

HONOR NAME OF DEAD PRESIDENT

Republicans Gather at Banquet to Keep Fresh the Memory of Lincoln.

The memory of Abraham Lincoln was honored by 150 of the leading Republicans of the state who gathered at the Commercial club dining-room last night at the annual banquet of the Republican club of the city. Many speakers added their mite of praise and appreciation of the martyred president. The address of the evening was delivered by Judge Stephen A. Lowell of Pendleton, who spoke on the "Humanity of Lincoln."

The address of Judge Lowell was eloquent and roused the guests to tumultuous applause. In speaking of the causes which had made Lincoln a name such a beloved one with the American people, the speaker said:

"The luster of Lincoln's fame comes not from usual sources. His occupancy of the presidential chair at a crucial time in the nation's history, his emancipation proclamation, his martyrdom, the impelling causes, but it is certain that no other one of the presidents could be accorded all these and all the measure of Lincoln's stature in the public heart today.

"It is the supreme humanity of the man, his lowly origin, his self-education, his personal honesty, his absolute justice, his kindness of heart, his unswerving loyalty to and faith in the common people, his reliance upon them, his loyal Americanism, which, added to the tragic drama of his public career, makes his memory dear, places him upon a white pedestal as the model for American youth, and will make the name of Lincoln immortal."

Judge H. H. Northrup served as toastmaster and in introducing the speakers paid an eloquent tribute to Lincoln. General Thomas M. Anderson was one of the speakers and told of many personal meetings which he had with Lincoln during the civil war and the troublesome times following. Willis S. Dunaway spoke on "The Young Man in Politics." D. Solis Cohen discussed the "New Emancipation." Wallace McCaigant spoke on the subject, "The Men of '61'." W. A. Williams responded to the toast, "The Republican Party."

E. F. French, who resided in Washington during the Lincoln administration, closed the speech-making with some personal reminiscences of President Lincoln. Before adjourning the guests, by a unanimous vote, expressed their sorrow that poor health had caused the absence of Judge George H. Williams.

DOCTOR CROCKETT DESCRIBES WRECK

Portland Physician Assisted in Caring for Injured in Forest Grove Accident.

All three of the passengers known to have been killed in the Southern Pacific wreck near Forest Grove met death instantly, according to Dr. E. N. Crockett of Portland. Dr. Crockett, who has offices in the Mohawk building, was on the train which was wrecked and returned from the scene of the accident yesterday morning.

"I left the train at the Forest Grove station," said Dr. Crockett, "and started to go up town when some one called out that the train which had left the station but a few minutes before had been wrecked. Fortunately I had my instrument and medicine case with me and I rushed over to the trestle where the wreck occurred, being the first doctor on the scene.

"It took but a few minutes' work, crawling through the second car, to see that Mrs. Bates, her child and Mr. McDonald were beyond help. As nearly as I could figure it out they had all been seated together on the side of the car opposite that which left the track first. Apparently they had been thrown against the under side of the car and forced partially through the window. The car, which dragged along the wooden guard of the trestle for about 15 feet, had crushed them against the bridge and killed them instantly.

"The head of the child was crushed, but neither Mr. McDonald nor Mrs. Bates was badly mutilated. All were dead when I reached the car.

"As soon as I saw that I could do nothing for them I turned my attention to the other wounded. I knew none of their names, of course, but one poor fellow had been hurled feet foremost against the under side of the coach and his feet caught, as had the heads of the three who were killed. This was all that saved his life. The others injured were not dangerously hurt, but we worked over them all and got all safely out of the wreck."

WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

George K. Parrish, musician, of 372 1/2 East Oak street, Portland, Or., says: "I just as gladly endorse Doan's Kidney Pills today as I did three years ago. Time has proved that the benefits I found were permanent, and this has been very gratifying. Kidney complaint made its first appearance in my case so gradually that it was some time before I paid any attention to it. A cold settled in my back and I began to suffer from dull heavy pains in the loins and over the kidneys. It was then that I was induced to try Doan's Kidney Pills, and, as stated above, was completely relieved and not a symptom has reappeared up to this time."
