**Strong Competition in Packing Trade Will Do Much to Help Build Up Livestock Industry in Pacific Coast Region**

## UTTING OUT JAP ORANGES

### ear of Infection Causes Trade to Stop Buying Them Along Coast.

Produce market features:
Agitation against Jap orange.
Egg market is settling.
Salmon run tapers off again.
California orange market slow.
Storms stop crab gathering.
Poultry market begins to sicken.
Small arrivals of dressed meats.
Potatoes and onions are slow.
Millfeeds are up another notch.
Wheat and flour are up another notch.
Low prices in apple market.
Fresh shipment Florida tomatoes.
Hop business continues fair.

**Agitation Against Jap Orange.**

Almost every horticultural society of minence on the coast is either now king, or is about to make complaint inst the sale of Japanese oranges. ery shipment that arrives from pan has to be fumigated at the port entry because of infection and the nigation in practically every instance ils what little flavor the fruit has. thorities differ as regards the Jap nge being a menace to the public alth, but all agree that it would be lhardy to allow the fruit to be exed for sale in American markets uns it is proven beyond a reasonable bt that no such infection exists. It stated that several of the Pacific coast it inspectors have condemned the it recently because of scale and er fungus and it is likely that Multnah County Inspector Deich's attenn will be called to the matter of ally at an early date.

**cers Cutting Japs Off Their List.**

number of grocers here have quit ing Japanese oranges because of the r that they may be infected. The t that the government is compelled fumigate every box upon arrival s to them as if there is something ically wrong with the fruit and cers are not taking any chances by dling the suspected article. A large ber of shipments have been dumped the ocean both on Puget sound and San Francisco. Recently, it is stated, government custom officials sold 0 boxes in the north at 5c a box.

**Oranges of Very Poor Quality.**

The Japanese orange at the best is y poor quality fruit and does not in to compare with the California cle—the tangerine—either in size, y or sweetness. The American fruit so much superior to the foreign ticle that the trade considers it apest no matter what price the anese fruit sells at. Of late there been a noticeable increase in the s of California tangerines because the poor quality of the Japanese t and the fear of infection.

**Egg Market Is Settling.**

The local egg market is settling back its regular channel after the recent snap and the attempt of the trade boost values beyond their legitimate ding. Along the street today eggs being freely offered by receivers at 26c a dozen and many sales are made at each figure. Receipts at moment are quite good.

**Chickens Are Not Moving.**

ealers report a lack of interest in chicken market while supplies are dually showing an increase. Rets here during the past few days been rather liberal and dealers say retailers are holding back. There no longer any spirited demand for ks, but on account of the small arls in that line the market is holdits own fairly well, although it is believed that the American trade pay such high figures as were rged the Chinese for the festival lies.

**Brief Notes of the Trade.**

resh shipments of Florida tomatoes shown along the street. Stocks r than those from Cuba. Selling at same price.

lmon run is tapering off again acding to the reports coming from the r river. Some small supplies of et smelt in with sales at former es. Fish dealers say that the storms stop the gathering of razor clams crabs along the coast.

rade in both the potato and onion ket is rather slow with practically buying in either line lately.

O. Lowndale of Lafayette was in city yesterday and reported that ther conditions had been too severe allow withdrawals of apples from age. Apple market just steady.

## AGITATION AGAINST SCAB IS SUCCESSFUL

(Special Dispatch to The Journal.)

Pendleton, Or., Feb. 5.—The vigorous campaign carried on by federal and county inspectors against sheep scab during the past year has resulted in the total elimination of that disease from Umatilla county and it is not believed there remains a solitary case among Umatilla county sheep. Heretofore many bands have been affected and have shown it especially during the winter season in loss of flesh and wool. The herds are all in excellent condition and a large wool and lamb crop is promised.

**Sugar Supplies Good.**

There has been no arrival of cane from the Hawaiian Islands during the week, says the San Francisco Trade Journal, but there is a good stock of refined and beet on hand. The California and Hawaiian refinery has started up again and now turns out 400 tons of refined every day. There is consequently quite a good supply for the jobbing trade. There has been a good demand during the week both for the local and export trade, especially to the islands. There has also been a good demand from the coast trade generally. Prices have not changed here for some time, although higher further east.

**Cannery Puts Up Beef.**

(Special Dispatch to The Journal.)

Brownsville, Or., Feb. 5.—The Brownsville cannery has been experimenting in the canning of beef and it will probably put up a large amount in the near future.

**Asparagus Crop Good.**

Reports from Antioch, California, state the asparagus crop is in fine condition, and early shipments will probably be made about February 10.

**Northwest Crop Weather.**

Western Oregon and western Washington—Rain tonight and Thursday; southerly winds, fresh along the coast. Eastern Oregon, eastern Washington and Idaho—Rain or snow tonight and Thursday.

**Chicago Dairy Market.**

Chicago, Feb. 5.—Butter firm at unchanged prices. Eggs, firsts, 23c. Cheese, steady at 12@13c.

## CRY FOR SHEEP BRINGS SUPPLY

### Run During Past 24 Hours Fair—Best Stock Firm at $6 in the Yards.

PORTLAND LIVESTOCK RUN.

| | Hogs. | Cattle. | Sheep. |
|---|---|---|---|
| Today | 60 | ... | 250 |
| 1907 | 60 | ... | 10 |
| 1906 | 271 | 86 | ... |
| 1905 | 50 | ... | 250 |

Portland Union Stockyards, Feb. 5.—Receipts of sheep are again shown in the local yards and demand is so good that best wethers and lambs are easily moved off at $6. This is in reality an advance of 25c over previous quotations. The run for the 24 hours was 250 head, exactly the same as two years ago this date. But 60 hogs were received in the yards today, the same as on this date a year ago.

There remains much weakness in the local hog market, although the arrivals are not even liberal. Weakness in the east is so pronounced and prices are so low that most of the supplies for Pacific coast packers are being brought in from Nebraska. This forces additional weakness upon the local market, but values are unchanged at the former range.

Cattle market is quite steady, with no arrivals in the yards during the 24 hours and only a small run the previous day. As previously the best call is for cows, because of the low values, but there is an improving call for steers because of the expectation that prices will soon do better.

A year ago today all lines were quoted firm at unchanged values.

Official yard prices:

Hogs — Best eastern Oregon, $5.00@$5.2.; china fats, $5.00.

Cattle — Best eastern Oregon steers, $4.25; ordinary steers, $4.00; best cows and heifers, $3.25@3.35; bulls, $1.75@2.00.

Sheep — Best wethers, $6.00; mixed and best ewes, $5.00@5.60; lambs, $6.00.

## SNOWSTORM MINING ADVANCED TO $1.46

### Coeur d'Alene Shares Finding More Favor and Prices Improve.

Spokane, Wash., Feb. 5.—Coeur d'Alene mining stocks are quoted firm, with an upward tendency to values on the local exchange. Of late there has been a decided improvement in the demand and buying, and in practically every standard issue a higher range of values is displayed. It was only quite recently that Snowstorm was being vainly offered at $1.02, but today there was a sale on the local exchange at $1.46. Other stocks are making a like movement.

**Buy Grain Sacks.**

(Special Dispatch to The Journal.)

Lacross, Wash., Feb. 5.—The farmers and wheat raisers of this district are expecting big crops of grain next season and have begun to look out for their sacks. An order has just been placed with the Farmers' Cooperative association here for 153,000 sacks to be delivered at 7 cents each, f. o. b., Portland, Oregon. The sacks will be purchased from the Kerr-Gifford company. There is still much wheat held at this place for shipment and the price is 68 and 70c a bushel.

## FIRE KING FIRST GUEST AT HOUSE WARMING

At 7:10 o'clock last evening fire was discovered in the vacant building at Sixth and Brooklyn streets, and before the efforts of the department to extinguish the flames proved successful the roof and entire second story of the house were destroyed. The house was recently moved to the lot, and a number of the people living in the neighborhood had planned to give a party in the structure last night. A fire was built in one of the grates, and it is thought the destruction of the building may be attributed to this fact. It is probable that in moving the house the flue was cracked, and it was because of this that the woodwork was set on fire by the fire in the grate.

**Jury in Bridgham Case.**

(Special Dispatch to The Journal.)

Chehalis, Wash., Feb. 5.—Good progress was made yesterday in the trial of F. O. Bridgham of Napavine on the charge of murdering his wife. The jury was completed, as follows: Owen H. Fries, F. E. Foster, W. A. Davis, C. Blankenship, N. W. Henderson, A. C. McKinnon, O. R. Carmichael, S. C. Carrier, A. A. Westall, James Nelson, A. McDonald and L. A. Hopkins.

Half a dozen witnesses were examined at the afternoon session.

## LOCAL WHEAT IS STRONGER

### Better Tone Prevailing Elsewhere Adds to Renewed Strength Here.

A somewhat stronger tone is appearing in the local wheat situation. Late trading in Europe and in Chicago has been at advanced figures; substantial advances again being shown by all the world's market today.

While practically no business has been noted in the local wheat market during the past week, there is a disposition among foreign buyers to again get into action and it is quite likely that European agents would take a considerable amount of wheat if they could secure it at present values.

Millfeeds are so scarce and so firm because of the lack of oriental flour trade that those who have stocks are asking and are obtaining another advance of $1 a ton.

Hay market is suffering somewhat from the mild weather and the increased offerings by interior holders. Advices from feeding sections of Eastern Oregon, Washington and Idaho, state that the offerings there are the largest for this period of the season for many years.

Oats and barley markets are firmer because of the decreased millfeed supply and some dealers expect advanced values to rule in the near future.

## A GOOD RESISTANCE IS MADE BY STOCKS

By Henry Clews.

Conditions in the New York stock market are somewhat conflicting. Stocks show surprising resistance to unfavorable developments; the latter having been so largely discounted by the previous declines that easy money proved not only a very strong support against renewed depression, but a powerful stimulus to higher valuations. The great increase in monetary supplies, which has been so often predicted in these advices as an inflationary element, is now having its effect, and largely accounts for the market's resistance to discouraging news. This week further improvement has taken place in the monetary situation. Funds are returning freely from the interior and coming back out of hoarding, raising the surplus reserve last week to $37,000,000 and with the prospect that it will go still higher before the limit is reached.

In this market the effects of easier money have been most notable in bonds. Since the first of January it is estimated that bond sales have increased fully 25 per cent, while transactions in stocks have declined nearly 50 per cent. There has also been a good investment demand for preferred and guaranteed stocks. Lack of confidence has had considerable to do with turning the investment demand in these directions, since any business reaction which may have to be endured will fall entirely upon the common shares of railroad and industrial corporations.

Today's stock market was firm and weak by turns, closing weak with general losses in values. Money ruled between 1¾ and 2 per cent during the day.

## MILDER WEATHER IS BRINGING MORE EGGS

"With milder weather the egg market has settled back into its former position with sales today around 25c@26c a dozen. I believe that present arrivals were those laid before the freeze and that supplies will not be so heavy for a while and will hold the market steady. This will not likely affect prices.

"Chickens are just about steady at the prices printed, but receipts are somewhat larger."—W. H. Dryer of Dryer, Bollam & Co.
