

USE JOURNAL ROSE MOTTO

June Festival Verse and Design Chosen in Contest to Be Spread Far and Wide by the Publicity Committee.

The Journal's Rose Festival motto and design are to be spread everywhere by the festival association in advertising the festival for next June.

A meeting of the publicity committee of the Rose Festival association was held yesterday afternoon and it was decided to have thousands of Japanese balloons, embellished with transparencies of the festival motto and the design, both of which were selected in the Journal's prize competitions last fall, used in illuminating business houses over the country.

In Portland all the shops and retail business houses will be decorated with the illuminated lanterns and it is believed they will form one of the most uniquely beautiful schemes ever used anywhere.

The general publicity campaign which calls for bill-board advertising in the 77 largest cities and towns of the northwest, including British Columbia, was discussed and it was decided to use 20-sheet posters instead of the 16-sheet bills as proposed at last week's meeting.

It was decided to advertise for designs and bids for the 250,000 inserts which are to be distributed among local business houses for sending out with their regular business correspondence, these designs and bids to be in the hands of the executive committee of the festival association not later than next Friday night.

A similar arrangement was entered into with regard to the 100,000 postcards which are to be issued and distributed throughout the United States during the next four months. Bids for the design and printing of them are to be accepted at the same time as the tenders for the inserts are to be received.

At the next regular meeting of the publicity committee designs and bids for the 10,000 invitations which are to be sent to distinguished citizens all over the country are to be received.

A special committee is to be appointed within the next few days to meet with the executive board in regard to setting aside of the old garbage crematory site as a rose garden and public playground. The Rose Festival people are anxious to secure the widest publicity for their plan, and during the winter and the association will do all in its power to assist the superintendent of the garbage crematory in his efforts to make the site a garden of blooming roses.

LUNGS TORN BY FOUR BULLETS

Warren Wheaton Found by Roadside—Body Full of Wounds.

Warren Wheaton, proprietor of the Popular Kitchen, 133 1/2 Fourth street, is lying at the Good Samaritan hospital in a very critical condition, the result of a four bullet wound, supposed to be self-inflicted, received yesterday afternoon. Both lungs are punctured and one bullet passed completely through his body. At a late hour last night his recovery was problematical.

He left his restaurant yesterday morning about 10 o'clock, ostensibly to get a shave, and from that time until 5 o'clock yesterday afternoon, when he was found by Dr. Rosenthal in Oswego lying unconscious by the roadside with a .33-caliber revolver near him. Nothing is known of his movements. The doctor and a friend brought the unfortunate man to the Good Samaritan hospital, the police were notified and by means of papers on his person his identity was established, and his wife summoned. She, alarmed by his unaccountable absence and knowing of his depression because of business troubles, had already feared the worst, and had notified the hospital as early as 2 o'clock yesterday afternoon, to be on the lookout for such a man.

Wheaton came here from South Dakota early in December and bought a half interest in the Popular Kitchen from D. G. Brown, the proprietor. Later he bought the entire business and sent for his wife to come here to join him. For the last few days he has been despondent and blue over financial difficulties, and yesterday evidently made an effort to end everything. Wheaton lives at 188 Tenth street.

OREGON HAS REDWOOD FOREST.

An Oregon Redwood Grove.

Grants Pass, Ore., Feb. 1.—Those who believe that there is no redwood timber in Oregon can easily be convinced otherwise by consulting the figures being prepared by the local branch of the United States forestry department. There are entire townships of the finest redwood timber in southern and western Curry county. The timber officials state that the timber is equal in quality to the best redwood of California.

As the accompanying photo shows, the big trees of Curry county are equal to the famous big trees of the Golden State. Superintendent Anderson, of this city, who has charge of the southern Oregon reserves, says he will place a number of government rangers in the Curry county redwood district this summer, and a complete estimate will be made of the timber. The main portion of the redwood timber is within the boundaries of the national forest reserve.

FAMISHED OLD MAN SINKS IN GUTTER—LET THE DANCE GO ON

Facing the sharp winds which swept along the street and endeavoring to hold a banner broadside against the cold blasts, an old man trudged along on Washington street last evening in his humble efforts to earn enough money with which to buy a meal.

The man was thinly clad, his well worn shirt was open at the neck, his shoes were old and worn and he was without an overcoat on the coldest day of the winter in Portland.

Thousands glanced at the banner—at the advertisement which the old man carried so faithfully. But no one paid the least attention to the man himself.

He had agreed to carry the banner a certain number of hours before he received pay for his labor. Despite the anticipation of the meal in sight as soon as he finished his task, the old man felt himself weakening.

"Dance tonight," he called. "Come, enjoy yourselves," read the banner above the old gray head.

The thought that he was advertising enjoyment, happiness for others, never occurred to the man as he continued on his way along the thoroughfare dodging carriages, bicycles and automobiles, from which echoed the laughter and cheering words of happy souls.

A crowd soon gathered around the helpless form. And then the old man knew no more. The dance sign lay in the gutter.

WIDOWS ARE MOST POPULAR IN IOWA LEAP YEAR CLUB

"This is leap year, which reminds me that 200 widows of Vinton, Iowa, have recently leaped into fame," said Harold F. Fields, of Des Moines, at the Hotel Perkins last night. "These widows I speak of have formed a leap year club for the sole purpose of getting husbands. If they do not succeed this year they lose their membership in the order and have to pay a fine besides."

"The women simply became tired of being widows so they organized. Several of the new idea club members are wealthy, many of them are pretty, and all in all one could hardly get a bad bargain, no matter which one he married."

"If I were a young man, if I were not already married, looking for a wife, or if I were a Mormon, I would go to Vinton and locate in a jiffy."

"Widows are all the rage in the U. S. Iowa town. It might pay some of the Portland young men to pay a visit to Vinton. I'll bet the new club quits business the last of the year."

NEW SAN FRANCISCO JAPTOWN GETS ORDER TO MOVE QUARTERS

"Since the fire of April, 1906, a Japanese town has been established in San Francisco in that part of the city bounded by Fillmore, Sutter, Franklin and Ellis streets," said George E. Starr, of San Francisco, at the Hotel Portland, last night, "but recently an order has gone forth from Chief of Police Bigsby that the foreigners should vacate this section of the city to which they refer. There are stores of every kind, restaurants, tailor shops, boarding houses and hotels, and a few of every kind of merchandise, in this section. The city officials are making every effort to handle the situation with as much diplomacy as possible and the citizens are lending their assistance. If the plans of the authorities are carried out, San Francisco's Japantown will be combined with its Chinatown, making one of the greatest oriental quarters on the continent. Chinatown alone now has a population of 15,000."

WRITENS THE SKIN

The formula given below will be found wonderfully effective for whitening the skin of the darkest complexion. This mixture, while being absolutely harmless, has a peculiar chemical action on the surface and imparting to the creaminess softness which is so desirable.

The formula was given out by a noted dermatologist and is as follows:

Two ounces of Rose Water; one ounce Spirits of Cologne; four ounces crystallized Sartinol. Put the Sartinol in a pint of warm water, then add the Rose Water and Cologne Spirits, and after dissolved and cooled, strain through a fine cloth. These ingredients are obtainable from any well stocked drugist.

This will make a supply sufficient for a month's treatment, although the beneficial results are usually apparent after the first few applications. This should be used daily and massaged well into the skin of the face, bust and arms. It produces a glowing sensation and the use of powders or rouge are entirely unnecessary.

MILLIONS FROM EAST

Life Insurance Company Will Offer Money at Low Rates of Interest—Rates Will Be Higher Than Now Obtained on Atlantic.

Arrangements under way for some time by the Equitable Life Assurance Society of New York to place \$5,000,000 subject to loan through a Portland agency are nearing consummation, and within a very short time the money will be available. It will be followed by the placing of larger sums by the same company through this agency.

The result is expected to have the effect of causing a severe jolt to a certain class of capitalists who have had large sums of money to loan during the financial stringency and have held out for exorbitant interest rates and unreasonably heavy security. Many thousands of dollars that have been held up for 7 and 8 per cent and lent on these and even higher rates for short periods of time, will be begging as soon as the money market becomes easier, as it is bound to do with the advent of a few millions of eastern money.

The interest rate to be charged for the use of the Equitable's money will not exceed 5 and 6 per cent, and some of it will undoubtedly be loaned at 5 per cent. The company gets 3 and 4 per cent for its money loaned on long time in the east, and 5 per cent in the middle west, and on the Pacific coast the bulk of it will be let out at 5 and 6 per cent. It is expected that the Portland agency will have no trouble in at once securing the cream of the current business.

Large loans made in Portland on ample security have during the period of depression drew 6 per cent. There are a few old time loans of large porters still outstanding at 5 per cent. The lowest rate of interest believed to obtain in Portland on any large loan is that of the Chamber of Commerce building, which for years has had a very low rate of interest. When the New York Life first made a loan of \$400,000 on this time it property changed ownership, when under pressure of the existing prosperous times the new owners, it is said, consented to an increase of the interest rate to 4 1/2 per cent.

OFFICIAL OF CHINA COMING

Imperial Commissioner Expected in Portland Before Visiting Europe.

(United Press Leased Wire.) Peking, Feb. 1.—Chinese Imperial Commissioner Yang Shih Chi will be in Europe shortly looking for commercial hints to apply to the celestial kingdom's trade system. With him are six high officials, several of whom were educated in Europe or the United States.

Commissioner Yang belongs to one of the oldest families in China. He is minister of agriculture, commerce and industry, and is wide awake and very progressive. He and his suite have been charged with conditions in Siam and the Straits Settlements and they are looking over the situation in Java now. From Peking they sail for Europe, will visit the United States and Japan.

Local Chinese are expecting a commissioner from their government to arrive in Portland some time this month or in March. They are not certain who the official will be but one official is believed that Yang Shih Chi will spend some time in Portland before making his European visit.

"TERRIBLE" REAGAN IS SENT TO PRISON

(United Press Leased Wire.) Vancouver, B. C., Feb. 1.—Johnny Reagan, alias "Terrible" Reagan, was yesterday sentenced to six months in jail on a charge of vagrancy. Reagan is well known on the coast and has recently completed a term of three years in the British Columbia penitentiary. He was convicted of the same charge in Vancouver. Reagan is the son of a prominent Canadian manufacturer who that he had off several years ago after he had been convicted of a number of crimes.

ROOSEVELT ROASTED BY CHANCELLOR DAY

(United Press Leased Wire.) Syracuse, N. Y., Feb. 1.—To be entirely honest and frank, I am compelled to say that the message reads like the ravings of a disordered mind. This is one of the comments Chancellor J. Day of Syracuse university made yesterday after he had read the message that President Roosevelt sent to Congress. "In my opinion it is plain that it is not a message to Congress, but a harangue to the people," he continued. "The message is a document in which an appeal is made to class prejudice suggests a shrewd but reckless demagogue."

CUBANS ASK FOR AN ISSUE OF BANK NOTES

(United Press Leased Wire.) Havana, Feb. 1.—The Agrarian league has presented President Magoon a project for the emission of 1,000,000 in bank bills of denominations from \$1 to \$1,000, to be delivered in amounts of \$100,000. The rate of interest on the bills is the rate of \$100 in bank bills, against \$90 in these government securities, which are to carry the name of the bank using them, and given to the depositors of banks that have to close their doors. All payments, less 20 per cent of custom house deposits to be made in American money and the secretary of the treasury of the United States to have supervision of our national banks.

CONTRACTOR TRIED ON THEFT CHARGE

(Special Dispatch to The Journal.) Pendleton, Ore., Feb. 1.—For the past two days the circuit court has been occupied with the case of F. T. George against J. Hagan, who is charged with having stolen a large quantity of merchandise from the George Miller store at Echo.

A large number of witnesses have been examined. The defendant was a contractor for the government on the Umatilla river and promises to continue to Wednesday.

Why Not Own a RELIABLE WATCH?

DIAMOND MAKER PLAYS HIS HAND

Frenchman Still Asserts Prison Cannot Make Him Confess to Taking.

(United Press Leased Wire.) Paris, Feb. 1.—Henri LeMoine still insists that he can still make good making commercial diamonds, and the French authorities insist he must "show them," if he expects to get out of jail. His counsel is trying to induce the government to accept bail. The government replied he can get out whenever he agrees to make a diamond in the presence of a few of the government's witnesses. But Henri purposes to keep his formula to himself, and will midget in a cell rather than give the great secret away to a "lot of prying government experts."

The formula is in a deposit box in a London bank. The French government has asked the bank to hand it over. The bank declines, except on LeMoine's order, and LeMoine won't give it. Most people think LeMoine could not make a diamond if he tried. Lord Armstrong is a good judge, however, and he declares he has seen LeMoine do it; knows there was no sleight-of-hand about it; he examined the diamond and found it a real and perfect one—a beauty—though rather small.

When the case comes to trial the government has two witnesses who will swear they supplied LeMoine the real diamonds which he hid into his retort, pretending to manufacture, then handed to his dupes as his own productions.

Sir Julius Wither, who caused LeMoine's arrest, is evidently a good deal puzzled himself. Even after the "diamond maker" went to jail, Sir Julius would not pay a round sum for the prisoner's secret processes if the latter would reveal it and let him make his own diamonds. LeMoine declined. Sir Julius, acting for the De Beers company, paid \$150,000 to LeMoine for an interest in the diamond-making business.

He grew suspicious because LeMoine would make diamonds only when he felt like it, and the arrest followed.

MADE GARDEN WHILE OLD WINTER TARRIED

(Special Dispatch to The Journal.) Brownsville, Or., Feb. 1.—This section is experiencing the first real winter weather of the season. Up to the change that came two days ago considerable plowing was in progress. A number of farmers contemplate seeding tracts to clover and alfalfa next spring, and it is thought the soil holds moisture better when plowed early. The ground has been in fine shape for plowing all winter.

WANTS FRANCE TO CALL FINANCIERS

Rome, Jan. 31.—Luzatti goes to Paris with the object of soliciting France to take the initiative in an international congress of banking establishments to consider the question of the actual crisis in the world's supply of gold. Tittoni declared in the chamber of deputies that the demand for labor in the South American republics relieved the fear of the repatriation of Italian laborers from the United States. It is proposed to raise a monument to Archimedes in Syracuse, Italy.

THE DUTY OF GLASSES

Is to focus the rays of light at the proper point, thus relieving the muscles and nerves of the strain that would fall upon them if they were unassisted by lenses.

We Are Able

To relieve with glasses, troubles that are sapping the nerve supply by causing the muscles to work in an effort to do their own focusing.
