SPOKANE CLUB IS TOURNEY VICTOR

Multnomah Takes but One of Four Events at Inter-club Smoker.

(Special Dispatch to The Journal.) Spokane, Wash., Feb. 15.—Three of the four events scheduled for the inter-club boxing and wrestling tourney here last night were won by the Spokane Amateur Athletic club from the Multnomah club of Portland in the presence of the largest audience that ever assembled at the clubhouse.

Ed Johnson, the big 175-pound wrestler, was the only member of the visiting contingent to secure a victory and that was obtained by his aggressiveness over Homer Tilley, whom he failed to throw.

Disregarding the proffered hand of Ed Johnson of the Multnomah club at the sound of the gong, Louis Orsis, the local man in the lightweight boxing match, shot in three swings to the jaw, which put Multnomah out.

John Adams defeated Otto Ott of the Multnomah club in the 135-pound wrestling match. Adams secured one victory on aggressiveness and a clean fall in two bouts.

John West, the crack Multnomah club boxer, lost on decision to Eddie Johnson of Spokane, in three rounds.

Then came Orsis's victory over Tilley and Johnson's win over Otto Ott. Johnson weighed 21 pounds more than Tilley but was unable to pin the Spokane boy's shoulders to the carpet.

West lost the boxing match in the 135-pound class by too home the gold watch trophy. Johnson was unable to make the required weight and forfeited the prize. The bout was the best of the program.

Jack Myers, a heavyweight wrestler from the Twin Cities, dropped into Portland last night and is ready on the trail of "Strangler" Smith, the local middleweight. Myers is a husky chap and looks to be an ox for strength.

Myers has met some good men in the east including Johnson, the Duluth wrestler, and "The Human Derrick," a 245-pound grappler of note. Myers will make an effort to locate the local longshoreman in the next day or two for a trial bout on the prospects for a match.

SWARTHMORE "PREXY" EXPLAINS ABOUT GIFT

(Special Dispatch to The Journal.) Stanford University, Cal., Feb. 15.—President Joseph Swain of Swarthmore college gave an address in the chapel Tuesday afternoon, his remarks dealing principally with Miss Anna Jeanne's bequest to that university.

Dr. Swain discussed both sides of the question and refuted the newspaper statements that the endowment had been refused.

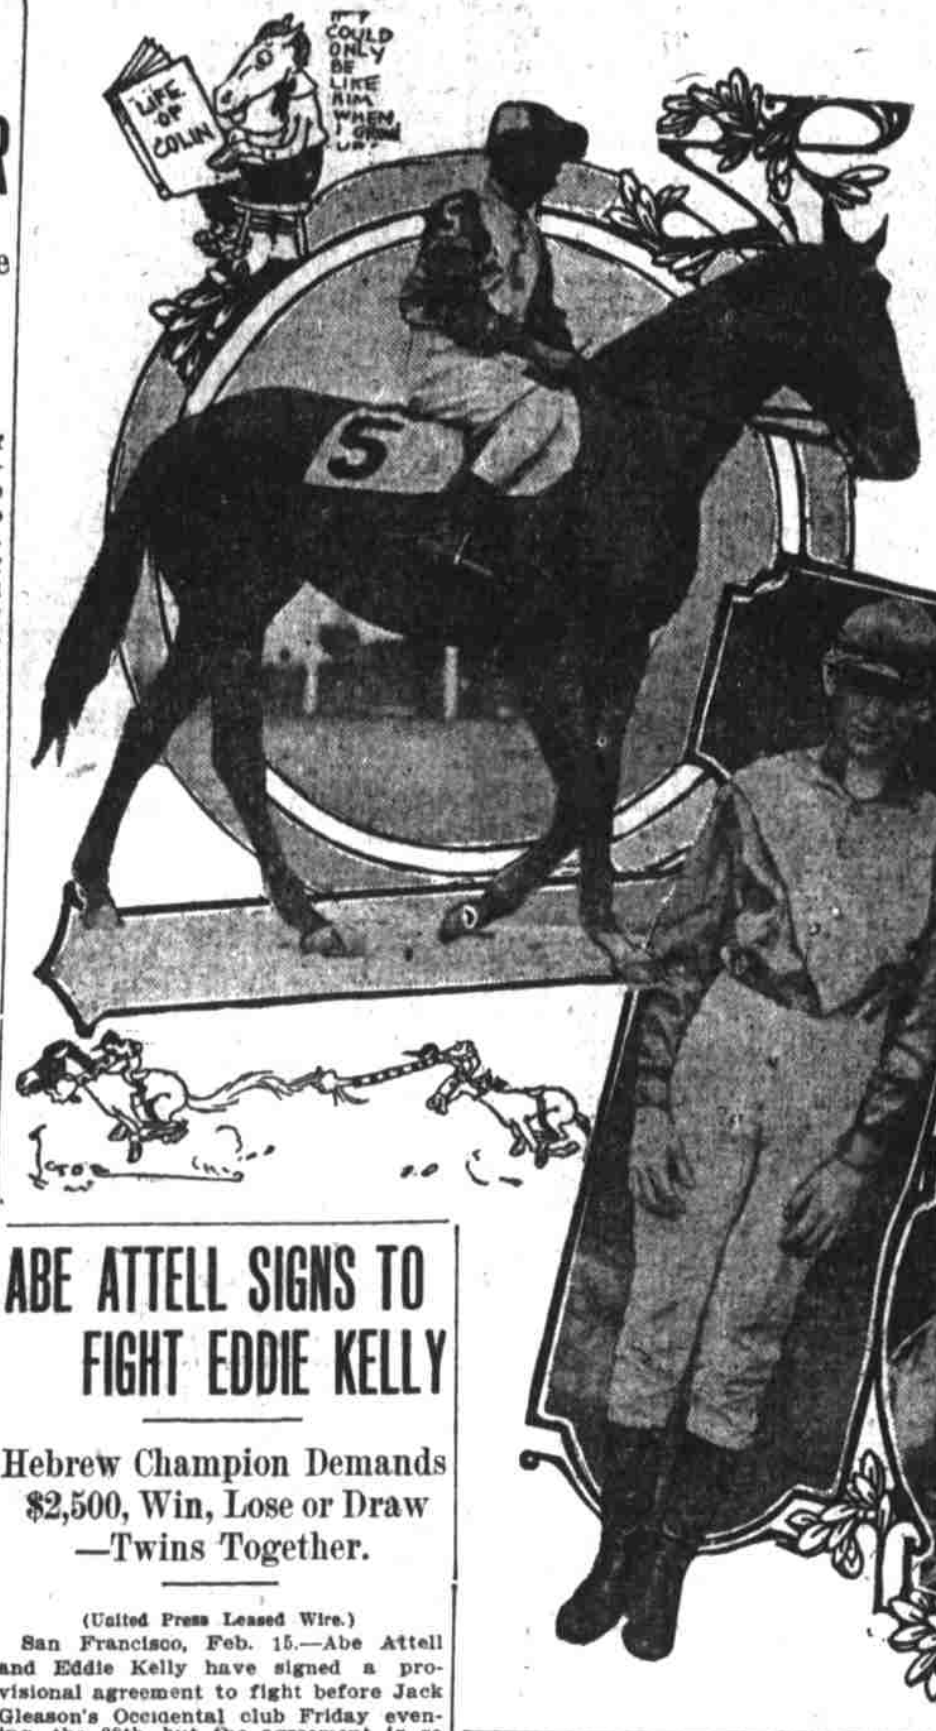

The board of trustees still has the matter under advisement," said President Swain. "It is very difficult matter to handle when several million dollars are in the balance. Should the gift be accepted, it would be placed upon the university as far as securing any future endowments is concerned and also, do not come to do away with athletic funds."

SOUTHERN COLLEGES CONTROL ATHLETICS

Takes Move Against Individual Registration in Amateur Athletic Union.

(Special Dispatch to The Journal.) Stanford University, Cal., Feb. 15.—President Pelkotte of the Pacific Athletic association visited the campus today and held a conference with several of the members of the board of governors of the Intercollegiate association.

Word has been received from California that the new P. A. A. requirement requiring all university athletes to hold individual cards from the P. A. A. had been discussed at a meeting of the executive committee of the Associated Students, and that it had been decided that it could not comply with the new arrangement, because it felt that the university should have the right of final control of intercollegiate athletics.

A large number of varsity athletes were present and presented their side of the matter. The arrangement at present in that the two universities, through their student bodies, maintain general membership in the P. A. A. is the status of all athletes in intercollegiate contests, however, is determined by the faculty athletic committees. California has notified Stanford of her action officially and expresses the hope that Stanford would adopt the same position.

WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

George K. Parrish, musician, of 372 1/2 East Oak street, Portland, Or., says: "I just as gladly endorse Doan's Kidney Pills today as I did three years ago. Time has proved that the benefits I found were permanent, and this has been very gratifying. Kidney complaint made its first appearance in my case so gradually that it was some time before I paid any attention to it. A cold settled in my back and I began to suffer from dull heavy pains in the loins and over the kidneys. It was then that I was induced to try Doan's Kidney Pills, and, as stated above, was completely relieved and not a symptom has reappeared up to this time."
