Alleging that during the latter part of her married life she has been compelled to listen to an unrestricted flow of bad language, and that her husband has left the household bills for her to pay, Mary A. Sheen has begun suit for divorce from John H. Sheen, to whom she was married in Vancouver, Wash., May 22, 1885. She says she has also become addicted to the immoderate use of strong drink, and spends his earnings over the bar instead of for her benefit. From April to July of last year, she alleges he deserted her, and when he returned promised to reform, but she has at this averted her hope of return of happy days. She asks for \$25 per month alimony, and for \$50 pending the trial of the suit.

These charges were substantiated to the entire satisfaction of the members of the board and the dismissal of the officers from the department followed. They were appointed less than a month ago.

OAK GROVE SHOWS

GET-THERE SPIRIT

Application was made by the Oak Grove Improvement association last night for membership in the Oregon Development league. Tom Richardson of the Commercial club addressed the association and explained the work of the league and the great things that the league was doing for the state. He otherwise spoke of the resources of the state which united action participated in by the whole state only could develop as they should be developed.

General rejoicing was manifest when it was announced that the association had won its fight against the railroad company for a 5 cent fare. The new rate will go into effect in 30 days from the date of the decision, unless the decision is appealed.

W. L. Crissey, secretary of the Oregon State Dairy association, also addressed the meeting and gave some profitable suggestions regarding the dairy industry.

The Milwaukee band surprised the association by being present and serenading the members. Solos were sung by Mrs. J. F. Risley and Miss Rose Pfenninger, recitations were given by Grace and Lillian Townsend and Miss Margaret Warren.

"BILLY" GLEASON IS GRANDFATHER NOW

"Billy" Gleason of the Baker Stock company is today walking down Morrison and up Washington streets, back and forth, with a very haughty air. But if haughty it is by the same token happy. For Billy Gleason is for the first time a grandfather.

That is just a roundabout way of saying that there was born to Mr. and Mrs. James Gleason this morning, a very fine son, who has, so the proud grandfather states, a fine Sir Henry Irving-like cast of features and a voice that promises much in the way of histrionic talent. In fact Miss Corliss Gleason declares that he has the best stage face she has heard in her experience and everybody knows that Mrs. Gleason knows what she is talking about.

There promises to be something in the way of an ovation for the Gleason family at the Baker theatre this evening, where "David Harum," a strictly Gleason family affair, is being presented. The only objection the young father has is that there is no place for a leading juvenile. But the youngest Mr. Gleason's days are coming.

Whitcomb Brougher.

CALIFORNIANS TO ATTEND CARNIVAL

Among the large parties of visitors at the Portland Rose Fiesta next June will be the Sacramento Valley Development association, which will run a special train over the Southern Pacific from Sacramento to Portland to carry its members to the festival on coast.

R. M. Hall and B. L. Damsen, secretary of the Portland A. L. club, have received word that preparations for the excursion have been begun.

The Sacramento valley organization is expected to come at least 150 strong. It is one of the greatest of California's promotion clubs and takes an active part in the work of the Pacific Coast Advertising Men's association.

GREAT BOON TO LIVESTOCK FAIRS

Better Service in Shipping Asked From Railroads by Association.

Discussion of better arrangements with the railroads in the matter of shipping and handling blooded stock occupied most of the time during the deliberations at the meeting yesterday of the Oregon Pure Bred Livestock Association in the Hamilton building. The livestock association according to custom holds its meeting at the same time as the North Pacific Fair association which also met yesterday in the same building.

The meeting called to order yesterday by President Richard Scott of Milwaukie was one of the best attended ever held. H. Wilson, assistant general freight agent of the Northern Pacific, and R. B. Miller, general freight agent of the Harriman lines, were invited to attend the meeting, which they did. As a result the consultation that took place was a peculiarly profitable one.

Some Better Service. It is the object of the livestock men to secure better accommodations during the time they are making the circuit of the fairs with their stock. Among other things they want the railroads to detail a capable freight agent during the fair season whose only duty will be to travel along with the stock men and see that they get accommodations at every city in which they exhibit.

Under existing conditions the stockmen are met at every station by a different freight agent. Sometimes the general freight agent and accommodations dating and sometimes he is not. In this same connection the stockmen have asked that they be allowed the use of the same cars. It is quite an item of expense and inconvenience to the breeder when they are required to build new stalls and otherwise change their cars when traveling from one fair to another. The fairs start late in August and follow in consecutive weeks until November.

If these two points can be gained the stockmen believe they will have won a big victory. Because of past troubles with the carriers many breeders of pure stock have refused to send valuable herds to the exhibitions. It will be a great concession to the breeders who show every year in the north Pacific fair circuit and a stimulus for breeding more pure stock in the northwest.

Kerds Buffer. Several breeders related to the railroad officials their experiences, telling how their herds had suffered in transit from one fair to another because of improper treatment by freight agents along the line of rail and at the point of unloading and reloading. A committee was appointed consisting of Richard Scott, H. Wilson and Frank Brown to further consider the matter.

Every fair program when it is issued by the fair association in May will have the names of the railroad freight agents and other arrangements included for the convenience of the stock exhibitors as they will have been agreed upon between the committee appointed yesterday and the railroads. This will be of immense convenience to the stockmen in every part of the northwest.

Changes in classification and premium lists were discussed. A committee on this subject was appointed yesterday and recommended that each fair adopt uniform rules. The committee was continued so it could conclude its subject by the end of the year.

It is thought that an age classification would be desirable. Premiums will also be increased both in number and value.

There was a large attendance both from Washington and Idaho besides the Oregon men and at the banquet that followed last evening at the Commercial club there were nearly 100 present. The banquet was given by the Portland Country club and Livestock association. State Food and Dairy Commissioner J. W. Bailey presided as toastmaster.

Tells of Club's Plans. S. G. Reed, president of the Portland association, started the after-dinner talks by telling of the work and intentions of the new Portland Country club and admirable opportunities presented for promoting the stock raising industry in the northwest. Mr. Reed was followed by Mr. Bailey and by H. M. Calk, both of whom spoke of the future for stock raising in this state and in Washington and Idaho.

J. A. Fischer of Sacramento spoke of the stock raising industry in the northwest and was followed by A. B. Stinson, Dr. James Withycombe, Dan Currie of Everett, Leslie Scott, R. B. Miller, E. H. Clagstone of Idaho and Frank Arley of Roseburg.

The Italian congress of workmen's organizations, meeting at Parma, and claiming to represent 1,000,000 organized workers, passed a resolution denouncing the general federation of labor because of its dependence on the Socialist party.

A Reliable Remedy for the Whiskey and Beer Habit

Very few men become drunkards because they like liquor. It is frequently the moderate drinker, who before he realizes his condition, has become a drunkard. The nervous system, having become accustomed to stimulants, is unable to do the same amount of quality of work without liquor, hence the victim drinks more and more. This is a state of disease and should be treated by Ortime. It destroys the desire for liquor, so that the drink is not missed. There is no loss of time or detention from work when it is used.

Ortime is prepared in two forms: No. 1, the secret remedy which can be used in food or drink without the knowledge of the patient; No. 2 for those who will take the remedy of their own free will. Both forms are guaranteed. A registered guarantee in every box.

Treatise on how to cure drunkenness free on request. The Ortime Co., Washington, D. C. The price of either form is \$1 a box, making the cost of the complete cure less than one tenth what it is usually charged at sanitariums, with a guarantee that the expense will be nothing unless a cure is gained. Mail orders filled in plain sealed packages on receipt of price.

Ortime is for sale by Clarke-Woodward Drug Co. and nearly all druggists in Portland.
