have banded together to work for a reaction.

PURE AIR AND REGULAR HABITS WILL KEEP OFF GRIP CLUTCHES

Influenza or la grippe and how to cure and prevent it, is exhaustively treated in the November bulletin of the state board of health by Dr. E. A. Pierce. Its history and peculiarities are well described and much information of value is contained in the paper.

"La grippe is an acute infectious disease, whose history dates back 2,000 years," reads the paper. "It frequents all parts of the civilized world and attacks all ages and conditions of life. It may be carried long distances in the clothing. In the last great epidemic the disease spread from St. Petersburg to the state of Kansas in two months."

"Children as a rule have the disease much less severely than adults. The aged and poor in health suffer most. In the case of the more common assumption than all other causes combined. People who live or sit in badly ventilated or overheated rooms or in crowded assemblages, when coming out into the fresh cold air, are often chilled and the disease follows."

"The symptoms of the disease are usually, first, a tired feeling, followed by sneezing and a sense of having taken cold; pain and aching of the body. Constipation and fever are almost always present. If the bronchial tract of lungs are the seat of the trouble, a tightness of the chest and cough will follow. This may rapidly lead to bronchitis or pneumonia, and if neglected, to consumption."

"If people would avoid la grippe, or at least successfully resist its ravages, it will be necessary for them to work, eat and sleep regularly, to avoid all excesses, keep in the open air as much as possible, avoid over-heated and badly ventilated apartments, keep the bowels regular, and avoid patent medicines and nostrums, and in a word, keep the bodily vigor at its highest possible standard."

During November there were 534 births in Oregon; 33 deaths; 57 cases of typhoid from which there were 29 deaths; 61 cases of smallpox from which there were no deaths; and there were 456 marriages. The bulletin of health may be obtained by addressing a postal to Dr. R. C. Yenny, secretary of the board, Marquam building.

High north winds today was the cause of a great many fires. Between 7 o'clock this morning and noon there were eight chimney and roof fires caused solely by the wind. The fire department was called out nine different times. The alarms came frequently and from every section of the city. There were no serious fires, due to the efficiency to the department.

At 7:04 o'clock there was a chimney fire at 102 Fifth street; at 9:24 o'clock an alarm was turned in from East Twenty-eighth street and Sandy road, but there was no fire; at 9:55 there was a chimney fire at 609 Tenth avenue; at 10:42 a chimney fire at 371 East Gilliam; at 10:52 a chimney fire at 1238 Macadam road; at 10:38 a roof fire at 152 East Thirty-ninth street; at 11:06 a roof fire caused by sparks from a chimney at 639 East Twenty-fourth street; at 11:07 another alarm came in for the same fire from a different box at 11:43 the last chimney fire of the morning occurred at Williams avenue and San Rafael street.

A double team hitched to an Olds, Workman & King delivery wagon became frightened this morning on Alder street between Fourth and Fifth streets at a rolling keg of nails and dashed down Alder to Second, where they collided with a Twenty-third-street car. Both horses were knocked off their feet, and one of the horses slid beneath the wheels of the car. The motorist stopped the car quickly and the horse was taken out uninjured.

A Great Physiologist PERMITS POINT TO BUILDING BOOM

Once Said the Way to Keep the Stomach Healthy is to Exercise It. But He Did Not Tell How to Make It Healthy.

The muscles of the body can be developed by exercise until their strength has increased manifold, and a proper amount of training each day will accomplish this result, but it is somewhat doubtful whether you can increase the digestive powers of the stomach by eating indigestible food in order to force it to work.

Nature has furnished us with a perfect set of organs, and if they are not abused they will attend to the business required of them. They need no abnormal strength.

There is a limit to the weight a man can lift, and there is also a limit to what the stomach can do.

The cause of dyspepsia, indigestion and many affiliated diseases is that the stomach has been exercised too much and it is tired or worn out. Not exercise but rest is what it needs.

To take something to the stomach that will relieve it from its work for a short time—something to digest the food—will give it a rest and allow it to regain its strength.

The proper aid to the digestive organs is Stuart's Dyspepsia Tablets, which cure dyspepsia, indigestion, gas on the stomach and bowels, heartburn, palpitation of the heart, and all stomach diseases.

Rest and invigoration is what the stomach gets when you use Stuart's Dyspepsia Tablets, for one grain of the active principle in them is sufficient to digest 3,000 grains of food.

The Tablets increase the flow of gastric juice, and prevent fermentation, acidity and sour eructations. Do not attempt to starve out dyspepsia. You need all your strength. The common sense method is to digest the food for the stomach and give it a rest.

PERMITS POINT TO BUILDING BOOM

Total Value of Proposed Buildings Exceeds Figures for January, 1907.

Hard times have gone a gloaming in Portland if the amount of city building permits is to be taken as a criterion. Up to noon today there had been 294 permits taken out for the present month with a total value of \$617,445, while in January 1907 there were only 218 permits with a total value of only \$604,475.

When the result of the month was circulated about the city hall today, contractors and brokers felt elated at the showing made and freely predicted that 1908 would be the banner year in the history of building in Portland. All of these men persist in the statement made by contractors in November when the total permits amounted to only \$199,210, because of the banking holidays, that 1908 would exceed all years in the way of new buildings.

This month's total beats them out in their contention and they say that February, the shortest month in the year, will exceed January by a large margin. Several of them freely predict that the total for February will be around the million mark, although the total for February, 1907, was \$385,748.

There was but one large building included in this month's permits and that was for a value of \$100,000. The rest of permits were for residences and small store buildings ranging in sums from \$400 to \$10,000. One dwelling permit for \$25,000 was issued this month.

WIFE WEAKENS ON DESERTION CHARGE
(Special Dispatch to The Journal.)
Palouse, Wash., Jan. 31.—William McKelvey, brought back from Montana on a charge of wife-desertion, when arraigned before Judge Chidwick pleaded not guilty. His wife, on the stand, developed the fact that there was nothing to the charge; they had only had a little quarrel and the husband had gone away to Montana without any intention of deserting her. She declared her husband had provided for her since their marriage and she would not testify against him if held for trial. The prosecutor moved the dismissal of the case.

Coffman's Society Chocolates given away. See announcement on the "Want Ad" page.

Everlasts \$1 at Metzger's.

BRISK WIND FROM NORTH CAUSES MANY SOOTY CHIMNEYS TO BLAZE

High north winds today was the cause of a great many fires. Between 7 o'clock this morning and noon there were eight chimney and roof fires caused solely by the wind. The fire department was called out nine different times. The alarms came frequently and from every section of the city. There were no serious fires, due to the efficiency to the department.

At 7:04 o'clock there was a chimney fire at 102 Fifth street; at 9:24 o'clock an alarm was turned in from East Twenty-eighth street and Sandy road, but there was no fire; at 9:55 there was a chimney fire at 609 Tenth avenue; at 10:42 a chimney fire at 371 East Gilliam; at 10:52 a chimney fire at 1238 Macadam road; at 10:38 a roof fire at 152 East Thirty-ninth street; at 11:06 a roof fire caused by sparks from a chimney at 639 East Twenty-fourth street; at 11:07 another alarm came in for the same fire from a different box at 11:43 the last chimney fire of the morning occurred at Williams avenue and San Rafael street.

RUNAWAY TEAM HITS STREETCAR; ONE HORSE ROLLS UNDER COACH

A double team hitched to an Olds, Workman & King delivery wagon became frightened this morning on Alder street between Fourth and Fifth streets at a rolling keg of nails and dashed down Alder to Second, where they collided with a Twenty-third-street car. Both horses were knocked off their feet, and one of the horses slid beneath the wheels of the car. The motorist stopped the car quickly and the horse was taken out uninjured.

The horses were standing at the curb near the sidewalk elevator of the Honeyman Hardware company. A keg of nails was placed on the elevator in the basement and started up. When the elevator came to a stop at the sidewalk the keg of nails rolled into the street and against the horses' feet. The horses started to run and ran until they met the car on Second street.

There was a small boy in the wagon who tried hard to stop the frantic team. When he saw the danger of a smash-up he slid out over the rear end-rail. The team ran into a dray standing at the warehouse door of the J. K. Kill company and snapped off the tongue of the dray. The horses belonging to the dray had been taken off and standing at one side and escaped injury.

"GRANDMA" WEDS AGED VETERAN
Anacortes Bride Has 37 Grandchildren and Three Great Grandchildren.
(United Press Leased Wire.)
Anacortes, Wash., Jan. 31.—Daniel E. Burton, aged 72, and Mrs. Pythomelia Duffey, aged 71, were married last night in this city in the home of the bride's daughter Mrs. Falk.

The groom is an old soldier having served in the Civil war with the first New York regiment. He has lived in Skagit county since 1882. The bride is a native of Kentucky. She is popularly known as "Grandma," being the mother of six living children, 37 grandchildren and three great grandchildren.

Company D Inspected.
(Special Dispatch to The Journal.)
The Dalles, Or., Jan. 31.—Colonel James Jackson conducted the inspection of Company D, U. S. G., last evening. The company showed up to good advantage and executed the drills with precision. A number of citizens were in attendance and at the conclusion of the inspection a social dance was held. Captain G. E. Bartlett was the recipient of thanks on account of the splendid showing made by his command.

BUNDE UP AND PREPARE TO ENJOY SEVERAL EXTRA SHIVERS

It will be colder tonight than this morning. So predicts Mr. Beals, the weather man. Easterly winds will bring the thermometer down to 25 degrees, according to his forecast this morning, and that will mean exactly three degrees colder than this morning.

Ordinarily a thermometer at 23 degrees does not mean very cold weather, but somehow many shivers and complaints bitterly of the temperature early this morning. The wind comes from the east and became quite "biting." This added the temperature considerably in making itself felt.

The sharp ice formed on shallow waters during the night and remained intact throughout the day in spots from which the mid-day sun was excluded.

HOTEL RADIATORS ATTRACT SHIVERING LOAFERS INDOORS

Cold weather makes most people ambitious—some people ambitious to get out and walk and others ambitious to sit around the fire or a radiator.

"This is the biggest day we've had around the fire for as the number of loafers is concerned," a hotel clerk said this morning.

"There's a fellow sitting over there who has been out of the lobby today. And he won't leave, either, until it's time to go home for dinner."

LOSES HORSE RACE AND KILLS HIMSELF

(United Press Leased Wire.)
Los Angeles, Jan. 31.—Thomas Jeffries, an old employee of the "Lucky" Baldwin racing establishment, committed suicide yesterday at Arcadia race track by opening an artery in his wrist and then slaying his horse. His body was found in the rear of the hotel.

Jeffries had been in the employ of Baldwin for 20 years and was well known by horsemen all over the country. Failure of the horse on which he had placed a bet is the supposed cause of Jeffries' suicide.

DRINKING MEN NOT WANTED

The above sign is now seen in many shops and offices in this city, because drinking men are unreliable.

Competition is too keen and life is too strenuous for an employer to keep men on his payroll whose nerves are unsteady and whose brains are not clear. Every line of business is beginning to close its doors to drinking men.

Drunkenness is a disease and like most diseases—has its remedy. Orlin is the reliable treatment and is sold under a positive guarantee to effect a cure or your money will be refunded. Orlin is in two forms: No. 1, which can be used without the patient's knowledge in tea, coffee or food; and No. 2 for those who wish to be cured.

The guarantee applies to both forms. Mailed in plain sealed package on receipt of \$1.00. Write for free booklet, mailed in plain sealed envelope. The Orlin Co., Washington, D. C., or Clarke-Woodward Drug Co. and nearly all druggists in Portland.

FURNACE BUYERS ARE LEGION

Every week even at this season we enroll the names of prominent citizens as buyers of FOX FURNACES.

Get Our Figures--You'll Save Money
Save fuel, save annoyance, save yourself needless repairs, etc.

Every Furnace is Absolutely Guaranteed
Every Portland home needs a furnace because it is the only way to heat satisfactorily and besides increase the value of your property.

SEAT SALE FOR CARRENO OPENS TODAY

Those who will hear this world-renowned artist at the Marquam Grand Monday Evening, February 3rd

Will be interested in hearing her also upon the Welte-Mignon

This marvelous instrument, which reproduces the playing of any pianist with life-like fidelity, is acknowledged the most wonderful musical invention in history. It is little short of a miracle. To hear it is to be literally ushered into the very presence of the greatest artists of modern times. It is not so much in hearing an artist once as in the repeated performances that the greatest appreciation is derived. Through the Mignon it is possible not only to hear practically every great pianist of today—Carreno, Paderewski, Grieg, De Pachmann, Busoni, Pugno, Leschetizsky, Stavenhagen and practically all of the world's other most famous pianists, but to hear them as often as one may desire, at will—to study, to compare, to enjoy, as is possible in no other way.

MUSIC LOVERS IN GENERAL ARE INVITED
to hear the Welte-Mignon in our large Recital Hall, at any time between 11:30 and 12:30, or 2:30 to 4:30 daily.

Madam Carreno and her beautiful Chickering Piano showered with flowers

Upon her previous visit to San Francisco, Madame Teresa Carreno was given a grand ovation. Her marvelous playing completely captivated the great audience, and probably never has any artist or any piano received a more enthusiastic indorsement than was accorded her upon that occasion. Reproduced below is an extract from the San Francisco Chronicle briefly describing the remarkable scene which occurred at the close of her concert.

"The most wonderful enthusiasm for any pianist ever seen or heard in this place was shown Madame Carreno last evening at Metropolitan Hall. A splendid audience was enchanted with her artistic performance. Every number on the program was an open-eyed wonderment. The most remarkable scene of all was at the end of her work. The audience rose en masse, and with cries and bravos tore from their breasts and garments bouquets of violets, pinks and roses, and threw them at her from every part of the audience. She was completely covered with them. The beautiful Chickering Piano which she uses was filled with them. They fell on the strings and action. Encore after encore was given, and with the flower-smothered piano, she once more brought them to their seats. The enthusiasm was something marvelous. It took over an hour to remove violets and other flowers from her Chickering Piano."
